3.8. Committees at College and Departmental Levels

Each College and Department has some standing committees whose members are appointed by the Deans and Heads of Departments. These include College Councils and Departmental Councils. With the recent establishment of the Office of Institutional Planning and Effectiveness, each college was required to form a College Effectiveness Committee (CEC) and each Department has now formed an Assessment and Continuous Improvement Committee (ACIC). The IEC, CECs and ACICs work in harmony to ensure that assessment and continuous improvement becomes an integral part of evidence-based planning and development carried out at all levels in AU. In addition to various standing committees, there are a number of ad-hoc committees formed at college and department level.

4. Procedures for development, review, approval and publishing of policies

The procedure for development, review, approval, and dissemination of AU policies is shown in the flowchart below.

Flowchart for policy development, review, approval and publication.

Each college/office is required to periodically review and determine whether any of its policies and procedures require revision, replacement, or suspension. The policy owner prepares a first draft for the new policy or suggested revisions in an existing policy, based on an inclusive process including feedback from various stakeholders, and forwards it to the Office of Institutional Planning and Effectiveness (OIPE) and the University's legal advisor for their review. Once the policy assessment is finalized, the new or revised policy must be approved by the Chancellor and the Board of Trustees (BOT). After approval, the policy is published by the OIPE and communicated via circulars and AU website by the policy owner to all concerned parties in the University. All policies are required to be reviewed and revised as necessary at least once every three years by the policy owner in coordination with the OIPE.

7. Planning Policy

Policy Name	Planning Policy		
Policy Owner	Executive Director - OIPE	Responsible Office	OIPE
Approved By	Chancellor	Effective Date	Nov. 2018

This policy describes the systems and responsibilities for establishing the strategic direction and planning processes at Ajman University (AU) that will support the accomplishment of institutional goals and achieving its mission.

7.1. Purpose

The purpose of planning is to help the University's academic and non-academic units focus on opportunities for growth and improvement, in alignment with University's strategic initiatives, and promoting its mission, vision, and values. The strategic priorities of the University are integrated within its long-term strategic plan and short-term operational plans.

7.2. Policy Statement

Ajman University adopts a systematic process for the development and review of a long-term (five-years) strategic plan and short-term (annual) operational plans. The process of developing the plan provides an opportunity for collective reflection and strategic debate and alignment, drawing on the wealth of knowledge acquired through the recommendations of local accrediting bodies, regional developments and global trends. Ajman University strategic plan, comprising of six strategic goals, is the outcome of extensive meetings and focus groups with different constituents of the University including alumni, employers, partners, parents, faculty, staff, and students. It is supplemented by an Initiatives to Outcomes (ITO) document which provides explicit details and concrete measures for meeting each of the University's over-arching six Strategic Goals. The Strategic Plan is reviewed near its mid-term by all stakeholders, AU Cabinet, and subsequently by the Board of Trustees to determine if some necessary changes are required. To demonstrate alignment with the University's Strategic Plan, a short-term Annual Operational Plan (AOP) is required from each academic and non-academic unit, and budget allocation is contingent on evidence that the requested resources are aligned with the University's Strategic Goals.

7.3. Planning

The Strategic Plan will be developed, reviewed, shared, and updated according to the following processes:

1. The planning process will usually commence at the beginning of the final six month period covered by the current Strategic Plan.
2. The process will be led by the Chancellor and may be conducted as an internal process, or with the assistance of external facilitators/consultants.
3. It shall be an inclusive process involving all AU stakeholders including alumni, employers, partners, parents, faculty, staff, and students.
4. A five (5) years strategic plan, after approved by the AU Cabinet, shall be submitted to the Board of Trustees to be formally approved.
5. Once approved by the Board, the Strategic Plan will be made available to all AU stakeholders.
6. The Strategic Plan will require each AU academic and non-academic unit to develop a short-term Annual Operational Plan (AOP) to demonstrate alignment with the University's Strategic Plan. The AOPs are developed and implemented each year.
7. Budget allocation is contingent on evidence that the requested resources are aligned with the University's Strategic Goals.
8. AU Cabinet and subsequently the Board of Trustees undertake two years after the implementation of the Strategic Plan a major review to determine if some necessary changes are required. All stakeholders are involved in the review process.
9. Soon after the completion of fourth year of the Strategic Plan, AU initiates the preparation and development of the next iteration. The process begins with a systematic review of outcomes, and culminates with a robust assessment process to close the loop.
10. In the fifth and final year, the University undergoes a major review of the Mission, Vision and Goals. Upon completion of the assessment and reviews, the strategic planning cycle begins anew with future strategic goals, objectives, KPIs and targets.

7.4. Responsibilities

The Chancellor, as the Chief Planning Officer, is ultimately responsible for the overall planning process of the University. The Chancellor shall form an ad hoc task force to lead the process of development of strategic plan. The task force shall engage the Office of Institutional Planning and Effectiveness (OIPE), as it is the central player in assessment and implementation of the AU Strategic Plan within the context of organizational effectiveness.

OIPE plays a vital role in providing relevant, pertinent and timely information for development and assessment of strategic and operational plans at units and the university level. To this end, The OIPE has formed a high-level Assessment Planning Committee (APC) that comprises of the OIPE Executive Director and two co-chairs of Institutional Effectiveness Committee (IEC). The APC is responsible for planning, directing, and monitoring the assessment, continuous improvement, and evidence-based planning and budgeting across all units in the University. The IE coordinator for each college is the head of College Effectiveness Committee (CEC) and shall provide support and guidance to all Assessment and Continuous Improvement Committees (ACISs) at the department levels. The roles and responsibilities of two co-chairs of the IEC members, for academic and non-academic units, as well as for Institutional Effectiveness (IE) Coordinators are given in details in the Quality Assurance Manual.

7.5. Budgeting and Resource Allocation

AU has developed a systematic process for budgeting and resource allocation. About six months before the start of every academic year, which is also the start of the new financial year, heads of all academic and non-academic units are required to submit their Business Plans, using specific templates, to the Office of Budget and Planning. The Business Plan summarizes all manpower and budget requirements for the next academic/financial year and provides information about new hiring plans, operational expenses, capital expenditure, major initiatives to be taken, and other development plans. The Business Plans are prepared in accordance with the strategic priorities set by the higher management. The Planning and Budgeting Committee (PBC) shall review each Business Plan keeping in view the strategic priorities and University's Strategic Plan, in order to ensure that budget and resources

are efficiently and effectively allocated across all units of the University. The PBC shall discuss these Plans with corresponding unit heads, and make recommendations to the higher management concerning budgeting and resource allocation. The budget, once approved by the Cabinet, is presented to the Board of Trustees for its review and approval.

7.6. Evaluation and Effectiveness of Units

The Institutional Effectiveness Model developed by Ajman University will be followed consistently for assessment and evaluation of all academic and non-academic units leading to continuous quality improvement through closing the loop with the ultimate aim of achieving the strategic goals and the mission of the University. Each year the University shall carry regular assessment and evaluation of all Units by using a variety of assessment tools. The effectiveness results shall assess the Units level of efficiency in meeting their objectives and shall contribute in defining remedial and improvement action to academic programs as well as administrative and support services. They also contribute in revising the Mission, Vision, and Goals of AU, if so required. The Quality Assurance Manual illustrates the process of assessment and quality enhancement at AU and also provides guidance to academic, administrative/supporting departments for developing and implementing their assessment plans for continuous improvement. At the end of the academic year, all units submit their assessment and effectiveness reports to OIPE.

1.3. Content and Guidelines

- The CPS is AU's body responsible for achieving the objective of this policy by drawing on a developmental approach to career counseling. It recognizes the evolving nature of the present day job-market and acts accordingly. Thus, the CPS is set to be a mechanism to provide support to AU students and graduates in establishing career directions. This can be done through assisting them to identify and learn the skills by which they can be more effective in planning for and choosing jobs, and in making successful transition. Additionally, the increasing fragmentation of career traditional model has brought about the need for life-long learning skills and the ability to make well-informed decision regarding one's career change.
- From this perspective the CPS is planning to develop a guidance curricula specifically designed to address main issues in matters related to careers. Possible topics will include decision-making process, personality analysis, values and attitudes, career planning, training options available nationally and internationally, job search techniques and resources, among others. The list of topics is subject to consultation with Deans and Heads of departments in order to meet concerns and specific needs of students and graduates of different academic programs offered at the University.
- The career curricula program will be two-fold; one is destined to student at pre-entry level and is hosted in the College of University Requirements and Academic Counseling. It is conducted by a faculty, who assists pre-entry students in making an informed decision about the right academic program that suits their professional ambitions and interests. The second program will be hosted at the CPS and it will be destined to junior, graduating students as well as Alumni. Particular focus will be on matters linked to career decision making, supplementary skill development, job search techniques, resume and application letter writing, interviewing skills, planning and so forth. The delivery of some lectures can be devolved to former AU graduates or to people from the business circles who can enlighten students about their experience, talk about the existing career opportunities and inform them about the most sought- after skills in the market.
- These activities will be structured following two distinct ways: through group sessions or through individual or small group settings. Other measurement tools, like questionnaires, planned interviews, an aided-computer matching program and other guidance software kits will be made available to supplement the lecturing content.

- The second main area of the CPS intervention relates to career placement and more particularly employer liaison. It will include such activities as organizing selection interviews on campus, arranging employer presentations, organizing careers fairs and collecting, posting and disseminating vacancy information.
- Other plans involve encouraging entrepreneurial initiatives and self-employment. For this, the CPS in collaboration with the AU Alumni Office has in plan to invite on regular basis financial institutions that are willing to sponsor AU graduates' start-ups.
- For assessment of the performance of the CSP towards achieving the objectives of the career service policy, the office has developed a mechanism for continuously assessing its performance. For this, the CPS prepares annual reports destined to the University top management and to its direct community of students, graduate and its employers' network. Other tools of self-assessment involve keeping statistical records on attendance, student feedback, and evaluation sheets subsequent to counseling or placement activities. The CPS aspires to cooperate with AU's Quality Assurance and Institutional Research Unit (QAIRU) for more measurable benchmarks against which the CPS can evaluate its performance and eventually plan.

Due to the rapid increase in print and electronic collections, AU Library has stalled compact shelving especially for certain types of materials like documents and journals. The AU Libraries' facilities are well planned, attractive and functional. They provide secure and adequate

space helpful to study and research with suitable environmental conditions for its services, personnel, resources and collections. The library buildings provide well-planned, secure, and sufficient space to meet the immediate and perceived needs of staff and users.

5.5.4. AU Library's Collection

The library has built a balanced collection covering the entire spectrum of the AU teaching and research. It serves as a resource for students, staff, and faculty. The collection consists of books, references, periodicals, in both Arabic and English. The collection consists of resources in education; engineering sciences; humanities; Arabic language; Law; pharmacology; management; dentistry; computer science; English language etc.

- Books are shelved in a classified order using the library of congress scheme.
- Current journals are alphabetically arranged in the display area.
- Reference collection consists of encyclopedias, dictionaries, handbooks, manual, atlases, bibliographies, biographies, and other sources in all disciplines. This collection is maintained in the reference area.

5.6. Services

The library staff is available to assist students and faculty or other individuals or groups on using the library and its resources effectively.

5.6.1. Circulation Services

The circulation desk is responsible for all transactions related with borrowing and returning of books and periodicals, placing materials on reserve, recalling borrowed material, assessing fines et. Borrowing stops 30 minutes before closing time. Faculty members borrow 20 books per semester, postgraduate students borrow 15 books per semester; undergraduate students borrow 10 books per three weeks renewable for another three weeks, AU administrative staff borrow 05 books per 3 weeks renewable for another 3 weeks. Renewals can be done over the phone, online or in person.

5.6.2. Reference Services

Staff at the reference desk on the first floor offers assistance and instruction in the use of library's resources. Readers with bibliographic inquiries are advised to consult reference desk staff who are available during the library opening hours. They can contact in person or by calling or e-mailing the library personnel for necessary assistance.

5.6.3. Photocopying

AU libraries provide photocopying services that governed by Intellectual Property Law Regulations for print materials to all library users.

5.6.4. Security System

The library buildings are equipped with a security system. An electronic RFID security system is in use to prevent the loss of library materials. If an item is taken out of the library without being properly circulated, the exit gate barer will lock and an audible alarm will be triggered. In this insistence, the patron is forced to go back to the circulation desk for proper check out.

5.7. Collection Development Principles

AU Library' collection development policy is guided by the following principles:

- AU Library provides access to information resources that meet the learning, teaching and research needs of the University community on a cost-effective basis and within the resources available, whether by acquiring physical items (books, periodicals, DVDs, etc.) or securing access to licensed electronic material.
- All information resources are purchased from the Information Resource Funds. The Colleges and AU Library make the selection – selection processes require a high level of collaboration between the Colleges, their Departments and AU Library.
- Information Resource Funds are designed to be responsive to changes in course contents and research directions as well as to the differing costs of resources in various disciplines.
- AU Library is moving towards a zero net growth policy for printed collections in response to recurrent storage space shortages and to the University's e-learning agenda, which requires that more space be allocated to flexible learning spaces rather than storage areas.
- Web-based electronic resources, when available, are the preferred option because (a) they maximize users' access to collections independently of time and location; (b) they make it possible to ease space issues for printed collections while sustaining the same level of collecting; (c) the level of access to electronic resources provided by the library is becoming as important as the size of its physical holdings.
- Unnecessary duplication of resources must be avoided. (Information Resource Funds cannot be used to purchase materials for locations other than AU Library).
- Collection evaluation, stocktaking and weeding exercises are carried out on a regular basis to ensure that AU Library continues to meet the evolving learning, teaching and research requirements of the Colleges.
- AU Library works in close collaboration with other information providers and agencies to enhance access to remote collections, in particular, via inter-library loan and document delivery services, reciprocal access schemes and collaboratively negotiated license agreements.
- AU Library is committed to intellectual freedom and will not exclude or withdraw from availability any material, as long as it is legal, solely on the grounds of an author's race, nationality, religion, gender, sexual orientation or opinions, nor because of partisan or doctrinal disapproval.
- AU Library collection development policy will meet all relevant statutory requirements such as, for example, the Disability Discrimination Act 1995, the Race Relations (Amendment) Act 2000 and the Special Educational Needs and Disability Act 2001.

5.7.1. Collections and Formats

The collections include both primary and secondary sources of different types (books, periodicals, official publications, pamphlets, theses, datasets, works of art etc.) and in a variety of format (print, digital, computer software, microforms, audio-visual etc.).

- Digital resources (born-digital or digitized) include the following:
 - Subscription-based resources (e.g. electronic journals) and purchased items (e.g. electronic books, CD-ROMs)
 - Material locally created and deposited in the University's digital institutional repositories: e.g. e-prints (research papers etc.), e-theses, past exam papers and e-learning materials;

- Material freely accessible on the Web selected for inclusion in the University's e-Library;
- Physical collections are currently located in the following sites: Library (1) & Library (2).
- Some material is relegated to store. Criteria for relegation to store are defined in section 3.3 of this document.

5.7.2. Funding and Budgeting Priorities

Information resource funds are now regarded in the University budget model as an institutional budget. They are not therefore part of a college budget and AU Library has been assigned the responsibility of managing them. However, this cannot be achieved effectively in terms of meeting learning, teaching and research needs without working closely with academic colleagues in Colleges and their Departments.

Allocations:

- Allocations have been worked out for each Department and college based on the normal percentage increase for journal expenditure and one year average spend -including spending on books.
- Although allocations have been made for journals, this funding is ring fenced and thus subject advisors will be working with academic colleagues to select and recommend for purchase books.
- The allocations can be used to purchase books, journal subscriptions and Inter Library Loans.
- New journal subscriptions - any requests for new journal subscriptions should be considered on an annual basis in the summer ready for the next year's subscription although exceptions can be made if the situation demands.

College budgets:

- Colleges are encouraged to allocate additional funds. Commitments vary from one College to another depending on the perceived additional need by the College and its ability to afford the extra resources required.

Authorization for recommendation purchase:

- The Library Representative role is still envisaged to be one of coordinating the recommendation of items for purchase however in the new model subject advisers will have to make the final decision as to whether there is sufficient funding available to actually purchase those recommendations.
- We would expect the Library Representative in the Colleges to be empowered to make recommendations for both books and journal subscriptions.
- Spending patterns must reflect the University's commitment to ensuring high-quality information provision for both learning and teaching (at undergraduate and postgraduate levels) and research. The balance of expenditure between course and research material will however vary between Colleges, as will the balance of expenditure between books and periodicals. It is recommended, based on benchmarking with comparable research-led institutions, that Information Resource Funds be roughly split between books and periodicals.
- While AU Library does not have sufficient funds to provide copies of textbooks or other course-related items for AU students whenever they want, it will consider requests for multiple copies of items to be included in reading lists and made available on Short and Week Loan. Criteria to inform the number of copies to be purchased include the following:
 - Number of students on the course;
 - Period of time over which the item is required to be read;
 - Prominence of the item in relation to others recommended;

- Possibility of using shorter loan periods to accelerate the circulation of the item.
- It is recommended that no more than four copies of an individual title be purchased unless the College can demonstrate that there are special circumstances justifying the purchase of a greater number of copies.

Spending on research material is governed by a number of principles:

- Only two copies of any single item are bought (unless the item is also intended to be recommended to students as course-related material).
- Periodical subscriptions and the move from print to electronic format are reviewed annually.
- In the case of items likely to be consulted only once or twice or for only a short period of time, it is recommended that consideration be given to alternatives to purchase (e.g. inter-library loan and document delivery or physical access to other collections in the region or across UAE).
- Purchases of resources that are relevant to several Colleges may either be shared between more than one Information Resource Funds or supported from Colleges Funds.
- Purchases in fields in which no research is undertaken or planned will not be approved.
- Colleges, which plan to embark upon new areas of research, are strongly recommended to cost their new information provision and support requirements in close collaboration with the Library.

5.7.3. Selection responsibilities and criteria

- Final decisions on the purchase and cancellation of all information materials rest with the Manager of AU Library. However, the selection of material relies on a close and dynamic partnership between the Colleges and Academic Support Teams.
- College Library Representatives, Library Committees or Subject Advisors are responsible for selecting resources purchased from the Information Resource Funds. Only recurrent expenditure, such as, for example, journal subscriptions, must be authorized by the Deans of Colleges or Heads of Departments except where a Library Representative has been delegated to do so.
- Responsibility for purchases from the Colleges Funds lies with the designated staff from AU Library' Academic Support Teams. Suggestions from academic colleagues and students are welcome. The University's Procurement Office must be consulted before any order can be placed.
- Selection of material is expected to be made in the light of the collection development principles and funding arrangements described above and according to a number of selection criteria, including:
 - *Suitability of content, intellectual level and quality of the scholarship:* the materials selected must be relevant to the teaching and research being currently carried out at the University;
 - *Currency of information:* this is especially important in disciplines where information dates rapidly;
 - *Suitability of format:* library materials may be acquired in a wide variety of formats; when more than one format is available for the same material (e.g. print and web access, microform or CD-ROM), criteria for choosing which to acquire include:
 - Ease of access and use (including quality of user interface, when relevant, for all users, including users with disabilities);
 - Licensing conditions and authentication method for e-resources;
 - Storage space required;
 - Comparative costs;

- Ease of reproduction.
- AU Library is moving from print to electronic formats wherever possible. As is the case for all available formats, electronic resources will be preferred when there is a significant gain in terms of accessibility and ease of use in relation to the costs involved. However, there are selection criteria and procedures that are specific to electronic resources, namely:
 - Comparing contents to assess whether the electronic version is at least as complete as the print or has enhancements to the print (e.g. hyperlinks to related references, datasets).
 - Checking license and copyright conditions, including archiving arrangements, to establish, in particular, whether or not access to back-files will be removed if the subscription is cancelled.
 - Examining preservation issues and assessing whether the back-files will be migrated, as and when necessary, to ensure that they continue to be accessible with newer technology.
 - Assessing technical and staff-time implications in terms of network infrastructure, workstation requirements and the extent of any IT support and development required.
 - It is recommended that evaluation of electronic resources be carried out, whenever possible, during trial access periods.

5.7.4. Deposits

- University regulations stipulate that one bound copy of all AU postgraduate dissertations and theses be deposited in AU Library. It is expected that an increasing number of dissertations and theses will be made available electronically via the University's digital repository.
- It is expected that an increasing number of home-grown digital material, including electronic copies of academic papers produced by staff at AU, will populate the Institutional Repository.

5.7.5. Donations and free materials

- Gifts, bequests and deposits are accepted on the understanding that:
 - Items that do not fit the collection development criteria described in this document will be returned to the donor, if requested, or, when appropriate, disposed of by gift, sale or discard;
 - AU Library retains the right to organize and locate donations according to its own judgement;
- Gifts are acknowledged and donation bookplates may be inserted in items added to stock, if requested.

5.8. Collection Management

5.8.1. Acquisitions, procurements and license agreements

- The purchase of information resources in all formats, including access to electronic resources, is managed centrally by AU Library whether the resources are purchased from the Information Resource Funds or from the Colleges Funds.
- All acquisition procedures are automated and carried out on a best value basis within the resources available.
- AU Library shares AU commitment in utilizing e-commerce procedures in order to optimize the efficiency of procurement procedures already in place.

- The selection of suppliers of information resource materials is carried out through the University's purchasing system, regulations & procedures.
- AU Library seeks to take advantage – whenever it is beneficial to the University – of the publishers' deals and national site license agreements that are negotiated by the Joint UAE Libraries Associations on behalf of UAE Libraries.
- License agreements are checked as part of the procurement process, to ensure we can meet all the obligations required of us by the providers, and appropriate levels of access can be made available for users.

5.8.2. Resource discovery and access

- The cataloguing of all information resources acquired is managed centrally by AU Library.
- The catalogue is available to all on a 24 x 7 basis via the University's web site and student portals.
- Remote access to licensed electronic resources is free for all members of the University and is obtained through a system of electronic authentication that is centrally operated by AU IT Services.
- Physical collections, held on open access shelves, can be accessed free by all members of the University from all AU libraries during opening hours. Some material is available for reference only, but most of it can be borrowed on a Short, Week or Long Loan basis.
- Library guides, information skills training, and other types of support are provided by AU Library Public Services to enable users to maximize their use of the resources and services available.
- Access to the physical collections by undergraduates, postgraduates and academic staff who are not members of AU is made possible and regulated by a number of reciprocal access and borrowing schemes to which AU has signed up.

5.8.3. Retention, cancellation and disposal

- Acute shelving and storage space shortages – AU libraries and stores are currently full – combined with the increasing availability of electronic resources and the emphasis placed by universities on the creation of more learning spaces while retaining areas for research work, have led university libraries to rethink their policies relating to the retention of physical collections. The challenge for university research libraries is to contain or even reduce the need for additional shelving and storage space while retaining collecting levels that are appropriate for the support of high-quality teaching and research. This can be achieved by adopting a two-pronged approach:
 - Purchasing materials in electronic rather than physical formats wherever possible.
 - Discarding – rather than relegating to store – all print and other physical materials that have been replaced by reliably archived electronic resources and all print and other physical materials which no longer meet the teaching and research needs of the University.
- Consultation with academic colleagues on items identified for relegation or disposal will be handled by the Library Manager. Academic staff will be invited to examine lists of material identified for cancellation, relegation or disposal, via the Library services web site, and request re-designation of items that are of concern to them.
- Criteria for selecting items for withdrawal include the following:
 - Books, print journals and other physical items that are no longer relevant to the current and future teaching and research needs of the University (e.g. in subjects that have been dropped

by the University), unless it can be demonstrated that they are rare or unique items that are not available in legal deposit libraries in UAE or abroad.

- Print version of high-use electronic journals where access to archives is secure – either via perpetual access arrangements with publishers or other secure archive services.
- Print version of low-use journals where access to archives may not be secure, but which are available through the document delivery service.
- Material, which is held in another preferred format.
- Abstracts and indexing print runs available electronically and where these are available in perpetuity.
- All duplicates except duplicates of titles listed in current reading lists.
- Single and duplicate copies of old and superseded texts, including textbooks and reference sources, unless it can be demonstrated that they have some historical value.
- Low-use items in poor physical condition that are available in other libraries.
- Non-print resources such as 35mm slides and videos will be considered for withdrawal where the library is no longer able to provide or support the facilities for accessing it. Where possible, superseded media will be replaced by more modern formats.
- Stock may be disposed of by transfer to another library within the context of collaborative collection management agreements.
- Stock may also be disposed of by sale, gift or discard.
- Material being considered for withdrawal will be assessed by Specialized Librarians as to its long term historical value before any other decision is made about its future. Criteria for selection for permanent retention are based upon subject area, rarity of copy and relationship to current Collections development areas.
- Criteria for selecting items for relegation to store include the following:
 - Print version of high-use electronic journals where access to archives is not secure.
 - Low-use books and other physical items – except low-use journals that can be accessed via document delivery service or consulted in other libraries – for which there is no shelving space available in the open-access areas of AU libraries.
 - Material that is not part of AU Library Collections but needs to be kept in closed access for security or preservation purposes (e.g. AU theses; old pamphlets).
 - Single copies of old and superseded texts, including textbooks and reference sources, when it can be demonstrated that they have some historical value.
 - Books, print journals and other physical items that are no longer relevant to the current and future teaching and research needs of the University (e.g. in subjects that have been dropped by the University), when it can be demonstrated that they are rare or unique items, which are not available in legal deposit libraries in UAE or abroad.
- AU Library aims to comply with recognized professional conservation standards for all physical collections. In the case of digital preservation – i.e. the storage, maintenance and accessibility of digital material over the long-term – it will seek to conform to international standards as they are agreed by the information community and to devise appropriate techniques in collaboration with other information providers in the light of the latest developments taking place in UAE and worldwide.

- Binding will take place only for high-use material, in particular journals, when no electronic version is available and for low-use material that is rare or unique. High-use journals relegated to store because the electronic archives are not secure will not be bound. A detailed binding policy is in the process of being developed.
- Digitization will also be used, as and when appropriate, to resolve conservation and preservation issues, either as a response to specific events or within the context of a broader conservation strategy.
- High-use items missing from stock or physically unsuitable for further use will be replaced.
- AU Library is acquiring a security system in place to protect stock from theft and a disaster plan in case of major emergencies, for instance, resulting from fire or flood.

5.9. Access to remote collections

5.9.1. Document supply and inter-library loans

- Research material unlikely to be used more than once or twice will not be purchased but obtained through the Document Supply and Inter-Library Loan service, which will be available to all members of the University.
- Funding for document supply and inter-library loan can be from two sources, Colleges being authorized to purchase vouchers using either their Information Resource Funds or their own College Funds. Authorization of document supply and inter-library loan applications is the responsibility of each College or Department for its own staff and students. Individuals can pay the cost of vouchers themselves.
- For items, which are not in stock a license, may be agreed with the publisher to make a document available in electronic form via the University's network for a specified timescale. The College concerned will meet cost for this.

5.9.2. Physical access to other libraries

- Access to physical collections held in other institutions is made possible and regulated by a number of reciprocal access and borrowing schemes to which AU has signed up.

6.2.1. Terms and Conditions of using I.T. services

- Office of I.T considers all temporary and permanent connections via the University network, to be subject to the provisions of this policy.

- Computing resources not owned or approved by AU may not be connected to the University's network.
- Office I.T. currently maintains a variety of UNIX, Win 2012 servers and above. MS Windows systems exist to facilitate software distribution and printing for office and student lab environments.
- Office of I.T. has the right to monitor the traffic of all transmissions on networks maintained by the offices at all times.
- Operating systems currently supported (for the desktop) include Windows 8 and Windows 10. There are special requirements for Unix workstations in the School of Engineering. Upgrading will take place in a controlled manner.
- Software and hardware to be installed should be requested by the Dean or Manager/Director of Office and it may not be installed or connected to University systems without the approval of the IT Committee. This includes the data and telephone networks.
- All University affiliates (faculty, staff & students) are permitted to use the University network and selected computing resources at all times while the network is available.
- IDF rooms are under the authority and responsibility of the Office of IT. Everyone within the AU Network community who uses University computing and communications facilities has the responsibility to use them in an ethical, professional and legal manner.
- Violations of information technology Policies & Procedures typically result in University disciplinary action, which may have serious consequences, and in some cases, may result in a legal action.
- Copying software is an act of copyright infringement, and is subject to civil and criminal penalties. It is considered Software piracy, and it is illegal whether you use the copied software yourself, give it away, or sell it. Aiding piracy by providing unauthorized access to software or to serial numbers used to register software can be illegal

6.2.2. Policies & Procedures for using I.T. services

The policies and procedures of the Office of IT have been developed and implemented with the main aim of providing IT resources and services to all its users in an efficient and effective manner. These policies and procedures have been classified into the following categories:

a. IT Account Services

The Office of IT is providing number of services mentioned below that are personalized to AU staff and students. Accounts are intended to be personal. The individual to whom the account has been created is responsible for ensuring that his/her username and password remain confidential. No one is allowed to use another person's username and password.

➤ AU User Account (Staff members)

AU full time members should have Passwords/User Account. It will be created automatically after adding the employee to the HR system. The employee should receive a letter and email with his/her Password/User Account details and how to use it. The created password will be used at the first login only, and then the user should reset it.

Part-timers may request Password/User Account for each service independently. It will be created temporarily for a period of one semester, and then it will be disabled automatically. The user may call Help Desk to reactivate it. The Help Desk should contact the HR first to confirm that the user is still working for AU. The staff members may contact the Help Desk to reset the password in case of losing it.

The cancelation process for the fulltime employees will be done automatically when the employee completed the clearance process and his/her status is changed to inactive on the HR System. However, the Office of IT may disable the access to AU's services before completing the clearance process without notice under the below conditions, when there is a risk of sabotage the data, corrupting, or abusing any of the systems/services:

- The employee has Admin privilege or power user on any of AU systems.
- The employee has been dismissed for ethical reasons.

The line manager requested to disable the User Account of resigned/dismissed employee.

AU user may use the AU User Account to access the below services:

- AU LAN/WAN Network
- Email
- SIS System
- Dynamic AX System
- E-Learning Management System (Moodle).
- LaserFiche Archiving System
- File Sharing.

AU Student User Account

All freshmen students should receive by email an identification letter with their Password/User Account details and how to use it after the drop/add period of each semester.

The student may use the user account to access all the below AU web services:

- Computer labs.
- Wi-Fi
- Email
- E-Learning Management System (Moodle)
- Online Registration System (ORS).

b. Helpdesk and Support

The user should contact the helpdesk to log a request either over the phone or by email, then accordingly, a work order should be queued in the tracking system, and the user request will be processed within a predefined time assigned by the tracking system automatically according to the request priority. The request will be escalated management level in case it is not resolved within the assigned time.

The Help Desk has three levels to handle the user requests.

- First Level:
Provides resolutions that often belong to a knowledge base accumulated from previous experiences.
- Second Level:

In case the request has not been completed, it will be escalated to the second, higher, level that has the necessary resources to handle more difficult specialized requests.

- Third Level:

AU also have a third, higher, level, line of support which often deals with software specific needs, such as updates and bug-fixes that affect the client directly.

The assigned technician should log the case details, and how he/she has resolved it; and then close the order.

The tracking system will send to the user an email automatically upon closing the order informing them that the request has been resolved and the order is closed.

Please see the below documents for more details on the Helpdesk (Service Desk) processes:

- How the Helpdesk (Service Desk) manage the Incidents: Please see the Incident Management Policies and Procedures
- How the Helpdesk (Service Desk) manage the problems: Please see the Problem Management Policies and Procedures
- How the Helpdesk (Service Desk) handle the Change request: Please see the Change Management Policies and Procedures.

c. Campus LAN/WAN Network

The IT Network policy and procedures have been developed to provide students, faculty, and staff access to a reliable, robust, and integrated wireless network and to enhance security of the campus wireless network to the maximum extent possible.

- All campus users are subject to the following wireless guidelines as well as existing guidelines for the wired network. The wireless network is an extension of the existing network and therefore falls under the control and supervision of the Office of IT. Due to the complex nature of wireless technologies, it is imperative that users of the wireless network follow the guidelines and policies outlined in the following.
- All campus network users must register with the Office of IT to obtain a user account and a password. The purpose of user accounts and passwords is for authentication of users and tracking users and devices, not to limit access. An employee or Faculty/Office/Unit must register guests and part timers. Guest/ part timer user account shall be issued for a limited period.
- Wireless networks are NOT a replacement for wired networks. The purpose of the wireless network is to extend the wired network by providing Web browsing and e-mail access in areas of transient use such as common areas. Wireless networks have a much smaller bandwidth than wired networks; therefore, applications that require a large bandwidth may overload the wireless network. Wireless networks work best when the number of users is limited - the more users, the smaller the share of the bandwidth available to each.
- Only wireless hubs installed and managed by IT will be allowed for use on the AU wireless network. Students and faculty are not permitted to install their own wireless networking equipment. Offices wishing to implement a wireless network must notify the Office of IT. The Office of IT will survey the site and determine the feasibility of a wireless connection. Only switches pre-evaluated and installed by the Office of IT will be used.
- Wireless should only be used for mobile computing. Any time wired access is available; it should be used for increased performance.

- Any effort to circumvent the security systems designed to prevent unauthorized access to any AT wireless network may result in the suspension of all access to AU network and an appearance before the appropriate disciplinary board.

d. The Internet

Internet is a vast, global network linking computers at universities, high schools, science labs, and many other sites. Using Internet, one can communicate with people all over the world through a number of discussion forums, as well as through electronic mail. In addition, educationally valuable files are available for downloading on Internet. Because of its enormous size, Internet's potential is boundless. However, with such great potential for education also comes some potential for abuse. It is the purpose of the Office of IT to provide guidelines as well as the contract for use of the AU Internet connection. This is to ensure that all who use the AU Internet connection, both students and faculty, use this valuable resource in an appropriate manner.

The most important prerequisite for someone to receive an account on the AU Internet connection is that he/she take full responsibility for his/her own actions. AU Office of IT, along with the other organizations sponsoring this Internet hookup, will NOT be liable for the actions of anyone connecting to the Internet through this hookup. All users shall assume full liability — legal, financial, or otherwise — for their actions.

Individuals who use the computer facilities of the AU Internet connection must use these resources in an appropriate manner. Misuse of computer facilities is a violation of the AU IT "Acceptable Use Policies" and may also be a violation of the law if data of other computer users are disturbed or the privacy rights of individuals are violated. In addition, AU Office of IT takes no responsibility for any information or materials transferred through the AU Internet connection.

All users of AU Internet connection are therefore required to comply with the following:

- No obscene or offensive material shall be entered into or sent through the AU Internet connection, web sites, whose access is prohibited by ETISALAT in UAE, are also prohibited in the Internet labs.
- Users shall not deliberately attempt to degrade system performance or capability.
- Loopholes in computer systems, knowledge, or special passwords shall not be used to damage a system or file, or to change or remove information in a system or file without authorization.

e. Teaching and Learning

The University aims to provide higher education of a quality and kind that will enhance the capabilities, potential and intellectual independence of its students, on a life-long basis. The University's continued commitment to respect, preserve and enhance knowledge, skills and competencies, through a student centered teaching and learning approach demonstrated through integrity and quality in the delivery of quality learning content, an applied research supervision and assessment of student learning outcomes in both the undergraduate and graduate programs.

The University has a number of policies and procedures that govern teaching and learning practice:

- All users of the learning and teaching tools and resources must adhere to the University's Appropriate Use of Campus LAN/WAN Network policy, and IT Security, Governance and Compliances Policies mentioned in this document.
- Delivery and access to copyright materials of teaching and learning, including the Learning Management System (Moodle) and orientation documents, must adhere to guidelines in compliance with Copyright Law in effect in the United Arab Emirates. In addition, all other copyright use must comply with University Policy.
- Ajman University is not responsible for the misuse, accuracy, integrity, and/or legality of the content uploaded to the LMS by its students, staff, or faculty. The University is not responsible for content linked to LMS to external web sites.
- No users of the LMS must use the system for purposes other than teaching learning activities approved by the official university bodies. Only sponsored agencies connected to the University including accrediting agency representatives, presenters, and course observers may be granted access to Moodle with approval from the appropriate channels including academic Chairs and Deans or other University Executives including the Vice Chancellor for Academic Affairs or the Chancellor. The Information Technology Office staff should notify the course owner when any external agent is added to the system.
- Access to the LMS is granted to currently enrolled students, instructors and academic administrators on record for published term courses. Course rosters are generated via official enrollments in Student Information System (SIS). Course owners and administrators should not grant course access to students not listed in the official roster using student email addresses.
- Faculty and staff hosting a course on Moodle shall comply with all the UAE laws and all institutional rules, policies, and procedures in force.
- Illegal content or content that is in violation of the University's policies or contractual agreements shall be removed from a course account, when requested by the instructor of record or other appropriate academic administrator whose duty is to monitor the content continuously.

User Management and Access to LMS

- All users of LMS must access the system through a designated account, which is provided by the AU IT Office, and is the same as the user's University User Account (network username and password).
- The instructor(s) of record (IOR) and students enrolled in a course as listed in SIS will have access to the course site in the LMS.
- Official student enrollments will be managed from SIS including adding new students, student

withdrawals, and drops.

- For purposes of program curriculum management and continuous quality control, College Dean and Head of Department may request course access from AU IT Office and will be granted access to courses to review and perform assessment activity including, but not limited to, viewing learning outcomes, course analytics, and usage.
- Faculty may not create courses/sections on behalf of external users and former students and extend system access to said users for the purposes of pursuing activity unrelated to official University business. Any such accounts discovered will be removed by the IT staff.
- Access to the LMS may be disabled or suspended for users who display inappropriate behavior per the University's Acceptable Use Policy and other guiding policies that define appropriate conduct for University employees and students. Students who misuse the LMS will be referred to the Student Affairs Disciplinary Committee.

f. IT Security, Compliance and Governance

Security:

To increase the level of security at AU Account (Network and email) and AU System, and minimize the level of attacks of viruses, worms, Trojans and hackers.

Virus Protection:

Viruses and other malware are a constant threat to all computer users. They can be picked up in many different ways. Therefore, the Office of IT applied the below group policy on all AU users and PCs:

- Installed Antivirus and antimalware in all AU's PCs.
- Set policy to push the updates in regular bases.
- Limited the Admin privilege to the Technical team who are responsible of installing software and applications.

Password Policy:

The Office of IT have implemented the following security measures on passwords:

- **Applied Settings for Network Password Policy:**
 - Maximum Password Age is 60 days (meaning that user have to change the domain password every 60 days)
 - Minimum Password Length is 8 characters

- **Applied Password Policy on Desktop:**

Enable Password Screen saver option after 10 minutes of idle session. This option would force the user if he/she did not use the computer for 10 minutes to re-enter the password. In case another user comes to use the computer, he/she should restart the computer and login with his/her network account.

- **Account lockout policy:**

Account lockout policy disables a user's account if an incorrect password is entered for a particular number of times over a specified period. These policy settings help us to prevent attackers from guessing users' passwords, and they decrease the likelihood of successful attacks on our network.

- Account Lockout Duration: 60 minutes
- Account Lockout Threshold: 50 invalid logon attempts

- Reset account lockout counter after: 30 Minutes.

Compliance and Governance:

The Office of Information Technology (IT) is neither an investigative nor a disciplinary entity in its primary responsibilities. However, in cases where University resources and privileges are abused or otherwise threatened, the office may be asked to take appropriate steps. Immediate revocation of access and subsequent prosecution by the authorities, for example, might be directed. Such revocation may be appealed to the IT committee.

Another example would be to both discipline and hold accountable an individual who damages IT resources. Improper access or modification of AU information in a computer system may also bring a stiff penalty.

Prohibited acts include but are not limited to the following:

- Threats to the security of information and the integrity of networks at AU and elsewhere include viruses, hackers, and unauthorized persons. Consequently, it is the responsibility of the user not to disclose his/her password to any person.
- It is prohibited to connect any personal computer, server, printer, firewall, network router, network switch, or other electronic device to the AU data network without the express approval of the IT & Networks Director.
- When any use of information technology at the University presents an imminent threat to other users or to the University's technology infrastructure, network & systems administrators may take whatever steps are necessary to isolate the threat, without notice if need be.
- The Office of IT does everything in its power to prevent viruses from entering the AU network. Measures taken include virus scanners on the desktop computers, file servers, and email servers. However, users still need to be vigilant about protecting themselves from viruses, such as downloading suspicious files and opening suspicious attachments.
- Any attack or bid to attack the AU systems or networks will result in prosecution of the attacker according to the federal laws of the UAE.
- Access to IDF rooms and server rooms is limited to IT staff only.
- Intentional denial of computing service to other users.
- Exploitation of insecure accounts or resources.
- Attempting to guess, crack or otherwise determine another user's password.
- Interception of network transmissions with hardware or software "sniffers".
- Forging of electronic mail or electronic news or otherwise misrepresent themselves or other individuals in any electronic communication.
- System administrators are not to use their access to examine the private information of other users except in the course of resolving problems and where access to such information is necessary. In these cases, IT staff are required to seek permission and oversight.
- IT staff may not transfer resources (hardware, software, documentation, etc.) from designated locations without the explicit permission of their supervisor.
- AU employees or students may not load any software onto their workstations or servers, which has not been purchased or is not free. Software identified as "shareware" should be

examined carefully to ensure there is compliance with any licensing requirements. Under no circumstances will software binaries from unknown or illegal sources be placed on workstations or servers.

- Under no circumstances will AU employees or students share account passwords, key combinations, alarm codes, keys, access cards or any other access control mechanism for any University resource or facility with any individual in a manner inconsistent with the policies established by their supervisor. In the absence of such policies, employees must have the explicit permission of their supervisor to share any access mechanism to any office resource.
- IT management reserves the right to audit University owned workstations and servers without warning for verifying software-licensing compliance.
- AU employees or students may not load or install any software that may abuse the bandwidth of AU Network/Internet.
- All computer and network access is denied unless expressly granted. Access is generally granted by the Office of IT in the form of computer and network accounts to registered students, faculty, staff, and others as appropriate for such purposes as research, education (including self-study), or University administration. University accounts are protected by passwords.
- Accounts are assigned to individuals and are not to be shared unless specifically authorized. You, the user, are solely responsible for all functions performed from accounts assigned to you. Anything done through your account may be recorded. It is a violation of University Policy to allow others to use your account. It is a violation to use another person's account, with or without that person's permission.
- The password, used with the account, is the equivalent of an electronic signature for the user. The use of User Account and password authenticates the identity and gives an on-line affirmation the force of a legal document. The user should guard the password and account as he/she would his/her check book and written signature. It is a violation of this Policy to divulge your password to anyone. It is a violation to attempt to learn the password to another person's account, whether the attempt is successful or not.
- The User may not attempt to disguise his/her identity, the identity of your account or the machine that you are using. The user may not attempt to impersonate another person or organization.
- The User may not attempt to monitor other users' data communications; he/she may not infringe the privacy of others' computer files; the user may not read, copy, change, or delete another user's computer files or software without the prior express permission of the owner.
- The User may not engage in actions that interfere with the use by others of any computers and networks. Such conduct includes but is not limited to: the placing of unlawful information on the system, the transmitting of data or programs likely to result in the loss of the recipient's work or system downtime, the sending of "chain letters" or "broadcast" messages to lists or individuals, any other use that causes congestion of the networks or interferes with the work of others.
- The User may not engage in actions that threaten or intentionally offend others, such as the use of abusive or obscene language in either public or private messages, or the conveying of threats to individuals or institutions by way of AU computers and/or networks.

- The User may not attempt to bypass computer or network security mechanisms without the prior express permission of the owner of that computer or network system. Possession of tools that bypass security or probe security, or of files that may be used as input or output for such tools, shall be considered as the equivalent to such an attempt.
- The User may not alter, copy or translate software licensed to another party. The user may not make available copyrighted materials without the express permission of the copyright holder. Respect for intellectual labor is vital to the academic discourse. Violations of authorial integrity, plagiarism, invasion of privacy, unauthorized access, and trade secret and copyright violations may be grounds for university sanctions as well as legal prosecution.
- Anyone who does not abide by the rules above will be referred to the university Law Affairs.

To summarize, access to University computing and communications equipment and facilities may be revoked for reasons including, but not limited to:

- Attacking the security of the system;
- Modifying or divulging private information such as file or mail contents of other users without their consent;
- Misusing or abusing Internet/Network by using Internet tools or software that may affect the performance of the Internet/Network;
- Modifying or destroying University data;
- Using the networks/Internet in a manner contrary to the established guidelines;
- Users who are using a different domain other than AU domain.
- Software Piracy

Finally, users may not read sensitive information simply because it is accessible to them - because of accidental exposure and/or through the malice of others who have broken into a system or are misusing their access privileges. When sensitive information is recognized as such, it should not be examined further, but reported to the keeper of the materials, if known, or reported to management, if not.

6.3. Use of Technology Resources

The Office of IT is responsible of providing and maintaining the IT technologies used in AU's teaching facilities, Classrooms and Computer labs. Therefore, the Office of IT set the following policy:

- The university ID is to be shown to the computer lab supervisor and the supervisor has the right to check the ID at any time.
- University computer systems shall not be used for commercial purposes without written authorization of the university's management.
- Files, sign-on, user names, passwords, and computer output belonging to an individual or the institution are considered personal property. Users shall not examine, change, or use another person's files, output, or user names for which they do not have explicit authorization. The same restriction applies to institutional files.
- Students should notify the supervisor if the PC is slow or not working properly; consequently supervisor to notify help desk if he/she is unable to resolve the issue.

- Users cannot install any programs from the Internet.
- The lab supervisor is the person in charge of enforcing the Internet lab policy.
- All users must log off when their time is over and/or they have to leave the lab.
- All PCs are managed by IT, including the security settings and Virus Protection policy.
- Any software need to be installed on computer labs should be reported to Office of IT. The installation shall be processed as the per the request process of the Helpdesk and Support services.
- Anyone who does not abide by the rules above will be referred to the student's affairs.

6.4. Maintenance and Replacement of Computing & Network Resources

The policies and procedures of the Office of IT for periodic maintenance, updating, and replacement of computing and network resources are as given below:

Periodic Maintenance and Updating:

- The Office of IT is responsible for providing and maintaining (or arranging maintenance for) all computing and network resources including faculty and staff PCs. It is also responsible for maintaining and upgrading of IT resources, hardware and software, for all computing laboratories in the University.
- In addition to periodic maintenance of computing and network resources provided by the Office of IT, the faculty and staff can contact the Help Desk of Office of IT for any needed maintenance. The Office of IT shall promptly respond to the request and carry out the required maintenance job.
- Within its life cycle, as defined in the following section, computers should require maximum of three major software upgrades (operating system or office suite) and should generally not require a hardware upgrade. However, if the user's requirements change, necessitating a change in hardware configuration, only one upgrade (RAM, hard disk, processor, etc.) should be scheduled during the equipment's life cycle.
- For each computing lab, the Lab Supervisor shall be responsible for monitoring the operation of all hardware and software resources in the lab. He/she shall immediately report to the Office of IT of the University about any malfunction of PCs or other computing and network resources. The Lab Supervisor shall also be responsible for general maintenance and for ensuring that students have no difficulty in efficiently utilizing all resources (hardware and software) throughout the semester. In addition, at the end of each semester, all resources in the lab shall be thoroughly evaluated and maintained. In this regard, he/she shall contact the Office of IT for any needed support for periodic maintenance or upgrading at the end of each semester.
- Subsequently, the Lab Supervisor shall submit a report to the Lab Committee of the concerned Faculty at the end of each semester about the functioning and adequacy of the hardware and software resources in the lab and steps taken for periodic maintenance and upgrading, if carried out.
- The Lab Committee of each Faculty shall coordinate with the Office of IT to ensure that all resources in the computing labs of the concerned Faculty are regularly maintained and upgraded, if needed, to the satisfaction of the Lab Committee, faculty members, Lab

Supervisors, and students.

Periodic Replacement:

In general, computers should be replaced in specific locations when the hardware becomes a barrier to the user. This occurs primarily when the University's standard software suite, or the software required for instruction, service, or research work will not run effectively on the existing hardware. At the same time, it is important to realize that computer replacement is expensive, disruptive and labor intensive for both the end user and the IT staff. Changing computers often requires a migration of data files and ancillary programs from the older units to the new units, and may require relearning software functionality when the computer comes in with newer software versions. Further, adding a new computer with new software versions to an existing office or facility can cause problems when shared files are no longer compatible. In an effort to balance the need to upgrade with the negative effects of replacement, computer purchasing must be orderly and planned in advance. The replacement policy outlined here covers all devices used by students, faculty, staff or administrative units.

- The University life cycle for desktop and lab computer/workstations is three to four years. The life cycle for University and lab servers is determined by the application software and will be established individually.
- Areas that require more technology that is contemporary may receive new computers more often than every three to four years life cycle. These locations are to be established in consultation with the Faculty's Deans, and identified on the replacement schedule.
- Replaced computers that are less than four years old will be recycled into locations to obtain an effective three to four years of primary use and maintain the University on an overall four-year replacement cycle.
- Recycled computers should remain in their second location for at least one year.
- The distribution of recycled equipment is to be identified in the replacement schedule and managed by campus and central representatives for their respective inventories.
- For budgeting purposes, computer replacement should be included as an annual, specifically identified line item in the Faculty's budget.
- Replacement computers are to be purchased on a University-wide basis. The University establishes a standard computer configuration for each purchasing cycle. Some installations require additional options. A procedure will be developed in consultation with Financial and The office of Procurement to determine how options should be budgeted and purchased.
- A replacement schedule will be maintained as part of the University's computer inventory. The inventory/schedule will be maintained through the Office of IT
- Each campus and central Office of IT will be responsible for maintaining inventory/replacement information on the equipment within their areas and for requesting any changes in replacement time frames. The Office of IT will prepare the University's budget request for replacements and provide it to the office of Finance and Office of Procurement at the appropriate time.
- For planning purposes, a computer's projected replacement date should be established when initially acquired.
- Replacement ordering will occur within the University's established computer ordering cycles.
- Computers purchased should be deployed so they equip entire offices or labs during one purchase cycle. Users within definable networks, classes, offices and areas should all be working with hardware and software of the same vintage, except as follows:

- Some office computers will not have the same software requirements as the rest of the office's equipment. For example, a PC may be a single function device used by a University aide where compatibility or efficiency of use is not a major factor. Here, a recycled PC or a PC replaced less often may be more appropriate as long as the presence of this computer on the network does not inhibit network security or functionality. The computer inventory/replacement schedule will document where these ancillary computers are used.
- Computers should be purchased with enough technical capacity to support the user through the entire life cycle. The selection should seek to balance an increased life cycle resulting from purchasing increased capabilities against the initial cost. The standard PC configuration should not be modified external to the review/approval/involvement of the Office of IT.
- Computers are the property of the University. When a computer is replaced, it becomes available for reassignment to other uses at the University. Recycling plans are identified in the University's replacement schedule and will be managed by central and campus staff.
- Distribution decisions are made on a University-wide basis in advance of replacement. Upon the installation of a replacement computer, the recycled PC is normally returned to the warehouse or campus storage location awaiting redistribution after all new replacement computers are installed.
- Requests for recycled computers should be made to the campus Office of IT. Each campus and central will develop procedures for managing recycle requests.
- If an additional PC is needed within an office, the campus should first look to acquire a unit from stock, of the same vintage as the rest of the office's equipment. The goal is to keep the entire office/unit on its initial replacement schedule and all users on the same software versions.

6.5. Back up Policy

This policy aims to protect the information assets of AU, and prevent the loss of data in case of an accidental deletion or corruption of data, system failure, or disaster. Furthermore, it will help manage and secure backup and restoration processes and the media employed in the process.

AU's Health and Safety Department is responsible for implementing the University policies by providing consultation, education, training, audits, and by displaying safety instructions in classes, labs, corridors and general information on the university website.

This Safety Statement will be reviewed annually and revised as necessary, in accordance to the observations raised during audits or organized drills with local authorities such as the fire department. This planned exercises are conducted at least once a year, and include appropriate fire precautions to prevent fires, detect them if they arise and ensure the safe and swift evacuation of everyone from a building in which a fire has started.

7.2. Emergency Evacuation Plans

In the event of a fire or other emergency, seconds count. The safe, orderly and prompt evacuation of building occupants depends on having the physical safety features of a building in operating condition as well as having an emergency evacuation plan. The cooperation and participation of every building occupant is essential. Every person that lives and works in a building on campus has an individual responsibility to know how to evacuate in an emergency and to accomplish the evacuation when the fire alarm device sounds or when directed by an authority. This guide will help you to prepare for emergency situations that might arise in your facility.

7.2.1. Pre-plan your escape

- Know the location of fire alarm pull box locations.
- Make sure your floor has at least two unobstructed ways out.

For simplicity of presentation and to facilitate easier understanding of the accounting procedures connected with expenses and purchases to be followed, this has been divided into three main categories:

- Expenses for which payments are made in advance (prepaid expenses), such as rent, that will be recognized later.
- Expenses, which are recognized periodically, such as payroll, utilities, and professional/audit fees.
- Other expenses, which are recognized and paid when invoices are received, such as Printing, Stationery, Travel and Transportation expenses.

All expenses of any of the above mentioned expense types shall be initially approved by the budget section prior to commitment with any external party on future payments, either through issuance of LPO or entering into contract. Approval or rejection of the requisitions submitted to the budget section shall be based on the annual approved budget limits of the concerned office/college.

b. Prepaid Expenses

The Accounts Department will receive the supporting documents pertaining to prepaid expenses such as: Tenancy contract, Agreements, and Requests for payments, after being approved by Budget Unit.

A bank payment voucher will be prepared based on these documents, which will be sent to the Accounts Manager for approval. The agreements and contracts will be maintained in a permanent file in the Accounts Department.

Based on the approved voucher, the Accounts Department will update the Prepaid Expenses Register that will include the payee name, nature of payment, amount prepaid and period of payment.

At the end of each month, a journal voucher will be prepared to pass entries for charging that month with the relevant amount of each item of prepaid expense. The amount to be charged will normally be the proportionate amount determined by spreading the charge equally over the months covered by the contract.

The Accounts Department will periodically review the adequacy of the monthly absorption of prepaid expenses. If the charge is found to be incorrect, suitable amendments will be made to the basis of quantifying the amount for future absorption.

4. The public tender may either be international or local, depending on a recommendation by the Procurement Committee. The international public tender is the process in which the invitation to the tender is sent to suppliers and contractors within and outside the country by means of the known methods of publication. The local public tender is the type of tender in which the invitation is sent to all suppliers and contractors within the country. In this case, the public tender notice shall be advertised within the country only.
5. The tender may be restricted instead of being a public one. Such a decision shall be made on a recommendation by the university's Procurement Committee.
6. In case of international tenders, it is generally preferable for the prices to be presented on a standardized basis, e.g. F.O.B or C & F or C. I. F. - a measure to be determined by the Procurement Office.

1. The local or international restricted tender is a tender in which the invitation is addressed to a limited number of registered suppliers and contractors who shall be selected by the Procurement Office and endorsed by the Procurement Committee.

The number of selected tenderers shall not be less than three. Such type of tender may be international or local. It is sometimes referred to as selective tender or a short-list tender. It involves the selection of specific suppliers or contractors from a short list who are exclusively invited to tender. Those include, for example, suppliers of specialized equipment, which can only be obtained through a limited number of suppliers worldwide, including among other, electronics and special types of chemicals.
3. With the exception of the publicity element, a restricted tender is subject to all of the rules, regulations and procedures applicable to a public tender. Under all circumstances, the invitation to tender shall identify the unit to which the bids are submitted, closing date, required work or goods, value of bid bond, performance bond, tender validity period after the closing date - which shall not be less than 90 days - tender pricing documents - if any - and any other information deemed by the university as useful for the business.

11.10.3. Practice Purchase

This method refers to the carrying out of purchases by selecting a group of suppliers and contractors who are approved for supplying materials and services whose value does not exceed the amounts specified in the table showing the authority limit of approval attached to contracting methods. The following cases are also subject to this method of purchase:

1. When the items had previously been solicited through a tender but the submitted bids thereof had not been accepted and the time constraints do not allow engagement in a new tendering process. The method shall also be used if the purchase of the said items requires making choices between more than one supplier or contractor who have offered similar prices or conditions.
2. When the cost of tenders is not appropriate in comparison with the estimated value of the goods, contracts and services.

3. When the Procurement Committee decides that it is not in the interest of the university to procure items through a public tender.
4. The goods whose manufacture or imports are monopolized.
5. The goods, which are only available through a specific trader or agent.

8. If the situation involves the supply of materials or performance of works or delivery of services in place of a defaulted or slow-moving contractor or in the cases of contract termination.
9. Purchase of property and agreements regarding insurance, shipment and customs clearance contracts shall apply this method.

11.10.4. Direct Order

Purchase under direct order refers to the conducting of the purchase process by directly approaching a supplier, negotiate, and conclude a contract with him without a need for contacting other suppliers. This method is used in the purchase of materials and services whose value does not exceed the amounts shown in the authority limit of approval table that the Procurement Office is authorized to endorse. When using this method, the Procurement Office shall secure the best prices. The following items are also subject to the same:

1. The items are produced or supplied by only one body or the services provided by a certain agent - which makes it difficult to carry out the purchase by tender or practice.
2. The items, jobs and services that need to be urgently provided. However, the purchase shall be limited to the minimum quantities needed for the job while the requirements of carrying out the purchase by other means are being met.
3. The items with de facto prices or those whose prices are determined by the international stock market or certain international tariffs.
4. The items, works or services that the public good requires them to be conducted in confidence.
5. The items or works provided to the university by government agencies.

The committee shall be comprised of at least three members who shall be university employees with appropriate experience. The committee shall evaluate the items, estimate their prices and propose the method of their sale - be it through an auction or sealed envelopes offers or any other method of sale of disposal items whatever their value is. The

committee shall then submit its recommendations to the Procurement Office or equivalent just for guidance.

3. Inspecting fixed assets and depreciated equipment, evaluating their condition, making recommendations regarding their sale or otherwise or proposing methods of selling them through either an auction or sealed envelopes offers or other means of disposal determined by the committee.
4. The Inspection Committee shall see to it that the inspection site is appropriate for those willing to participate in the auction and that the arrangements for the auction are adequate to facilitate inspection of items and participation in the auction, and hence attracting the best bids. This shall be done with full observance of transparency and competitiveness.
5. Notes submitted to the Procurement and auctions committee regarding the sale or rent of assets shall reflect the content of the Inspection Committee's reports.

11.10.6. Auction

12. Risk Management Policy

Policy Name	RISK MANAGEMENT		
Policy Owner	Chief Operating Officer	Responsible Office	Office of Finance
Approved By	Chancellor	Effective Date	Sep. 2017

This policy aims at identifying the probability of having negative consequences of certain incidents that might occur during the normal course of operations and thus clarifying the coordinated activities to control AU's business continuity with regards to such risks. Each activity or task carries some element of risk. Therefore, it is imperative to have a proper risk management policy to identify and tackle risks that may affect the functioning and outcomes of various business operations, tasks and activities.

The University's management introduces this risk management policy as an institutional framework that provides guidelines to monitor and track possible risk factors that might cause disruptions to the smooth functioning of business operations, and thus hinder the fulfillment of its mission or strategic goals. The AU risk management policy is tailored around international standards and the CAA risk management policy (Standards 2011 – 2.3 (2.3.1-2.3.4)).

12.1. Academic Risk

12.1.1. Identification of Potential Risks:

- Students finding difficulty in meeting minimum requirements to proceed in the program.
- Students experiencing difficult financial or work problems that can lead to absence from lectures, tests, assignments, etc.
- Insufficient number of qualified faculty.
- Discontinuation of the program for any reason.
- Non availability of sufficient clinical sites for medical students' training

12.1.2. Proactive Measures Plan:

- Implementation of AU quality assurance policies and procedures at different levels (course level, program level and college level) and reporting any related deficiencies to the higher levels.
- Adoption of continuous assessment and improvement strategies.
- Selection and retention of high quality faculty to satisfy the requirements of the program in terms of teaching and research.
- Implementation of proper academic advising system (counseling, coaching, advising), and follow-up of students' progression.
- Building long term relationship with the Ministry of Health, Health Authorities and Health Zones in the UAE.

- Establishing training agreements with more reputable hospitals in Ajman and neighboring emirates to expand the base of available clinical sites and create significant redundancy.
- Proper teaching load allocation to faculty in such a way that the faculty can carry his/her teaching, advising and research activities in a proper way.
- Proper timetabling of course offerings in such a way that students can attend lectures and other academic activities without delay or absence. This is especially important for working students who are tied-up with their work schedule.
- Organizing proper and informative orientation sessions for newly enrolled students to brief them about the requirements of progressing and completing the program.
- Monitoring students' academic progression and taking proper actions before student's performance reaches the critical level of probation.
- Providing appropriate learning resources (library, laboratories, IT... etc.) to facilitate students' access to program and support service related information.
- Preparing proper contingency plan in case any faculty member is unable to attend his/her scheduled academic activities for any reason (illness, emergency, conference, business travel, etc.) to ensure that the proper execution of approved program curriculum is continued.

12.1.3. Reactive Measures Plan:

- Whatever preventive actions that may be taken, some students' performance may fall below the acceptable level, and such students may not be able to continue their study in the program.
- In these cases, some remedial actions are needed so that the student can recover from such situation and continue his/her program of study.
- For such students, preparation and monitoring of individualized action plans (e.g. proper selection of courses, taking a remedial course. etc.) would help student recover.
- Long term plans to build or acquire a hospital to be designated as a teaching hospital for the University in the event that in spite of best efforts, clinical training sites remain inadequate
- If a decision is made to close an educational program, the university will strive to assist affected students so that they experience a minimal amount of disruption in their studies.
- AU students will be notified of the decision to close a program as soon as possible and will be advised by faculty or student counselors regarding suitable options including transfer to comparable programs to complete their education.
- If required, arrangements will also be made to reassign faculty and staff affected by the closure of the program or assist them in locating other employments.

- Communicate with students the full details of the change taken by/ affected the University.
- Identify the potential accredited institutions offering similar program(s) to make the teach-out.
- Complete the necessary arrangements for students with selected institutions, ensuring that these arrangements are consistent with the requirements of the Commission's Substantive Change policy.
- Prepare a detailed action plan to ensure smooth transition of teach-out students between AU and the receiving institution. This shall include all arrangements needed to maintain complete academic records and issuance of degrees.
- Make necessary arrangements to meet the possible financial obligations, in terms of the possible higher tuition fee rates, or due to the loss of credits as a result of the compulsory change of academic program or major, until completing all their academic requirements.
- Develop a monitoring process to be implemented by the College Dean/ Academic Head, with regular monitoring reports submitted to the Vice Chancellor of Academic Affairs (VCAA). The monitoring reports would include:
 - Detailed list of names of students in teach-out.
 - Confirmation of affected students receiving letters and individualized academic plans

12.3. Internship and Clinical Training Risk Management

The purpose of this policy is to minimize the possibilities and consequences of the risks, hazards AU's students can be exposed to during their internship or clinical clerkship training in affiliated hospitals. AU aims at securing sustainable training places (including clinical training sites for medical students), for students and minimizing subsequent disruptions due to unavailability or loss of some of these locations.

12.3.1. Statement

This policy acts as an outline that identifies the different sources of risks that can occur during internship of AU's students, which should be properly managed in order to avoid and/or prevent any negative impacts of such situations. This is done through identifying each risk source, its significance, evaluation methods, and adopting the best mitigation options. During the two years that constitute the clinical training phase of medical students, they might be exposed to risks related to working in a hospital environment. This policy is outlining the features and practices of internship at AU in order to reduce the associated risks.

12.3.2. Risk Identification

AU Students must be properly oriented as to their role and responsibility at the training site and the possible sources of risks involved. Students must be advised of all requirements associated with the placement, including the risks associated with the training site. This include proper orientation as to how students protect him/herself from the various types risks and hazards which include fire, electrical shocks, exposure to chemicals, infections and radiation. For intern students protection, a memorandum of understanding (MOU) is signed between AU

and companies accepting intern under their direct supervision and control to cover training objective, supervision, possibility of salary, stipend, transport, and liability; especially for acts that are willful, malicious, intentional or criminal.

12.3.3. Risk Mitigation Methodology

- Students are advised to acquaint themselves with training site and the possible safety hazards.
- Students are advised to wear protective coats and outfits whenever required by the site bylaws.
- Students are advised to seek advice whenever they are not sure about the safety of any system or device.
- Students should always be accompanied and supervised by the site supervisor.
- Students must be in continuous contact with their academic supervisor to tackle problems first hand without delay.
- If students are doing their training within the university premises, then they must be aware of the various risks and hazards as stated in the Building Facilities Risk management Policy.
- Alternative training sites must be arranged in case of shortage or unavailability of the current places.
- Continuous revision and updating of contacts in order to ensure the availability and suitability of internship sites.
- Health insurance cover for medical students as well as a clear policy in the relationship between the University and the affiliated hospital that they will provide the same degree of emergency care for an affected student as they would any of their own staff.

12.3.4. Availability of Sustainable Training Locations

It is the responsibility of the Office of Career and Placement Services to screen the available training sites and select the most suitable and safe training locations in view of the student's specialization, and in collaboration with the concerned colleges. The Career and Placement Services Office must establish contractual, sustainable and strategic relationships with these sites in order to secure the placement of students for internship.

12.4. Financial Risk Management

12.4.1. Statement

This policy serves as a comprehensive framework that identifies, evaluates, and mitigates the negative impact of different sources of financial risks, which may expose the University to potential losses of financial resources or fluctuation of financial performance. Therefore, a structured methodology is established and adopted by the University to regularly identify such risks, evaluate the negative financial impact of certain events, decide their significance and adopt the best risk mitigation options to deal with such risks.

12.4.2. Risk Identification

▪ Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to meet an obligation, causing the other party to incur a financial loss.

- **Liquidity Risk**

Liquidity risk is the risk that the University will encounter difficulties in raising funds to meet its liabilities when they become due.

- **Interest Rate Risk**

The University is exposed to interest rate risk on its interest bearing assets and liabilities; namely fixed deposit, medium-term loan and borrowings.

- **Accounts Receivable Risk**

While the University balances between the interests of all stakeholders, certain special situations faced by some students can justify granting them credit facilities by postponing the payment of due balances or accepting settlements by post-dated cheques. The accounts and cheques receivable risk is identified by the overdue customer balances as well as the cheques receivable and the potential that such amounts are becoming uncollectible

- **Business Risk**

Business Risk involves the risk of declining revenues due to decrease in number of students or prices, or the uncontrolled increases in expenditures during the normal course of business activities, which will ultimately affect the financial performance and the ability to meet certain requirements to ensure smooth running of operations.

12.4.3. Risk Evaluation and Mitigation Methodology

- **Credit Risk**

Financial assets, which potentially subject the University to concentration of credit risk, consist principally of the current bank accounts and deposits/ saving accounts. The University mitigates its credit risk with regard to the bank deposits throughout:

- Dealing with high credit quality financial institutions, in addition to conducting continuous review of the financial institution's credibility, considering the trade-off between the benefits obtained from dealing with certain financial institution and the credibility risk involved.
- Extra available funds are invested in short-term fixed deposits that do not exceed 1-year maturities and over several maturity dates carefully distributed across the year to ensure satisfying any urgent cash needs for operational requirements to avoid liquidating any of the deposits before the maturity date and thus losing the expected profit.
- The University's management is continuously evaluating its investment credit risk to ensure that the credit risk related to bank accounts lies within an acceptable range.

- **Liquidity Risk**

To mitigate such risk, the management should ensure the availability of diversified funding sources along with continuous monitoring of liquidity sufficiency on regular basis.

- Cash flows forecasting serves as a key indicator of future cash sufficiency, which helps providing an early alarm pertaining to any anticipated liquidity problems.
- Cash safety margin must be maintained, that is equivalent to a minimum of 3 times total monthly operating expenses.
- Availability of easily accessible sources of funding; either through equity or debt sources, should be maintained in order to raise necessary funds to meet any financial obligations and ensure smooth running of operations. Reliable and sustainable relationships with banks and other financial institutions should be maintained to facilitate providing the necessary funds within a short period.

■ Interest Rate Risk

To mitigate the risk of having lower rates on deposits or higher rates on term borrowing compared to the changes in interest rates prevailing in the market, the University's financial management should:

- Keep diversified ranges of maturities of its deposits, which allows quick reaction according to changes in the market rates.
- This method also reduces the exposure to the risk of losing the profitability of such fixed deposits due to potential early liquidation of the deposits to meet emerging spending requirements.
- In addition, the University should conduct a continuous revaluation and analysis of the market rates to maximize interest revenues on deposits and minimize interest expenses on borrowings.

■ Accounts Receivable Risk

The accounts receivable risk is mainly involved with amounts due from students, sponsors, tenants and other customers. The University mitigates the accounts receivable risk throughout:

- Continuous review of the aging of accounts receivable balances, identification of those old accounts with high probability not to be collected, setting strict internal controls and procedures, and seeking to reach to settlements with parties having accumulated old receivable balances.
- Tracking the amounts of bounced cheques, their value dates, and taking needful actions towards collecting such accumulated balances.
- In addition, the University should implement strict measures prior to accepting cheques as an option to settle due accounts receivable, throughout reducing their maturity periods to the minimum, and keeping an updated customer profiles to provide a readily available history of cheque collection, enabling to take informed credit facility decisions in the future.
- The University should continuously find sustainable funding sources throughout different fundraising activities that aim to provide financial assistance to help students having financial disabilities to settle their due balances, thereby mitigating the negative financial impact of default accounts.
- Setting credit limits for customers, students and sponsors, and continuously monitoring the overdue balances as well as the outstanding receivables. The credit limits should be reviewed on regular basis to avoid accumulation of large balances of accounts receivables.
- System controls should be also put in place to easily identify accumulated balances and alert the finance team to take necessary action towards collection.
- The collection of Post-Dated Cheques (PDC's) is done as a guarantee against the collection of outstanding receivables. However, accepting such PDC's should be subject to approvals in view of the credit history, with maturity dates that should not exceed a period of 6 months.
- Sufficient allowances for doubtful debt are taken as a reserve to face any future losses due to uncollectible accounts, thus ensuring the stability of financial performance. The management must ensure that such allowances are sufficient and provide reasonable coverage of doubtful debt to avoid material loss or fluctuation of the financial performance.

■ Business Risk

To avoid the potential negative impact on financial performance and the ability to meet certain requirements, and to ensure smooth running of operations, several approaches and techniques should be adopted by the University's management to mitigate the different types of business risks as follows:

- The University's management should follow a continuous improvement approach as a methodology to mitigate such risks, throughout continued efforts that aim at improving the quality of academic programs; studying the dynamic market needs for new knowledge areas, and introducing new academic programs that fulfill such needs and stimulates sustainable business growth.
- The planning and budgeting process also helps addressing the key business risks involved in different business activities, and the level of uncertainty that is inherent in the planning process. The annual budget preparation cycle illustrates how the University plans for the future and provides the optimal allocation of resources as needed to achieve AU's strategic goals and objectives.
- As part of the annual operating budget preparation cycle, and to account for the normal uncertainty with regards to emergency spending needs, a contingency fund should be created to provide

necessary funding for any unplanned or emergency spending needs. The contingency fund should be estimated as a fixed percentage of the annual operating spending budget.

- An in-depth planning and financial feasibility of launching any new academic program or investing into other expansion projects must be conducted. By adopting such approach, the University will be able to expand its students' base and diversify the revenue generating activities while minimizing the business risks involved in such activities and being well-prepared for any potential financial surprises that may corrupt operational activities.
- To better manage the other risk factors inherent in operations, the University mitigates the negative impact of some potential events that rest outside the control of AU management, by enrolling into several insurance policies. These include:
 - **Fidelity Insurance Policy:**
To indemnify AU against any loss sustained by any act of fraudulent embezzlement or misappropriation of any employee who's dealing with cash amounts.
 - **Public Liability Insurance Policy:**
To indemnify AU against any loss due to the legal liability arising from running the business activities, where AU may become legally liable to pay for compensation in respect to accidental bodily injury to third parties or accidental loss or damage to third party's property.
 - **Money Insurance Policy:**
To indemnify AU against any loss of cash amounts and the cost of any related damage that is associated with any theft or attempted theft during the normal course of business activities.
 - **Property All Risks Insurance Policy:**
To indemnify AU against any loss caused by any incident or event that exposes AU's properties and its contents to losses or damages suffered as a result of the occurrence of common perils, such as fire, building destruction, or damage of any insured contents.
 - **Public Liability Insurance – Internship Activities:**
To indemnify AU against any legal liabilities towards any third party, including students, in respect of personal accidents and/or property damage arising out of internship activities of students in the medical fields, who are exposed to high risks of lab materials; pharmacy, dentistry and clinical training activities, either in-campus or outside.

12.5. Information Technology Risk Management

12.5.1. Statement

This policy serves as a comprehensive framework that identifies the different sources of technical risks that the University is exposed to. These risks should be properly managed in order to avoid their possible negative consequences such as data loss or major system failure. Measures are regularly conducted to identify each risk source, its significance, evaluation methods, and the adoption of optimal options to mitigate it. A major damage or failure in any of the following I.T. infrastructure or services may cause a serious disruption of operations and thus represent key risk components.

12.5.2. Risk Identification

Servers and Storage:

Hardware failure in a server may cause a failure in one of the core services; such as registration or finance applications.

Network Appliances:

Any failure or damage to some of the Network appliances may imply complete or partial outage of campus services.

LAN, WAN, and Internet Connections:

A disruption in any of these connections may cause outage in all web services, thus corrupting the smooth running of several academic and operating services.

12.5.3. Risk Component Analysis

Information Resources and the processes of using them represent vital part of the ongoing mission of the University and its goals and objectives. The following describes these risks in more detail.

Threats and Vulnerabilities:

Threats can be both, internal and external, and come in many different forms. The common element is they work against the confidentiality, integrity, and availability of information resources. Some of the possible threats would be the alteration of data or systems or release of protected information. Others can be hackers or viruses.

Vulnerabilities are weaknesses or holes in information resources and processes, which allow the potential for unauthorized or unintentional change or manipulation of resources, which affect the confidentiality, integrity, and availability of these resources. Vulnerabilities, and overall impact for every information resource, not only must be evaluated, but also re-evaluated on a regular basis to ensure these ongoing risk(s) are continuously managed.

Data Loss:

Data loss can occur on any device that stores data due to one of the following:

- Human error, accidental or unknowing data deletion, modification, overwrite.
- File corruption: software error, virus infection
- Hardware: drive failure, controller failure, cpu failure
- Site-related: theft, fire, force majeure such as floods, earthquake, lightning, etc.

Unplanned Service Outage:

Unplanned Service Outage may occur due to one of the following:

- Hardware failure such as damage in server or LAN/WAN equipment.
- Software problem may cause failure in I.T. service/s.

12.5.4. Risk Evaluation and Prioritization

The following describe how different risks are evaluated and prioritized.

Threats and Vulnerabilities:

Threats and vulnerabilities become risk when they cause exposure of confidential information such as student records, or exam questions.

Data Loss:

This risk is evaluated by reviewing the type and size of the lost data.

Unplanned Service Outage:

This risk is evaluated by the time, period, and consequences of the service outage.

12.5.5. Risk Mitigation Methodology

The following describe, in general terms, the risk mitigation options. The Office of I.T. provides the following solutions to mitigate the risks, as follows:

Threats and Vulnerabilities:

The Office of IT is reducing this type of risks by installing the antivirus software on all AU PC's, laptops and servers; keeping all such devices updated, and by using Firewall to isolate the servers in a healthy and protected environment.

Data Loss:

The Office of IT has set a backup policy to protect the critical data by recovering them in case of loss (see backup policy). A disaster recovery site is used to provide high availability of the critical data and services. Furthermore, the recovery tools are used, in case needed, for individual loss of data.

Unplanned Service Outage:

The Office of IT is committed to ensure continuous and uninterrupted availability of all services as follows:

- Uninterruptible Power Supply (UPSs) and Power Generator connectivity for the most critical LAN/WAN connections and servers, to avoid disruption due to power shortage.
- Hardware and Software Support agreement 24 X7 for the most critical equipment and services.
- The I.T. has transferred all the critical services to virtual environment, which reduces the time of service recovery, and increases the high availability.
- Backup devices and servers are provided.

12.5.6. Risk Plan Maintenance

The following describe the different methods for maintaining or updating the risk plan.

Threats and Vulnerabilities:

Following up on the Antivirus, updating servers and monitoring them.

Data Loss:

Applying the Backup Policy and confirm that the taken backups are healthy.

Unplanned Service Outage:

Monitoring all LAN and WAN equipment, UPS's and servers, ensuring that all equipment are functioning in a perfect manner, and maintaining all I.T. equipment and services under external support agreement to increase the level of high availability.

12.5.7. Risk Management Responsibilities

The following Identifies the IT roles with specific risk management responsibilities.

Responsibility	Risk
The System Administrator and System Engineer under the supervision of the Head of System/Network Team.	Threats and Vulnerabilities
The System Administrator and DB Administrator	Data Loss
The Network and System team, I.T. Manager	Unplanned Service Outage

12.6. Facilities Risk Management**12.6.1. Statement**

This policy acts as an outline that identifies the different sources of risks that AU facilities and infrastructure are exposed to, that should be properly managed in order to avoid and/or mitigate any potential negative impact. This is done through identifying each risk source, its significance, evaluation methods and the adoption of best risk mitigation options. The purpose of this policy is to structured methodologies to help minimizing the possible negative consequences of future damage to AU facilities and infrastructure, and the subsequent disruption in University's operations and services.

12.6.2. Risk Identification

- **Technical Faults and Breakdowns:**
Any partial or total shutdown that can have a direct impact on the University's operations and continuity of key services.
- **Fire:**
In the event of a fire outbreak, it becomes crucial that the fire safety system and processes are instantly activated to contain the spread and thus minimize the impact and loss.
- **Utility Outages**
Electricity and water shortages can significantly disrupt the functioning of the University's various colleges, offices and other common facilities.
- **Structural Incidents:**
Any structural collapse or failure in any of the University's infrastructure will have disastrous consequences.
- **Emergencies:**
Any emergency such as but not limited to natural disasters (earthquake, flooding, etc.) is beyond human control and can affect AU facilities and infrastructures critically.
- **Safety and Security:**
Considering the number of students and visitors of AU campus and its extended buildings and facilities, undesired situations and incidences, disturbance and violence that can erupt in the University could jeopardize the safety and security of the occupants, facilities and infrastructure.

12.6.3. Risk Component Analysis

- **Technical Faults and Breakdowns:**

AU facilities and infrastructure should remain in perfect functional state for efficient, reliable and normal operations at all times. This requires prompt and effective repair services and periodic preventive maintenance to be carried out to minimize or prevent facilities down time or closure.

- **Fire:**

Fire is an unpredictable and inherent risk in University's environment, and carries a high damage potential. The existing facilities and infrastructure does possess the necessary fire safety mechanisms and processes.

- **Utility Outages:**

Uninterrupted power and water supply for AU facilities is essential and of paramount importance for its functioning and operations. These basic utilities within the Emirate of Ajman are supplied by a federal government authority, and mostly seem to be stable, sustained and reliable.

- **Structural Incidents:**

A safe, stable and reliable building facilities and infrastructure, which meets the relevant and required standards is a primary requirement for any educational institution. The existing infrastructure appears to be in fair and stable condition. Maintenance and repairs are undertaken as and when required.

- **Emergencies:**

It is imperative that a clear, effective and tested evacuation plan is compiled, and is circulated and posted for the facility's occupants in order to be well prepared for any such emergency incidents.

- **Safety & Security:**

It is of utmost importance that AU facilities and infrastructure are safe and secured at all times for the protection and comfort of all its occupants; faculty, staff, students, and visitors. AU facilities do possess security systems and personnel for overseeing internal safety and security.

12.6.4. Risk Evaluation and Mitigation Methodology

- **Technical Faults and Breakdowns:**

This risk potential is regularly evaluated by monitoring the frequency of reported faults and breakdowns; periodic assessments of AU's facilities and infrastructure; amount of resources and personnel needed for carrying out maintenance and repairs. The University mitigates this risk by conducting regular inspection of all AU facilities and infrastructures; scheduling and conducting preventive maintenance of key areas of AU's facilities and infrastructure; keeping inventory of vital spare parts and backup equipment to minimize facilities downtime; ensuring the availability of sufficient maintenance personnel for immediate action and resolution at the earliest; conducting regular training of maintenance personnel for prompt and effective responses to potential technical issues.

- **Fire:**

Periodic review and assessment of the fire safety mechanisms, equipment and processes within AU's facilities and infrastructure; as well as the history of fire incidents represent key indicators of exposure to such risk. This is mitigated throughout the continuous evaluation and identification of potential fire hazards; inspection of the status and condition of the fire safety systems, mechanism, equipment and processes across all AU facilities and infrastructures, in addition to scheduling and conducting preventive maintenance of fire safety systems, mechanisms and equipment; compiling fire safety manual, evacuation plan and spreading awareness; conducting fire safety and evacuation drills; communication and information exchange with civil defense authorities, hospitals and other relevant authorities; putting in place loss/damage insurance policy.

- **Utility Outages:**

Periodic assessments of utility infrastructure of AU's facilities; communication and information exchange with the utility provider; history of utility incidents within AU's facilities represent fundamental component to enable maintaining a proper plan to control such risks. This risk is mitigated throughout the continuous evaluation of the status and condition of the utility networks

across AU facilities and infrastructure; communication and regular information exchange with the utility service providers for prioritized supply restoration to AU's facilities, scheduling and conducting preventive maintenance of key utility infrastructure of AU's facilities, and backup supply provision arrangements.

- **Structural Incidents:**

The regular evaluation of the status and condition of the structural reliability of AU facilities and infrastructure is conducted to ensure the maximum safety of all AU's structures, in addition to scheduling and conducting preventive maintenance of key areas of COD clinical facility and infrastructure; communication and information exchange with civil defense department, hospitals and other relevant authorities; as well as the availability of loss/ damage insurance policy.

- **Emergencies:**

To best meet the requirements of controlling such type of risks, AU maintains sustainable communication and information exchange channels with relevant emergency management authorities and government bodies, in addition to compiling Emergency Manual, evacuation plan and spreading awareness; conducting safety and evacuation drills; and the availability of public liability loss/ damage insurance policy.

- **Safety & Security:**

The risks associated with safety and security systems are regularly evaluated in view of the capacity of facilities, the status of building machinery and equipment, as well as the analysis of the volume and demographics of people visiting AU facilities; using and working in the AU facilities, to ensure the availability of all needed resources, tools, procedures and equipment, such as camera monitoring systems, sufficient security personnel, building evacuation plans, scheduled and implemented preventive maintenance of existing security systems and equipment; effective management and control of the occupants of AU's facilities, and information exchange with relevant security authorities.

3. Faculty Development Policy

Policy Name	STAFF DEVELOPMENT		
Policy Owner(s)	Human Resources Manager Senior Officer, Faculty Affairs	Responsible Office	Office of Human Resources
Approved By	Vice Chancellor for Academic Affairs	Effective Date	Jul. 2017

Ajman University Faculty development aims to enhance and support excellence in academic practice and offers many opportunities for faculty to collectively and individually fulfill their responsibility to improve instructional effectiveness. AU provides ongoing support to staff professional development by encouraging their participation in academic conferences, technology training, professional meetings, and engage in research activities both inside and outside the UAE.

3.1. Introduction

Aware that faculty development is tantamount to institutional development, Ajman University (AU) has always endeavored to provide the best training opportunities and resources to its faculty. This policy is aligned with AU vision and objectives, mainly:

- To achieve academic excellence.
- To encourage faculty to meet what is termed the three main criteria: teaching, training, and service.
- To endow faculty with the kind of skills that make students' learning an enjoyable experience and allow them to develop both intellectually and individually.

Accordingly, AU has set up a faculty development program whereby faculty members are trained so as to develop at the personal and professional levels, to become highly motivated, and to be able to perform at the highest possible levels. The faculty development program of AU tries to ensure that:

- Each faculty member understands the duties and responsibilities incumbent upon him/her.
- Each faculty member is trained to fulfill his/her duties and responsibilities according to the standards set by the University.
- Each faculty member is given the opportunity to develop his/her potential whether personally or professionally.
- Faculty members get the necessary help and information to develop their performance and effectiveness.
- Appropriate faculty development activities and mechanisms are provided.

3.2. Faculty Development Objectives

Faculty development aims at achieving the following objectives:

- To improve the quality of teaching and research at AU.

- To provide quality service based on the concepts of equal opportunities.
- To enable the University to determine the implications on faculty development of changes in higher education and of the Ministry of Higher Education's requirements, and to respond to these changes.
- To respond to guidelines from the University as well as to the recommendations of the Ministry of Higher Education.

3.3. Faculty Development Scheme

To achieve the above objectives, AU offers, through its faculty development program, a wide range of activities and opportunities to all faculty members. These include presenting approach seminars, offering tailored workshops and courses, providing training in particular issues and subject matters for particular purposes, and providing necessary financial help.

3.4. Seminars

Seminars are one of the main aspects of faculty development at AU, since they are meant to create a dynamic academic environment conducive to research and creativity. Held every academic year by faculty members from each of the eight Colleges at the University, these seminars deal with specialized subject matters. They are an excellent research opportunity for faculty who are required to research the subject matter extensively and present it in an accessible manner, since the seminars are addressing both specialized and non-specialized audiences from inside and outside the University.

3.5. Workshops, Courses and Training

AU intends to provide, through the Curricula and Study Plans Committee, tailored workshops and training courses to its faculty members. The topics of the workshops and courses depend on the needs of each College, as identified by the said committee and by external reviewers participating in the external review scheme, otherwise known as the "Examining Eye" or External Reviewer Program.

So far, AU has run workshops on how to draft a sophisticated course description as per the highest standards in American universities, and on developing new teaching and evaluation models. The University is planning to offer all faculty members technology workshops to enable them to have a hands-on experience on how to effectively and efficiently use technology in the teaching process, including computers, specific software, the internet, and on-line learning systems.

3.6. Regulations for Participation in Academic Conferences

Ajman University (AU) gives due importance to professional development of faculty. They are encouraged to participate in high-quality academic conferences and to publish their research work in professional journals as well as in well-recognized conferences. Faculty members interested in presenting their papers at research conferences shall submit their request to their Head of Department (HOD). The HOD shall form an ad-hoc committee to review the paper and give its recommendation, along with a brief review report, considering the quality of the submitted paper and the reputation of the conference. An applicant may not be funded to present a research paper in a conference that is held outside UAE more than once in an academic year. However, in very special cases, the Dean may recommend a faculty member to participate twice per academic year provided that sufficient budget is available for other eligible applicants to avail at least one participation per academic year.

A faculty member may also be permitted to attend a conference more than once in an academic year if he/she is invited as a keynote speaker and his/her expenses are totally borne by the conference organizers, provided the approval is obtained from the HOD, College Dean, and the Dean of Graduate Studies and Research.

Requests for attendance-only participation (without the submission of a research paper or keynote speech) or participation in some professional events, workshops, etc. shall be submitted by the College Dean to the AU Delegation Committee, headed by the Vice-Chancellor for Advancement and Communication, for its approval.

The HOD and Dean shall emphasize on the quality of participation and shall perform an assessment of the quality of participation based on a report submitted by the participant after attending the conference.

The funding approved for presentation of a research paper shall cover the following:

This percentage may vary in order to accommodate specific University, College, and Departmental needs. In such cases, an amended weighting will be determined during the goal-setting meeting at the beginning of the academic year between the faculty member and the HoD. A typical distribution of the weights is 50%, 30% and 20%, for Teaching, Research, and Services, respectively.

A Faculty Member who joins the University after the start of the academic year should meet with their HoD at the beginning of the joining semester to reach an understanding about the percentage that will apply.

For Classroom/Lab courses, the availability and quality of the course file, course assessment report, student evaluations and peer review of teaching shall be the basis of evaluation for Teaching. Any other evidence used must be made known to the faculty member.

The performance of faculty members in each of the three components will be rated as **Excellent (5 points)**, **Very Good (4 points)**, **Good (3 points)**, **Satisfactory (2 points)** and **Unsatisfactory (0 points)** based on the *Evaluation Criteria* defined in the tables below.

The overall score (out of 5) of the faculty performance is calculated as the weighted average of the ratings of the three components, as follows:

$$\text{Overall\_score} = \text{Teaching\_rating} * \text{Teaching\_weight} + \text{Research\_rating} * \text{Research\_weight} + \text{Services\_rating} * \text{Services\_weight}$$

If any of the components is rated Unsatisfactory then the above formula does not apply and **Overall_score** is set to 0.

As an illustration, if the weights and ratings of a faculty member are as follows:

Component	Teaching	Research	Services
Weight	50%	30%	20%
Rating	Very Good (4)	Very Good (4)	Excellent (5)

$$\text{Overall\_score} = 4*0.5 + 4*0.3 + 5*0.2 = 4.2 \text{ (Very Good)}$$

The overall rating is determined as follows:

Unsatisfactory: if any of the three components is rated Unsatisfactory

Satisfactory: if $2.0 \leq \text{Overall\_score} < 3.0$

Good: if $3.0 \leq \text{Overall\_score} < 4.0$

Very Good: if $4.0 \leq \text{Overall\_score} < 4.5$ **AND** Research rating is at least Good*

Excellent: if $\text{overall\_score} \geq 4.5$ **AND** Research rating is at least Very Good**

* If the Research rating condition is not satisfied then the overall rating is Good.

** If the Research rating condition is not satisfied then the overall rating is Very Good.

6. Faculty Promotion Policy

Policy Name	FACULTY PROMOTION		
Policy Owner(s)	Vice Chancellor for Academic Affairs	Responsible Office	Office of VCAA
Approved By	Chancellor	Effective Date	Jul. 2017

Ajman University (AU) encourages its faculty to be committed to production and dissemination of innovative and impactful knowledge. The ultimate purpose is to support the institution's mission, achieve its goals, and enhance performance and productivity through adoption and utilization of best practices in teaching, research, and service to the University and the community at large, following the principles of objectivity, transparency and fairness.

AU puts significant emphasis on professional development of its faculty. It also rewards those who demonstrate exemplary performance and contribute with outstanding achievements. It recognizes the right of deserving faculty members to be promoted to higher rank in accordance with its promotion policy and encourages them to seek promotion as soon as they have met the conditions to apply for promotion to a higher rank. This policy applies to PhD faculty members holding the ranks of Assistant and Associate Professors.

Faculty members considered in this document for promotion to a higher rank include assistant professors and associate professors on full-time (resident) appointment at AU. Candidates applying for promotion to a higher rank shall be evaluated on the basis of (a) quality of teaching effectiveness (b) depth of scholarship and quality and impact of published work (c) service to the University, the community and the profession/discipline. The promotion process adopted at AU aims at encouraging academic excellence in a fair and objective manner. For this purpose, specific measurable and well-defined promotion criteria and procedures have been developed. A brief description of the promotion criteria is as follows:

6.1. Criteria for Promotion

Faculty members applying for promotion will be evaluated on the basis of the following:

1. Teaching
2. Research
3. Service

While the University and community service is recognized and encouraged, high quality teaching and research are of primary importance and are indispensable qualifications for promotion to higher academic ranks.

Teaching

Since teaching is a primary function of all AU faculty, a candidate for promotion is required to demonstrate his/her ability to teach effectively in addition to fulfilment of all other assigned responsibilities. The following factors and criteria are to be considered in the evaluation of teaching performance:

- a. Competence in teaching the subject matter and effective utilization of different teaching and learning methodologies.

- b. Effectiveness in the development and use of innovative methods in teaching such as e-learning and experiential learning.
- c. Initiation and participation in curriculum development (e.g. major revisions of existing courses, development of new courses, initiation of new programs or concentrations, etc.).
- d. Effectiveness in the development and use of instructional laboratories, studios, and clinics, as applicable.
- e. Level of participation and effectiveness in continuing education programs.
- f. Effectiveness in supervising senior projects, summer training, and Coop Programs (if applicable).
- g. Ability to teach different courses in their areas of specialization.

Research

The University shall promote faculty members who are actively engaged in scientific research and creative scholarship of demonstrable quality and impact. Therefore, all faculty members should demonstrate significant research achievements in their fields of specialization. Promotion to the rank of Associate Professor requires research accomplishments whose originality, depth and impact establish the candidate as an important contributor to knowledge in the specialized field. Promotion to Professor rank requires a record of research accomplishments that establish the candidate as an outstanding contributor to knowledge in the specialized field.

The research achievements of all faculty members shall be evaluated on the quality of their contribution to knowledge in the context of the research mission of individual departments and colleges, as evidenced by the goals set out in their respective strategic plans.

Research output shall be demonstrated by published work in books, book chapters, publications in reputed journals and proceedings of prestigious conferences, written evaluations by leading figures in their specific research field, awards, prizes, inventions, patents, and other recognitions.

In published scholarly work, the main considerations are impact and quality rather than volume. A judgment can be made by examining the quality of the journals in which the publications appeared, the use which other researchers make of an individual's publications (citations), or by requesting testimony from other distinguished practitioners in the field. Contributions in the area of coordination of knowledge such as survey articles and books are also considered as evidence of effective scholarship. Substantial external research grants also constitute an important factor in the assessment process.

Other evidence in this area includes supervision of Master's and Doctoral theses. Moreover, articles, textbooks, reports, and similar publications normally considered as contributions to the professional literature or the advancement of the professional practice or of professional education shall be regarded as evidence of effective scholarship, especially when they present new ideas or incorporate scholarly research. Evidence of scholarly stature may include services on editorial boards of scholarly journals, invitations to give keynote addresses in conferences or symposia, membership in technical committees of international/national conferences, acting as referee for scholarly journals and conferences. Software or prototypes may be evaluated for consideration as evidence of scholarship.

Service

Service includes a) department, college and university service, b) academic and professional activities outside AU, and c) contribution to students' co-curricular activities. Recognition shall be given to faculty members who prove themselves as active administrators and developers of their respective departments and colleges. Services rendered by the faculty members to the local community and the United Arab Emirates, both in their special capacities as scholars and in areas beyond these special capacities when the work done is at a sufficiently high level and quality, shall likewise be recognized in the promotion process. These services may include organizing short courses, national/international conferences, seminars and workshops, authoring

articles for the general public and translations from and into Arabic, etc. Contributions might also include identifying industry needs and elaborating coherent training programs in their areas of expertise, as well as establishing a link for technical cooperation between AU and other institutions in specific areas of expertise. Similarly, guidance and leadership in student activities and contribution in student counselling shall also be recognized and considered.

The promotion procedure is as follows:

- a. The applicant sends a letter of intention to the Dean who forwards it to the VCAA.
- b. The VCAA, after validating the eligibility of the applicant, sends a letter to the Dean to confirm or deny eligibility based on the requirements for promotion to the desired rank.
- c. The Dean informs the applicant about the eligibility status with a copy to the VCAA.
- d. Applicant submits his/her complete dossier to the HOD.
- e. The HOD (or senior faculty member appointed by the Dean if HOD is the applicant) forms an ad-hoc committee at the department level which evaluates/assesses the submitted dossier.
- f. The ad-hoc committee submits its report to the HOD (or to senior faculty member appointed by the Dean if HOD is the applicant) who reviews the report of ad-hoc committee and submits his/her recommendation to the Dean along with the complete dossier. If the Dean is the applicant, then HOD shall submit the report along with his/her recommendation and the dossier to the FPC.
- g. HOD submits a list of 10 external reviewers to the Dean. If the HOD himself/herself is the candidate for promotion, then the Dean shall ask a senior faculty in the department to provide the list.

The Dean reviews these reports as well as the report of the department ad-hoc committee and the recommendation of the HOD, and writes his/her own report. After giving the grades for each of the three categories (teaching, research, service), the Dean submits the complete file (which includes the reports of the external reviewers and department ad-hoc committee as well as HOD's and Dean's recommendations) to the VCAA. The VCAA shall forward the complete file to the FPC.
- j. The FPC shall review the complete file and send its observations and recommendation to VCAA.
- k. The VCAA makes the final decision.

Article 14: Weightage of Teaching, Research, and Service

The weights for teaching and research shall account for 70% of the total grade while service shall account for 30% of total grade. For teaching and research, the weight for each shall be in the range of 30-40%. The applicant can choose, in consultation with the Dean, the weight for each provided that the total for these two categories is 70%.

Article 15: Grading Criteria

The grading shall be carried out provided the applicant meets the conditions set forth in the Promotion Criteria mentioned in Article 12. Otherwise, the application for promotion shall be rejected. For eligible applicants (i.e. those satisfying the conditions set forth in Article 12), the grading criteria is as follows:

- **Teaching:**

The teaching grade shall be given by the Dean on the basis of students' evaluation, teaching effectiveness, and quality of course files/portfolio, as explained below. In this regard, the Dean shall also receive input from the HOD.

Students' Evaluation: The Dean shall determine the grade based on students' evaluation related to teaching and learning. This shall account for 40% score in teaching category.

Teaching Effectiveness: The applicant shall provide evidence of teaching effectiveness in terms of effective teaching methodologies employed in classroom, major revisions of existing courses, development of curriculum, updating of labs, clinics, studios (as applicable), development of students' skills and competencies, fair and consistent grading policy, etc. The Dean shall consider all these factors in giving a grade for teaching effectiveness. This shall account for 40% grade in the teaching category.

Course Files/Portfolio: The applicant shall submit the course files or portfolio for all courses taught during the past one year (fall and winter semesters) and clinics or studios, etc. supervised. For this, the Dean shall give a grade with maximum score of 20% in the teaching category.

- **Research:**

For each reviewed research paper, the external reviewers shall give a score out of 100. Each paper with 50% weight (paper with five or more authors) will be given a score out of 50. Depending upon the required number of publications (four for promotion to the rank of Associate Professor and six for promotion to the rank of Professor), the papers with highest scores will be considered by the Dean to give a final percentage grade. For each paper with 50% weight, the scores of two such papers will be considered equivalent to one paper.

- **Service:**

The Dean shall give a service score for each of the following three categories:

- Department, College and University service (out of 60)
- Academic, professional, and community service activities outside AU (out of 20)
- Contribution to students' co-curricular activities (out of 20)

Article 16: Success Criterion

After determining the percentage grades in teaching, research, and service and considering the relative weights for each of these three categories, the Dean shall determine the overall weighted score in percentage. To be successful, the applicant shall obtain at least 75% overall weighted score. In addition, for promotion to the Associate Professor rank, the applicant must obtain at least 70% score in the research category, while for promotion to the Professor rank, the applicant must obtain at least 80% score in the research category.

Article 17: Decision by the VCAA

The Dean, after determining the percentage score of the applicant in each category as well as the overall weighted score in percentage, shall make a recommendation based on the above-mentioned success criterion and submit the recommendation along with all evaluation documents (including reviewers' reports) to the VCAA for further action.
2. The VCAA shall forward the applicant's file (including the report of the Dean and the reviewers' reports) to the FPC. The FPC will review the qualifications of the applicant as required for promotion, fulfilment of all evaluation process requirements, and accordingly prepare a report taking into consideration the Dean's recommendation. Otherwise, the FPC will notify any short-comings in the review process to the Dean and request for re-consideration. Finally, the FPC shall submit its observations and recommendation to the VCAA.

3. The VCAA shall issue a decision on the promotion application following the recommendation given in the FPC report, provided that the applicant is still working in the same post at the time the decision is issued.
4. In case of favorable decision by the VCAA, the applicant shall be promoted to the corresponding academic rank in accordance with Article 18 below.
5. The decision of promotion shall be issued in both Arabic and English, in two originals, one for the promoted faculty member and the other for the Office of Human Resources. A soft copy thereof shall be sent to the Documentation Centre for archiving purposes.

Article 18: Effects of Promotion

- Projected benefits to AU from the employee's improved knowledge, skill, and performance outputs from the requested training;
- Employees' consent on a 'Training Consent Form' for courses or certificates exceeding a certain 'monetary value'.

TECHNICAL-TRAINING CONSENT PROCESS

Introduction:

'Technical-Training Consent' is an essential part of the AU training & development process.

It has been devised to simplify the process for obtaining 'technical certificates' or 'training courses' for employee development in their functional /domain realms. This is an 'official policy' to ensure that a trainee is acquainted with all the procedures and costs involved in his /her technical development endeavour. This 'policy' applies to all AU employees, who are eligible for technical training (Administrative and Academic).

The rationale of the 'Consent Form' is to advise the trainee about his /her conditional resignation; besides the likely cost incurred by the university on the technical training and the likely amounts to be reimbursed to AU, so the employee is aware of them prior to registering for a training program.

Guiding Principles:

In conformance with AU objectives of bridging the gap between theory and practice, and enhancing the skills of its members in all fields, eligible AU staff may be nominated to attend or participate in any course or training session, be it theoretical or practical, within the UAE or abroad, for which AU bears all the training program related costs, whereby the employee shall abide by this 'policy' in serving AU for a duration not less than the 'one' specified in this 'policy'.

General Guidelines:

- To inform the trainee about the nature of the training program and the varieties of benefits that could be gained by participating in a training program;
- For Regular Training Programs, the trainee commits to continue his /her work tenure for AU for:
 - a. One (1) year (if the training cost is between AED 8,000 to 9,999);
 - b. Two (2) years (if the training cost is more than AED 10,000);
- For Professional Certificates or Diplomas, the trainee commits to continue his /her work tenure for AU for:

- One (1) year (if the training cost is less than AED 8,000);
 - Two (2) years (if the training cost is between AED 8,000 to 9,999);
 - Three (3) years (if the training cost is more than AED 10,000);
- This 'policy' shall be applied after the end of the training program and once the trainee passes the 'Professional Certificate or Diploma Examination from the first attempt';
 - For the Professional Certificates or Diploma; passing the examination is mandatory 'or else' the cost shall be borne entirely by the trainee;

In the event of an employee's resignation before completing the service period (as depicted in the above section), the University shall be liable to recover the 'training costs incurred' as depicted in the below table:

Training Type	Commitment Period	During First Six Months	During Second Six Months	During Third Six Months	During Fourth Six Months	During Third Year
Regular Training Program	One (1) Year (AED 8,000 - 9,999)	Recovery of 100% of Training Cost		Not Applicable	Not Applicable	Not Applicable
	Two (2) Years (> AED 10,000)			Recovery of 50% of Training Cost	Recovery of 25% of Training Cost	Not Applicable
Professional Certificate or Diploma	One (1) Year < AED 8,000)			Not Applicable	Not Applicable	Not Applicable
	Two (2) Years (AED 8,000- 9,999)			Recovery of 50% of Training Cost	Recovery 25% of Training Cost	Not Applicable
	Three (3) Years (> AED 10,000)			Recovery of 50% of Training Cost	Recovery of 50% of Training Cost	Recovery of 25% of Training Cost

- c. COO shall return the 'strategic training plan' for any review corrections to 'T & D' as required;
- d. COO shall approve the 'strategic training plan' and forward the same to HRM;
- e. HRM shall direct the 'T & D' to populate the requisite and relevant details of the 'strategic training plan' into the 'Training Calendar' and publish the same to all the appropriate stakeholders.

 - 30% weight-age for Trainer's feedback on trainees; and
 - 45% weight-age for Reporting manager's assessment on trainees;

2. For any employee receiving an overall rating of (O) or (NI), the direct supervisor should clearly justify the ratings by submitting additional relevant details; supporting documents, description of extraordinary achievements or failure situations of the job requirements, specific incidents of good or bad behavior, problematic areas, ...etc.
3. A specialized PA Committee shall be formed by the top management to conduct a comprehensive review of the overall PA results to ensure clarity, transparency, and reasonable distribution of the results. The committee may call for meetings with any of the managers or staff to review and validate any PA results.

Please refer to Appendix-A and Appendix-B for further details on the rating in relation to the specified evaluation criteria.

Resolving Appraisals Conflicts:

1. If any staff member is not satisfied with his/her performance appraisal's final rating, he/she may request an appointment with their direct supervisor to discuss this matter.
2. If no compromise is reached, and the staff member still believes that he/she had been subjected to any type of discrimination, personal judgement, biased rating, harassment or unfair treatment during the performance appraisal process, the staff may raise an official complaint in writing to the Office of Human Resources. The complaint/appeal letter to be submitted within two weeks from the time receiving the final appraisal results.
3. Accordingly, the Office of Human Resources will review the matter and set a meeting with both parties to resolve and then finalize the issue.
4. If the dispute still persists, the Office of Human Resources shall escalate these cases to the PA Committee for discussion and recommendation to the COO – Chief Operating Officer for a final decision.

Performance Appraisal Consequences:

1. The Annual Performance Appraisal rating shall be used to determine any incentive related benefit; either being a continuing merit increase or a one time bonus.
2. The top management shall decide and announce such incentive scheme upon the completion of the PA process (i.e. prior to the end of each academic year), along with the eligibility criteria to such incentives based on the performance ratings. However, the decision whether to announce such incentive scheme or not is completely discretionary as it relates to the financial performance and the budget availability.
3. As for those who are rated with “Needs Improvements” (NI), a grace period of 3 to 6 months is given to improve their performance. In case of non-improvement in their performance, the management preserves the right to decide on their continuity at work or any other relevant disciplinary action.
4. In case a bonus-based incentive scheme is announced by AU top management for the benefit of staff members whose performance was subject to evaluation, the applicable bonus amount shall be calculated on pro rata basis, proportionate to the period of duty served during the year.
5. Staff members whose services end (i.e. resigned or terminated) by prior to the end of the academic year shall not be entitled to any kind of incentives (i.e. bonuses).

6. Staff members who are eligible to any other type of an incentive scheme are not entitled to any bonus-based incentive scheme. However, they are still entitled to a merit increase, if announced by AU management, and based on the PA ratings.

The grievant must specify the party against whom the grievance is filed, and specifically explain how that party has violated his/her rights or affected his/her ability to work in a professional or academic capacity, and accordingly what harm or damage occurred.
 - Explain what informal actions were taken to resolve the dispute. It is required that the grievant mentions the date when he/she informed the Dean about it, and why he/she is not satisfied with the solution, if any, achieved by the Dean. If the Dean was not involved before filing the grievance, the grievant must provide reasons for not doing so.
 - Specify what relief is being sought through the grievance procedure.
 - Provide the name, phone number and e-mail address of each person that he/she would like to call as a witness during the hearing process.
- Upon receipt of the grievance, the Chairperson of the FGC will conduct an informal inquiry and meet with the grievant to resolve the matter. If the grievance cannot be resolved within two weeks of its receipt,

the Chairperson will forward it to the committee members for review, and they will decide if the grievance requires a formal hearing. If it does, the process for a formal hearing shall be initiated; otherwise, the University Chancellor and the concerned parties shall be informed in writing that the grievance does not deserve a hearing by the FGC as it does not fall within its jurisdiction.

- As a first step in the hearing process, the FGC shall notify the University Chancellor about initiation of the process. It will also inform the concerned parties and provide them with relevant information and documents in order to prepare for the hearing. In this regard, the Chairperson of the FGC shall be responsible for all communication. The concerned parties shall be given reasonable time for preparation and allowed to present their views personally, provide evidence, call witnesses and cross-examine the witnesses of the other party. Each party shall be informed about the identity of the witnesses at least three working days prior to the date of the hearing. It must, however, be noted that the witnesses will only come to the hearing on a voluntary basis and cannot be forced by either party to attend the hearing. A record of the hearing shall be prepared.
- The FGC will try its best to obtain reliable and sufficient information to reach a decision. At the completion of the hearing, the FGC members will deliberate and reach a decision by majority vote. Within one week of the decision made by the FGC, the Chairperson shall present a report to the University Chancellor describing its findings and giving its recommendations. The report shall also include the account of the evidence presented by all parties. It must be noted that the recommendations of the FGC are of an advisory nature only and the University Chancellor makes the final decision. In addition, the report of the FGC may not be used as evidence by either party in a related legal action. After the University Chancellor has made a decision, the Chairperson of FGC shall inform the concerned parties about the final decision.

18. Graduate Assistants (GA) Policy

Policy Name	GRADUATE ASSISTANTS		
Policy Owner	Vice Chancellor for Academic Affairs	Responsible Office	Office of VCAA
Approved By	Council for Academic Affairs	Effective Date	2018

A Graduate Assistant (GA) is an individual who serves in a support role while completing his/her graduate studies at AU. For each graduate program offered by AU, the University provides financial support to GA's in terms of tuition fee waiver and a monthly stipend.

The AU may offer graduate students the following two types of assistantships:

- Sponsored Graduate Teaching Assistant (SGTA)
- Sponsored Graduate Research Assistant (SGRA)

18.1. Sponsored Graduate Teaching Assistant (SGTA)

The sponsored graduate teaching assistantship is awarded on a competitive, semester-by-semester basis. SGTA must be enrolled as full-time student at AU for the duration of their assignments in a graduate program where thesis is required as part of the degree completion requirements. SGTA students shall keep their status as active in the following semesters provided that their CGPA was more than 3.0 in the previous semester. Some graduate programs may establish additional and/or higher standards. Each semester (Fall and Spring) SGTA will register up to 9 credit hours and are expected to work no more than 20 hours per week as a part time teaching assistants (TAs) in the College. AU shall pay the tuition fee for their registered courses of up to 9 credit hours per semester for Fall and Spring semesters and a stipend for their work as a part time teaching assistant. However, in some special cases, as approved by the Dean of Graduate Studies and Research, the work load as a part time TA could be only 10 hours per week. For such SGTA students with 10 hours per week work as TAs, AU will only pay tuition fee for 4.5 credit hours/semester and a stipend proportionally.

18.2. Sponsored Graduate Research Assistant (SGRA):

The sponsored graduate research assistantship is awarded on a competitive basis for up to 2 graduate students per program. The SGRA student is working in the University as full-time graduate student without any other part-time or full-time job.

- An SGRA shall register for 6 credit hours/semester and AU shall pay the tuition fee for 6 credit hours if they maintain their CGPA more than 3.0 in the previous semester and that their research supervisor/Dean has certified their performance as part time RA at least satisfactory in the previous semester. Each semester (Fall and Spring) they will register 6 credit hours and work for 20 hours/week as part time RAs in the College. In addition, AU shall pay a stipend for their work as part-time RAs. In some special cases, as approved by the Dean of Graduate Studies and Research, the work load could be

only 10 hours/week and accordingly AU shall pay tuition fee for 3 credit hours and SGRA shall be paid a proportional stipend.

- With the approval of the Dean of Graduate Studies and Research, an SGRA may register for 9 credit hours/semester and AU shall pay the tuition fee for 9 credit hours if (1) they maintain their CGPA more than 3.5 in the previous semester, and (2) their research supervisor/Dean has certified their performance as part time RA to be Good or higher in the previous semester. In some special cases, as approved by the Dean of Graduate Studies and Research, the work load could be only 10 hours/week and they shall be accordingly paid a proportional stipend. As for those SGRAs who are working for 10 hours/week as part time RA, the University shall pay the tuition fee for 4.5 credit hours if (1) they register for 9 credit hours, (2) they maintain their CGPA more than 3.5 in the previous semester and (3) their research supervisor/Dean has certified their performance as part time RA to be Good or higher in the previous semester.

In developing the present policy, which draws on past practice, the University has been guided by Intellectual Property policies elsewhere and by statements provided by stakeholders, including the World Intellectual Property Organization.

- The student's rights in Intellectual Property in any thesis or publications arising from the research should be protected.
- The student should receive considerations and returns commensurate with those provided for faculty, including a say as to the integrity of the Intellectual Property.
- The student's future career choices should not be closed by the choice to work in a confidential area of research.
- It should be made clear to students what the nature of the work is before they undertake the activity that leads to the claimable Intellectual Property.

- Any delays in publication of the thesis that arise from a confidentiality agreement should be limited to a maximum of two years.

Where reasonably practicable, supervisors electing to supervise a student in an area likely to lead to claimable Intellectual Property should ensure a confidentiality and Intellectual Property assignment agreement is completed with the student before the work is commenced.

19.4. Exploitation of Intellectual property Owned by The University

Completion of a Notification Form

Where a faculty member or student develops Intellectual Property over which the University claims ownership (excluding Intellectual Property referred to in Section 3.2 and 3.5), the faculty member or student must complete and return a confidential notification form (Notification of Intellectual Property Development) to be provided by the office of the Vice Chancellor for Academic Affairs.

Importance of non-disclosure for Intellectual Property Protection

In order for the University to comply with laws of Intellectual Property, faculty members and students should be conscious of the need to avoid premature disclosure of research results to third parties, prior to completing a notification and consideration of the need to obtain intellectual property protection that specifies the rights that will accrue to the faculty member or student and the University.

Sharing in the benefits of Commercialization

The faculty member or student whose creative work is commercialized will be compensated on a pre-agreed amount and will waive his rights to the creative work to the University.

The University recognizes the moral rights of the originators of Intellectual Property in accordance with the UAE copyright laws in force. These include the right of fair attribution of authorship or invention, the need for work not to be altered or used in such a way that it harms the reputation of the originator, and an opportunity for the originator to be involved in determining the final outcome of his/her labors.

The University will use its best endeavors to assist authors in asserting their moral rights in cases where clear breaches of accepted academic conventions occur.

19.6. Resolution of Disagreement over IP Ownership

In the event of a disagreement, the Research Ethics Committee will be the arbiter as to whether the University has a legitimate claim to Intellectual Property developed by faculty or students. Where a member of faculty or a student believes that he/she may have grounds to contest the University's claims to ownership of any Intellectual Property, they should bring the dispute to the attention of the Research Ethics Committee at the time that the development of the Intellectual Property is notified or as soon as practicable. Should he/she disagree with the decision of the Research Ethics Committee, they may ask AU Vice Chancellor for Academic Affairs to refer the matter to an independent expert, who will be agreed upon by all the parties. The decision of this independent expert will be conducted according to all principles of procedural fairness, and shall be regarded as final and binding on all parties. The process of determining the ownership of Intellectual Property should be completed expeditiously and, except in unusual circumstances, within one month.

All matters associated with the resolution of Intellectual Property disputes under this Section will be held confidential.

21. AU Fundraising Policy

Policy Name	FUNDRAISING		
Policy Owner	Development Director	Responsible Office	Office of Development
Approved By	Vice Chancellor for Advancement and Communication	Effective Date	Jan. 2018

21.1. Rationale:

Ajman University (AU) has identified fund diversification as one of its strategic priorities for the coming phase in the development of the University. The Fundraising Policy herein sets and defines the standards and guidelines upon which all fundraising activity within the University will be regulated and rated. It also identifies the most appropriate ways in which the generosity of donors can be recognized and celebrated.

21.2. Objectives:

This Policy sets out to guarantee that all AU fundraising activities are executed in an appropriate manner based on consultation with, and authorization from, the right AU constituencies. The Policy, as such, supports AU's mission and serves AU's strategic goals.

All cultivation, solicitation and appeal activities made by, or on behalf of, AU seek to enhance the status of the University with all its stakeholders (Alumni, students, staff, friends, corporate partners, etc.) who play an indispensable role in the mission of AU.

Core values:

- Transparency: all fundraising will adhere to a strict code of ethics that ensures full transparency of processes and activities.
- Innovation: fundraising activities will attempt to use innovative methods and processes whenever possible
- Resilience: the complexity and difficulty of fundraising are simultaneously embraced and circumvented through high resilience.
- Tenacity: our belief in the value of what we do will be an inexhaustible source of our determination to achieve our desired goals and meet our targets.

21.3. Authority & Responsibilities

21.3.1. The Chancellor

AU Chancellor is the principal fundraiser for the University.

21.3.2. Vice Chancellor for Advancement and Communication (VCAC)

The Office of the VCAC oversees and regulates all fundraising activities and functions as per the contents of this Policy and other relevant AU guidelines. All proposals and/or action plans for any fundraising drive/campaign/effort needs to be approved by the VCAC.

21.3.3. The Office of Development

The Office of Development is responsible for managing AU's fundraising activities and for building, fostering and maintaining the relationship with existing and prospective donors. The Office works in close association with the Offices of Alumni and Marketing & Communication to maintain a network corporate partners, students, alumni, friends, parents and other individuals or groups for the purpose of obtaining charitable gifts that would allow AU to accomplish its strategic goals.

Approaches for fundraising can only be made by authorized personnel in the Office of Development or by designated members of the Fundraising Council as per the processes and guidelines contained in this document.

The Office of Development issues guidelines that will govern the relationship between Office of Development staff and Deans/Managers, as required. Such guidelines include providing support in identifying fundraising projects that are aligned with AU strategic goals. The guidelines should clearly delineate the responsibilities of the Dean/Manager and the Office of Development staff member concerned in relation to fundraising priorities throughout the fundraising process, which generally follows/covers the steps below:

- Cultivation
- Solicitation
- Donor stewardship
- Major gift initiatives
- Campaigns
- Fundraising innovation

21.3.4. Fundraising Council

The AU Fundraising Council, which is made up of College representatives and steered by the Office of Development, is responsible for all AU fundraising campaigns and initiatives. The Council will hold regular meetings to strategize, action-plan and implement fundraising activities at University and College levels. It is also expected that the Fundraising Council organise an annual Fundraising Retreat prior to any formalisation of strategies, action plans or large-scale fundraising drive.

21.3.5. Deans of AU Colleges/Managers of AU Offices (when applicable)

Deans, Directors and Managers are expected to cultivate strong relationships with various stakeholders and, therefore, their role in introducing potential donors to the Office of Development is crucial. It is not an expectation that Deans and other members of the AU management team make direct approaches to donors. In fact, all fundraising activity should filter through the Office of Development or the Fundraising Council, as appropriate for each drive/initiative.

Members of the AU Management Team, to include Deans of College, can be requested to attend special meetings with the Fundraising Council.

21.3.6. Student Fundraising

AU students can engage in fundraising for a purpose after obtaining prior approval from the Office of Development or the (Fundraising Council). An application form (Appendix5) needs to be submitted and a decision will be communicated to the applicant(s) within 5 working days.

21.3.7. Thamer Fund

Thamer Fund may act as a suspense account for all monies raised through fundraising drives. Thamer Fund Committee oversees the allocation of funds based on careful consideration of cases submitted for evaluation.

21.4. Gift Policies & Procedures

AU will accept gifts of various kinds, solicited and unsolicited, and will aim to apply its core value of transparency in the solicitation, acceptance and handling of all gifts made to the University.

21.4.1. Fundraising Campaigns & Gift Solicitation

Fundraising campaigns, in line with AU strategic priorities, will be undertaken by the Office of Development, which has the authority to mobilise any other AU College/Office to assist at any stage within the campaign. Whilst the Office of Development can undertake planning and execution of major campaigns within its abilities and remits, it is an expectation that the Office of Marketing and Communication will be closely involved.

Major campaigns that align with AU strategic priorities require support from AU Cabinet and the Fundraising Council. These will require mobilisation at the highest level, depending on the size of the campaign and on the fundraising target.

Gift solicitation is to be undertaken as per a general strategy developed by the Office of Development in consultation with the Fundraising Council and relevant stakeholders. It is incumbent upon all members of the AU community, including the Cabinet and Board of Trustees, to offer logistical, consultative and personal network support to the Office of Development in order to accurately assess potential donors, donation viability and to tailor solicitation approaches to the individual interests/aspirations/causes of prospective donors.

21.4.2. Gift Types

AU can accept gifts in any of the following forms:

- Cash Gifts: these are paid in cheques, bank transfers or using credit/debit cards.
- Gifts-in-kind: this can be in the form of property or land predominately; however, gifts of advanced and/or specialised equipment can also be accepted in return for certain privileges.
- Pledges: these are commitments to make a specified donation amount within a specified timeframe, not exceeding 5 years. Such commitments are legally binding and donors need to provide post-dated cheques (PDCs) to cover the

pledge amount in total. Where a pledge is linked to a naming privilege, the pledge must be fulfilled¹ in order for the naming privilege to be granted.

¹ Submission of PDCs constitutes fulfilment of the pledge.

21.4.3. Gift Acceptance

AU will accept gifts in any of the forms above. Acceptance will be subject to a satisfactory outcome of searches on donors be these organisations, individuals, partners ...etc. Gifts will be entered under the relevant codes and donors will be added to the relevant database in due course.

21.4.4. Gift Acknowledgement

AU will acknowledge gifts through the Office of Development, which, in the case of major gifts/donations, will be responsible for communicating with the Office of the Chancellor for appropriate recognition of such donations.

21.4.5. Gift Entry & Recording

Gifts will be entered and recorded as per the financial guidelines of the University.

21.4.6. Named Endowed Scholarships

A named endowed scholarship fund can be established and named after the donor, or in honour of any individual/group chosen by the donor, subject to a minimum gift of AED 1 Million (See Appendix 1). The amount will be invested as the University sees fit in order to generate an annual income that covers the required annual tuition fees for the named scholarship. The University undertakes to cover any shortfall that might result from currency fluctuations or from a reduced return on investment (ROI).

The University will guarantee this scholarship for 25 years (subject to renewal). One student will benefit from the scholarship every 4-5 years (depending on the length of the undergraduate course studied).

21.4.7. Named Current Use Scholarships

A Named Current Use Scholarship Fund can be established with a minimum commitment of \$5,000² per year for a period of 4-5 years (depending on the College that the scholarship is restricted to, if any). Unlike an endowed scholarship, these funds are renewable every 4-5 years, and spent in full on the scholarship.

Based on the amount donated, the named scholarship can be either a full scholarship or a percentage/partial scholarship offered to students on a restricted or non-restricted basis. Donors will need to fulfil their pledge before naming privileges are granted.

Scholarships can be named after the donor or any individual or group the donor wishes the scholarship to bear the name of. Scholarship funds can be in honour of living individuals or in memory of departed ones.

The University will guarantee this scholarship for its duration and will be subject for renewal by mutual agreement between the donor and the University (See Appendix 4). One student will benefit from the scholarship every 4-5 years.

¹ Circa AED 18,400 at the time of policy drafting (September 2017).

21.4.8. Named Endowed Professorships

A named endowed professorship fund can be established and named after the donor subject to a minimum gift of AED 5 Million (See Appendix 2) to be invested as the University sees fit in order to generate an annual income that covers the required annual cost of a full-time faculty member (in the College, discipline and sub-specialisation specified by the donor, if any). The University undertakes to cover any shortfall that might result from currency fluctuations or from a reduced ROI.

Professorships can be named after the donor or any individual or group the donor wishes the professorship to bear the name of. Professorship funds can be in honour of living individuals or in memory of departed ones.

The University will guarantee this professorship for 25 years (subject to renewal).

21.4.9. Current Fund Major Gifts

Approved By	Vice Chancellor for Academic Affairs	Effective Date	Jul. 2017

Ajman University encourages and requires its faculty members to conduct high quality and impactful research in their areas of specialization. The University has taken a number of steps to support its faculty towards achieving this goal. As an additional incentive, the University has adopted a policy to provide financial reward for quality research and its dissemination in reputed journals. In the initial phase, the financial incentive has been specified for research papers published in Scopus-indexed journals. This policy will become effective starting from academic year 2017-18. The financial reward for faculty members shall be determined in the beginning of the academic year 2018-19 for papers published (or accepted for publication) in Scopus-indexed journals during the period of September 01, 2017 to August 31, 2018 and so on.

4.1. Papers Published in Scopus-Indexed Journals

For papers published in Scopus-indexed journals, the payment per paper and per author (considering AU faculty members only) shall be as follows:

Table 1. Financial incentive for papers published in Scopus-indexed journals

SN	Number of AU Authors (AU faculty members)	Payment per AU Author (AED)	Payment per Paper (AED)
1	1	6000	6000
2	2	5000	10000
3	3	4000	12000
4	4 or more (N)	14000/N	14000

In case there are more than four authors and only one of them is from AU, then the AU faculty member shall be paid as a single author provided that his/her name is among the first four authors unless the authors' names are written in alphabetical order. Otherwise, the payment shall be made as per above-mentioned calculation for four or more authors.

4.2. Book Chapters and Books

For each book chapter contributed in a publication by a reputed publisher, as determined by the College Research Committee (CRC) and approved by the College Dean and the University, the AU author(s) shall

receive a net amount of AED 4,000. The HOD shall verify that the contents of the book chapter are related to the specialization area of the author(s).

For each book published by a reputed publisher, as determined by the College Research Committee (CRC) and approved by the College Dean and the University, the AU author(s) shall receive a net amount of AED 10,000. The HOD shall verify that the book is written in the specialized field of the author(s).

2. An applicant may not be funded to present a research paper in a conference that is held outside UAE more than once in an academic year. However, in very special cases, the Dean may recommend a faculty member to participate twice per academic year provided that sufficient budget is available for other eligible applicants to avail at least one participation per academic year.
3. A faculty member may also be permitted to attend a conference more than once in an academic year if he/she is invited as a keynote speaker and his/her expenses are totally borne by the conference organizers, provided the approval is obtained from the HOD, College Dean, and the Dean of Graduate Studies and Research.

Article 9

5. Advance Standing and Prior Learning Assessment and Recognition (PLAR) Policy

Policy Name	ADVANCE STANDING AND PLAR		
Policy Owner	Vice Chancellor for Academic Affairs	Responsible Office	Office of VCAA
Approved By	Council for Academic Affairs	Effective Date	2017

5.1. Advance Standing

AU recognizes advanced standing with the condition that at least 50% of the credit hours of the undergraduate programs, including the majority of the final year courses, are completed at AU. For graduate programs, at least 75% of the credit hours should be completed at AU.

5.2. Recognition of Prior Learning

The objective of Prior Learning Assessment and Recognition (PLAR) is to assess the education and learning experience of newly enrolled students at the time of their joining Ajman University (AU) and determine if they may receive exemptions from courses on the basis of certified earlier learning. It is an educational initiative that provides newly enrolled students an opportunity to identify, demonstrate, and gain recognition for their earlier learning. It allows them to obtain credit for university-level knowledge and skills gained outside the classroom and/or through other educational programs. PLAR uses valid, rigorous assessment methods consistent with AU policies and procedures to ensure that learning worthy of credit has taken place. Some of the advantages of PLAR are that it:

- validates appropriate learning gained through work and life experiences,
- identifies areas of competence and areas requiring further study,
- reduces time and expense to acquire a degree,
- allows for more appropriate learner placement in programs,
- increases accessibility to a broad range of learners,
- provides an important service for the community,

5.2.1. Policy

- Ajman University shall recognize certified earlier learning of applicants which may lead to exemption from some University courses. This includes credit transfer of courses taken in an accredited program (formal learning), informal learning, and non-formal learning.

2. For appropriate recognition, the learning should be current, relevant to the course and of sufficient breadth and depth to ensure university level learning.
3. For obtaining credit for prior learning experience, applicant's knowledge, skills, and competencies shall be weighed against course descriptions and their learning outcomes.
4. A maximum of 30 credit hours can be gained through PLAR. However, in all cases, credits granted through Recognition of Prior Learning (RPL) must not exceed 50% of the total completion requirements including credit transfer of formal learning.
5. For every course that has been successfully recognized against prior learning experience, a grade of 'S' (Standing) shall appear on the transcript. For all such courses, the course classification will be coded as 'PLAR'.
6. PLAR courses shall not be used in determining the cumulative GPA.
7. Unsuccessful applicants have the right of appeal to the College Dean who may submit it for review to the Appeal Committee whose decision shall be final.

5.2.2. Procedure

1. An applicant shall complete a PLAR application form providing complete details of his/her prior learning experience and suggest courses for which credit may be granted to the applicant. The complete application form, along with all supporting documents and evidence as well as receipt of PLAR processing fee, shall be submitted to the Office of Admission and Registration.
2. In filling the PLAR application, the applicant can get assistance from his/her academic advisor.
3. The registrar shall forward the application form along with supportive documents to the College Dean who shall provide it the Head of Department (HOD) for evaluation and recognition.
4. The HOD shall form an ad-hoc committee in the department to study the case.
5. Evidences may include authenticated certificates of informal learning, portfolio, projects, but in all cases the student has to take and pass a challenge exam for each course he/she is requesting a waiver for.
6. The Committee can ask the applicant to submit other documents or evidence, as required.
7. When the applicant has been assessed, the Committee shall complete an Assessment Evaluation form and submit it to the HOD. This form will list all the courses for which credit has been granted. It shall also list separately the courses for which the applicant requested the credit but no credit was granted by the Committee.
8. The HOD, after approving the recommendations of the Committee, will provide the Assessment Evaluation form to the Dean. The HOD can ask the Committee to explain its recommendations and reasons behind its decisions. He/she can also ask the Committee to reconsider its recommendations and provide justification for their final decision.
9. The Dean will submit the Assessment Evaluation form to the Office of Admission and Registration. The student will be informed accordingly by the Office of Admission and Registration.

If an applicant is not satisfied with the decision of the ad-hoc committee and the HOD, he/she can file an appeal with the College Dean. The Appeal may be considered by an Appeal Committee whose decision is final.

9. Academic Progress Policy

Policy Name	ACADEMIC PROGRESS		
Policy Owner	Vice Chancellor for Academic Affairs	Responsible Office	Office of VCAA
Approved By	Council for Academic Affairs	Effective Date	2017

This procedure describes the different issues involved in the follow up of the academic progress of the students at the University.

9.1. Course Selection

- Students should select, after consultation with the academic advisor, the courses they wish to register from their study plan before registering these courses.
- The selection process of the courses takes place during both the early registration and the regular registration periods.
- To avoid registration errors, the Registration system will automatically check the selected courses based on the following criteria:
 - The selected courses are listed in the student's study plan.
 - The student has met prerequisites of the selected courses if any.
 - The student has met the minimum credit hours required to register the selected courses if any.
 - The minimum and maximum study load of the student should be adhered to.
 - The student has met the minimum English Language Proficiency
 - Level which is required for the registration of each of the selected courses.
- The selection of certain courses for registration becomes mandatory if the student has completed a certain number of credit hours without passing those courses.
- Course registration, which is processed during the early registration period is exempted from meeting the prerequisite conditions above if the pre- requisite course is registered during the current semester. However, they will be automatically dropped from the selected courses if the student fails to pass any of the prerequisites.
- Warned students and students on conditional admission are not eligible for early registration and should get their academic advisor's approval for their selected courses during the registration period.
- Students on conditional admission will have to register in the courses listed in the conditional acceptance letter of their admission during their first semester of studies after fulfillment of English proficiency requirements.
- A student may ask his/her academic advisor to waive a restriction on his/her course selection such as: allowing them to register for a free study course not listed in their study plan. The student will have to provide a valid justification for the waiver.

- i. The Registration officer may register courses on the student's behalf on the system, subject to the approval of the academic advisor and the Registrar, to waive any approved academic restriction mentioned above.

9.2. Course Registration

- a. Course Registration is available to all students who completed the course selection process and who are not on academic hold.
- b. Students may register in courses shown in the schedules published by the Registration Department, provided that seats are available, and there are no timing conflicts in the schedules of the courses they register in.
- c. The total semester credit hours of registered courses should be within the authorized student's study load which is defined as follows:

Student's Standing	Academic	CGPA	Minimum Credit Hours	Maximum Number of credit hours
Excellent Standing	Academic	3.6 - 4	9	21
1 st Academic warning		Below 2	9	15

Academically warned students having 1st, or 2nd warning must repeat at least 3 to 9 credit hours.

9.3. Add/ Drop courses

- a. Students may add courses during early registration, registration, and add/drop period of the semester.
- b. Students may drop courses during early registration, registration, add/drop period of the semester.
- c. To perform add/drop, students should not be on academic hold.
- d. Credit hours of registered courses should be within the student's Study Load. Graduating students whose remaining courses have less than the minimum required number of credit hours on their study load band are exempted from this restriction.
- e. The Registration Officer may add/drop courses on the student's behalf, subject to the approvals of the academic advisor and the Registrar, to waive any academic restriction mentioned in 8.3 "d".

9.4. Changing Course Section

 - Not on academic hold
 - There are no timing conflicts caused by changing to the new section with the other already registered courses
 - seats are available in the section they are changing to.
- b. Course section change is allowed from the start of early registration until the end of add/drop

period.

- c. Changing course section does not require approval of the academic advisor, and may be initiated and completed by the student using online registration.

9.5. Withdrawal from Registered Courses

- a. Withdrawal from a registered course is allowed during the Withdrawal period for the semester specified in the academic calendar.
- b. A student may request a withdrawal from a course, and receives a grade of “W” in the withdrawn course.

- e. The request is accepted when the approvals are granted.
- f. A student who was granted an “incomplete” grade for a course, he/she will need to take the final exam before the end of the first week of the following semester in which he/she is registered.
- g. The Grade obtained in a course for which Incomplete Grade was accepted, is not subject to Grade Complaint.
- h. Students who fail to take the final exam as stated in 6.6 will receive a grade “F” in the course.

9.7. Re-sit Exam

- a. A re-sit exam allows students to re-take the final exam of a course in which the grade “F” is obtained in their last semester before graduation.
- b. Only students who meet the following conditions are eligible for a re-sit:
 - The student is not on academic hold, and meets the financial preconditions of the request.
 - The student has passed all his/her courses except for one.
 - The student submits the request for re-sit exam before the beginning of the following semester.

- d. The Head of Department will schedule a date and time for the exam, which should be before the end of the 2nd week of the following semester.
- e. The College Dean will have to certify the grade, and send it to the Registration Department.
- f. The Registration Officer will update the grade by following the grade change procedure, and re-compute the new CGPA.
- g. If the Instructor has left the University, another Instructor will set the exam paper equivalent to that which was administered by the instructor.

9.8. Procedure for changing the study load

- a. Students may request to change their study load band to another band with higher maximum for a particular semester during the registration, or add/drop periods.

9.9. Suspension/Withdrawal of Registration

- a. A student has the right to suspend his studies for 4 semesters during the whole period of his/her studies. However, the suspension for more than two consecutive semesters is not allowed.
- b. The Registrar and the Dean of the College may decline the request if the student did not progress in his/her studies normally i.e.: The student is likely to exceed the maximum period, which is allowed to complete the program.
- c. Students should request suspension of the semester no later than the end of the semester withdrawal period.
- d. The request should be submitted to the registration department, along with the justification for the suspension.
- e. The registration officer should obtain the approval of the Registrar in order to process the request.

- f. If a student requests the suspension of registration after the Add/Drop period, then all registered courses will be dropped. A grade of “W” will show on the student’s transcript for all registered courses.
- g. Refunds are assessed in accordance with the refund policy of the University (see Accounts Receivable Procedure)

9.10. Forced temporary suspension by the Academic Council

The Academic Council may suspend an undergraduate student on Warning 3 for one or two semesters to enable him/her to repeat courses in another University to raise his/her Cumulative Grade Point Average (CGPA) to 2.

9.11. Transfer to a new program

- a. Admitted students may request to transfer to another program before the start of their first semester of studies, subject to availability of seats. However, they should meet the minimum admission requirements of the program they wish to join.

- c. Continuing students are allowed one program transfer only during their studies, unless they are granted a waiver by the Registrar.
- d. The availability of seats in the new program is a prerequisite to accepting transfer requests.
- e. If the number of available seats in a program is less than the number of requests, the Dean of College selects the approved requests on a competitive basis using the CGPA, High School score, previous program, and eventually grades obtained in specific courses that are relevant to the new specialization. He can also arrange interview sessions.

APPENDIXES

I: English Proficiency Levels

The Registration Department should place each student on an English Proficiency Level based on proven documentation produced by the student.

LEVEL	TOEFL	TOEFL IBT	IELTS
L0	> 550	> 79	Band 6
L1	> 500	< 61	Band 5
L2	> 480 and < 500	> 50 and < 61	Band 4.5
L3	> 450 and < 479	> 45 and < 50	Band 4
L4	< 450	45	Band 3.5
L5	None	None	None

II. Grading System

The University recognizes the grading system as outlined below. The merit of the degree is determined according to the following scale:

Marks	Grade		Merit
	Letter	Point	
From 90 to 100	A	4.0	Excellent
From 85 to 89	B+	3.5	Very Good (High)
From 80 to 84	B	3.0	Very Good
From 75 to 79	C+	2.5	Good (High)
From 70 to 74	C	2.0	Good
From 65 to 69	D+	1.5	Pass (High)
From 60 to 64	D	1.0	Pass
Less than 60	F	0	Fail
Zero	XF	0	Fail

III. Semester Grade Point Average (GPA)

- The GPA indicates the student performance during the semester.
- The GPA is calculated by dividing the product of credit hours and point grade by the sum of credit hours of the semester.
- The following example illustrates the calculation of the GPA:

Subject	Credit Hours	Points	Product of credit hours by point grade
Mathematics	3	3	9
Statistics	3	2	6
Physics I	3	3	9
Islamic Culture	3	4	12
Arabic language	3	4	12
Psychology	3	2	6
Total	18		54 Points

In this example, if a student obtains the results as set out in the table above, his/her grade point average will be computed as $GPA = 54/18 = 3$.

IV. Cumulative Grade Point Average (CGPA)

- The Cumulative Grade Point Average (CGPA) indicates the student's average performance over all semesters up to the last completed semester. To calculate the CGPA, the following formulae shall be used:

$$CGPA = (\text{Total of the grade points of each course} \times \text{credit hours}) / \text{total credit hours taken}.$$
- To calculate the CGPA, the last grade obtained by the student is considered.
- If a student retakes a course, the original grade of the student will appear in the transcript. However, the CGPA is calculated based on the latest score.
- Transferred courses will not be included in the CGPA calculation.

V. Grade Modification

- Grades can be modified only in the following situations:
 - Changing an incomplete grade after the student completes the course.
 - A result of grade complaint. The approval of the Dean of the College offering the course is required in such an instance.
 - A data entry mistake by either the Registration Officer or the Instructor.
- A record of the old grade and the modification should be kept by the Office of Admission and Registration.

VI. Graduation Requirements

- A student will be awarded a degree subject to fulfilling the following requirements:
 - Completion of all courses of the academic program as described in the course plan.
 - Completion of practical training/ Thesis as specified in the study plan.
 - A CGPA of at least 2.0 for undergraduate programs and a CGPA of at least 3.0 for Graduate programs.
- In the event that the student completes all the courses but falls short of the CGPA requirement stated above, he/she needs to repeat courses in order to raise his/her CGPA to the required minimum.

10. Grading and Assessment Policy

Policy Name	GRADING AND ASSESSMENT		
Policy Owner	Vice Chancellor for Academic Affairs	Responsible Office	Office of VCAA
Approved By	Council for Academic Affairs	Effective Date	2017

This policy describes how student performance is assessed, and how final grades are recorded on the University system by the Registration Department.

10.1. Course Grading Scale Setup

- The Instructor of each class of students is required to enter the grading components of his/her course on the Student Information System (SIS) during the first week of the semester.
- The Instructor should follow the course assessment methods, which are described in the approved description of the course.
- The overall score is normally distributed as follows:
 - 40 % for semester tests and activities,
 - 20% for the Mid-Semester Examination
 - 40% for the Final Examination
- The grading scale should be made available to students during the first week of classes.

10.2. Grading Process

- On completion of each grading component (a quiz, an assignment, tests, and Mid-Semester exam), the Instructor will log the grade on the SIS for every student, no later than one week after the grading of that component.
- The Instructor can modify/review the grade of any component at any time before submitting the grade to the Registration Department.
- Once the grades are submitted to the Registration Department, any changes to the grades will have to be processed using the Grade Modification procedure given below.

10.3. Grade Submission

- The Instructor is required to submit the grades to the Registration Department after having ensured that the grades for all students have been entered. No cell is left blank on the grade sheet.
- The Instructor should lock the grades in the SIS against further changes, then print them and sign

- a hard copy of the Grade sheet.
- c. The hard copy will have to be reviewed by the Head of the Department and the Dean of the College.
- d. If both the Head of Department and the Dean of the College approve and sign the grade sheet of the class, the original of the hard copy of the grades will be sent to the Registration Department.
- e. One copy of the grade sheet must be kept in the Dean's office of the college that offers the course.
- f. If the Registration Department finds any discrepancies between the grades entered by the Instructor on the SIS and the hard copy of the Grade sheet, then the sheet is sent back to the Instructor for correction.
- g. If the Registration Department finds no discrepancies, then the electronic copy is certified/locked, and the hard copy of the grade sheet is filed.
- h. When the electronic copy is certified/locked, the Instructor will no longer be able to unlock the grades book and make further changes. The appropriate Grade Modification procedure will have to be followed to make further changes.

10.4. Procedure for Grade Modification

- a. Students can submit a request for Grade Complaint in a course at the Registration Department during the Period shown in the academic calendar (the next two weeks the announcement of the results on the University website).
- b. The Registration Department sends the request to the Dean's office of the College, which offers the course who will, in turn, forward it to the Instructor of the course.
- c. The Instructor will review the Final Examination and decides if the grade will remain unchanged, or review the grade upwards or downwards by giving the justification of the modification.
- d. Once the Dean approves the decision of the Instructor, he/she will forward the decision to the Registration Department who will inform the student of the decision.
- e. The student cannot introduce another Grade complaint for the same course if the grade was kept unchanged.
- f. If the Grade is kept unchanged, the student may introduce a written complaint to the Dean who could designate a committee of faculty members to review the answer paper of the student.
- g. If the Instructor is no longer at AU, the Head of Department will investigate the complaint made by the student by reviewing the grades left by the Instructor, and the answer sheet of the Final exam of the student.

10.5. Copies of Final exam papers

- a. Each Instructor should hand back the answer sheets of the students at the Head of Department Office, which keeps them for 2 regular semesters.
- b. The Instructor should attach, to his/her end of semester report, a copy of all tests, Mid-semester exam, and Final Exam along with the answers to each question and the mark of each question.
- c. The Instructor will also attach, to his/her end of semester report, a copy of the answer sheets of the Mid-semester exam and the Final Exam of three students who have obtained the best, middle, and worst grades (A, C, and F) respectively.

10.6. Standards for writing & administrating exams

- a. Test 1 and Test 2 are exams that assess a small number of learning objectives. They are usually graded on at most 15 marks each.
- b. Quizzes are usually graded on at most 5 marks. They can be administrated without prior information of the students.
- c. Instructors are encouraged to give assignments on a regular basis using Moodle.
- d. If the course has a Lab session, the Instructor must ensure that each student submit a report on each experiment no later than one week after the completion of the experiment.
- e. Laboratory reports must be handed back to the students as soon as possible so that the students benefit from the observations, made by the instructor, in their future reports.
- f. The Instructor must ensure that the report is the result of personal findings of the student.
- g. If the Instructor notices that the report was plagiarized, a Zero Mark is given to the student.
- h. To discourage students from using reports written by former students, the Instructor is expected to revise Lab assignments regularly.
- i. If the student does not submit his/her report on time, the Instructor may penalize the student for late submission. The penalty can go up to giving a Zero Mark in the Report.
- j. The final exam paper should contain questions, which are designed in a manner that they truly measure the degree of achievement of the expected learning outcomes of the course.
- k. If the course is taught by more than one Instructor, the Final Exam questions must be common to all students, or achieve the same outcomes in case of more than one version.
- l. Final Exam paper may contain four compulsory questions and multiple-choice questions.
- m. Instructor(s) is/are also responsible for keeping the exam papers in a very safe place.
- n. The Instructor (s) should make sure that the exam paper is not kept on the hard disk of his/her Laptop to avoid its leakage by hacking techniques.
- o. The Instructor must attach a statistical analysis, based on students' grade, in the end of semester report to measure the degree of achievements of the objectives and the goals of the course.

10.7. Availability of a spare copy of A Final Exam Paper.

- a. Each Instructor is expected to submit, to the Head of Department, a version of a Final exam paper, not necessary identical to the official one, in a sealed envelope. This version could be copied in case the Instructor will be absent during his Exam session due to a very serious emergency.
- b. A spare copy of the final exam should satisfy all requirements of the Final Examination: the form and the content of the questions.
- c. The Head of the Department will hand back the sealed envelope to the Instructor before the administration of the exam.

1.9 Submission of the Final Grades

- a. The Instructor is expected to submit the Grade sheet to the Registration Department within 72 hours from the date of the Final Exam.

10.8. Schedule of the Final Exam

- a. The Length of the Final Exam is Two (2) hours for all non-practical courses
- b. The Final exam must be administrated on the day, the time, and place as announced on the Final Examination Schedule.
- c. Instructors must use the University grading system, which is shown in the following table.

The university adopts the following grading system:

Marks	Grade		Merit
	<i>Letter</i>	<i>Point</i>	
From 90 to 100	A	4.0	Excellent
From 85 to 89	B+	3.5	Very Good (High)
From 80 to 84	B	3.0	Very Good
From 75 to 79	C+	2.5	Good (High)
From 70 to 74	C	2.0	Good
From 65 to 69	D+	1.5	Pass (High)
From 60 to 64	D	1.0	Pass
Less than 60	F	0	Fail
Zero	XF	0	Fail

11. Independent Study Policy

Policy Name	INDEPENDENT STUDY		
Policy Owner	Vice Chancellor for Academic Affairs	Responsible Office	Office of VCAA
Approved By	Council for Academic Affairs	Effective Date	2017

Independent Study is an opportunity for students to earn academic credit for learning outside the formal class structure, under the individual direction of a faculty member. Independent Study is a flexible mode of learning that offers the student an alternative to the classroom. Though it is perhaps best suited to students who, for whatever reason, are unable to do resident work, it is by no means restricted to this group.

Full-time students may find Independent Study a viable option in that it provides benefits such as resolving scheduling conflicts, opportunity to raise their grade point average (GPA), and allowing students who do not wish to attend summer courses the opportunity to continue their program of study while off campus.

11.1. Independent Study

- AU allows a maximum of nine credit hours of Independent Study towards the Bachelor degree, but some departments may be more restrictive.
- A maximum of three credit hours may be taken in any one semester.
- A prior written approval referred to as Study Agreement is required prior to any initiation of course work.
- For an undergraduate student to be eligible for a course to be taken as Independent Study, the students must have passed any prerequisites and have completed a significant portion of his/her undergraduate studies with CGPA standing of a very good or relevant documented experience in the subject matter.
- The student is required to complete and sign an Independent Study Agreement.
- The Independent Study Agreement must be approved and signed by the Independent Study Coordinator of the College and head of the student's major department.
- Only faculty members may sponsor courses to be taken as Independent Study.
- A minimum of 25 hours of work of independent study is required per semester for each one credit hour.
- Registration for Independent Study courses must be done in the same period as all other courses.
- Independent Study credit will be granted upon satisfactory completion of the project requirements as defined in the Independent Study Agreement
- Independent study work cannot exceed 25% of the course work requirement for master's degree students.
- Graduate level independent study may not be used as an avenue for allowing graduates to take courses that are part of the core or major courses in their program.
- For graduate students, the department may require a student to take undergraduate major courses as a means of making up deficiencies. The student should be informed that the credit hours these courses will not be part of the completion requirements but will be used in the computation of their CGPA.

12. Class-Size Policy

Policy	CLASS-SIZE		
Policy Owner	Vice Chancellor for Academic Affairs	Responsible Office	Annually
Approved By	Council for Academic Affairs	Effective Date	2017

AU is committed for implementing efficient class-size policy. Selection of class size depends on the nature of the course and insures effective course delivery. This policy sets the guidelines for selection of appropriate class size for each course in different colleges.

12.1. Content and Guidelines

All AU colleges have guidelines regarding maximum class size, the rationale for such guidelines, demonstrates that the AU adheres to its own policies and the guidelines issued by the CAA.

Table 1. Class size of different courses implemented in AU colleges

College	Theoretical Course	Lab Sessions	Clinical and Technical	Studios	Tutorial
Dentistry	60	20	30	--	--
Pharmacy and Health Sciences	60	20	30	--	--
Engineering & IT	45	20	--	--	30
Architecture, Art & Design	45	20	--	18	--
Humanities and Sciences	40	20	--	--	25
Business Administration	45	20	--	--	--
Mass Communication	40	20	--	--	--
Law	45	30	--	--	--
Class Size	40 - 60	20 - 30	30	18	25-30

Table 2. Class size of courses in some graduate programs offered by AU.

¹ = Master of Business Administration

² = Master of Law

³ = Master of Science in Pharmacy

⁴ = Master of Science in Restorative Dentistry

- The maximum class size does not mean the optimal class size. The maximum class size reflects the level of the course, course-learning objectives, degree of faculty-student interaction and instructional methods used.
- Deterioration of the learning experience is generally experienced if the class size goes above the maximum level.
- In accordance with the CAA and AU standards, the class size depends on the size of lecture hall, effective teaching and availability of modern educational resources.
- Rules and regulations governing supervised studies are outlined and published in the student handbook.

Colleges and Departments Responsibilities

Academic advising is a primary responsibility of the faculty members in each college. Academic advising should be integrally related to the rest of the educational process.

1. It is the responsibility of departments, colleges , and Student Services to:
 - a. Ensure that advising is available for students when they need or wish it rather than merely when the College requires it. This means that advising opportunities shall be available to students throughout the academic year at regular, reasonable intervals.
 - b. Make all relevant (using any format deemed appropriate) information available to students. The following list is indicative of the types of information that might be made available:

- i. University rules, regulations, and procedures;
 - ii. Support resources available on campus;
 - iii. A copy of students' advising responsibilities;
 - iv. Necessary forms and academic calendar;
 - v. Study plan;

Peer advisors help students pick classes, provide information on academic policies and procedures, and make appropriate referrals to campus resources. They also provide advising based on their experiences as students at AU. Peer advisors hold walk-in and appointment hours.

Peer advisors can provide academic information from their own student perspective. They advise students on the “real deal” when it comes to choosing classes, picking a major, and utilizing campus resources. They share the lessons they have learned as AU students. Because peers are highly trained on advising material, they are a valuable academic resource.

Peer advisors serve six purposes:

1. Help new students and students in probation at AU.
2. Help advisee master basic academic processes
3. Teach and reinforce student skills for success (i.e. time management, study skills, etc.)
4. Act as referral source
5. Offer a different but complementary point of view from staff or faculty advisors' perspectives
6. Are role models for successful students

 12. Evaluate (if they so choose) academic advising programs and individual academic advisors by filling survey forms, speaking or writing to the head of departments, or the dean.
 13. If you are on academic warning or probation, you are required to meet with your advisor on a regular basis.

Peer Mentoring of Students on probation

Students with CGPA below 2.0 are considered on probation. The advisor shall advise the student to repeat courses with low performance with grades (i.e. "F", "D", and "D+") in order to improve the CGPA. Each advisor will provide mentoring for a group of students on probation within his/her department. Mentoring includes peer mentoring, monitoring and progress reporting. The plan for helping students on probation includes:

1. At the beginning of each semester, a list of students on probation is requested by the Deans of Colleges from the Registrar's office. The Deans will advise department Chairs to draw corrective actions.
2. This plan is executed at the departmental level and would include
 - Hold regular individual meetings with students on probation.
 - Advise students on probation to repeat courses with grades less than "C" prior to registering in any further courses.

- Request students on probation to visit instructors frequently during office hours.
- Provide students on probation with peer mentoring from senior students.
- Request students on probation to meet their peer mentor on regular basis.

The head of Department will request a feedback report on the performance record of each student on probation from course instructor(s). The progress is monitored through special forms maintained in the department. The department council will discuss the progress of students on probation in each of its regular meeting. Progress report will be sent to the dean.

14. Academic Probation Policy

Policy Name	ACADEMIC PROBATION		
Policy Owner	Vice Chancellor for Academic Affairs	Responsible Office	Office of VCAA
Approved By	Council for Academic Affairs	Effective Date	2017

14.1. Academic Probation (Undergraduate Programs)

- If a student's CGPA is less than 2.0 in any regular semester, starting from his/her second semester at the university, he/she will receive an academic warning. The Registrar will place students on academic probation when their CGPA falls below 2.00 or when the Registrar is notified by the college that a student has failed to meet other conditions for academic progress that may apply in some majors. The Registrar will notify students and his/her sponsor in writing of their academic probation status and of any conditions associated with the academic probation.
- A student on probation must raise his/her CGPA to at least 2.0 within two semesters, not including the summer session.
- The study load of warned students will be reduced, as follows:
 1. First warning: a maximum of 15 credit hours among which three or six credit hours are repeated depending on the CGPA and the previous semester's GPA
 If a student having a first warning has failed to raise his/her CGPA to 2.0 or higher at the end of the following semester (excluding the summer semester), his/her case will be reviewed by the College Council. The council may take one of the following actions:
 - a. transfer the student to another program providing that his/her CGPA for the courses to be transferred is 2.0 or higher.
 - b. allow the students to continue in his major (This option is open only for students who can raise CGPA to 2.0).
 - c. dismiss the student from the university (If a and b are not satisfied).
 2. Second warning: a maximum of 12 credit hours among which six or nine credit hours are repeated depending on the CGPA and the previous semester's GPA.
- Student load can be raised by 2 credits upon dean request.
- If a student having a second warning has failed to raise his/her CGPA to 2.0 or higher at the end of the following semester (excluding the summer semester), students will be dismissed from the university.
- Students can be placed on academic probation only twice, and for no more than four semesters in total while studying at AU, whether for one or two academic probationary events. After that threshold is reached, students will be dismissed from the University if they have not achieved CGPA of 2.0.

- If a student attempts courses during the summer after being placed on probation, that term will not count as one semester on probation.
- When dismissing students from the university, the university may give students the option of reapplying for admission after a maximum of one calendar year has passed from the final day of the session during which the dismissal was implemented, or the university may choose to permanently dismiss students from the university, which means that it will not consider future applications from the student. The type of dismissal will be included in the letter from the college, and recorded by the Office of the Registrar.
- Readmission applications are evaluated based on:
 - a. The total record of the student and consistent with the admission practices in effect at the time of application.
 - b. The student had studied courses (counted toward his degree) in another accredited university and raised his/her CGPA to 2.0
- A readmitted student is governed by the academic requirements in effect at the time of readmission.
- Academic probation and dismissal are permanently recorded on the transcript.

14.2. Academic Probation (Graduate Programs)

- A student will be put on probation if his/her CGPA is less than 3.0 starting from his/her first semester of studies.
- A student on probation needs to raise his/her CGPA to at least 3.0 within two semesters, not including his/her summer session.
- A student on probation will not be allowed to register courses unless he/she signs an undertaking to improve the CGPA to 3.0 or more.
- The study load of academically warned graduate students will be reduced to the relevant band set in their program by the Academic Council.
- After a second Warning, if the student fails to raise his/her CGPA to 3.0 or more, the College shall dismiss him/her from the program.
- The Graduate program coordinator may advise an academically warned student to repeat one or more than one course to increase his/her chances to raise his/her CGPA to 3.0.
