## 5. Message to AU Students

AU Undergraduate Student Catalog can be used as a reference guide to student life at AU as it provides answers to many of the questions students ask. It gives information about the university, the programs offered by each of the nine colleges, admission and registration procedures, and the key regulations that are relevant to students.

The Catalog is a contract between Ajman University and the students that will last throughout the approved period of the student's program of study.

AU students, through the Online Admissions System, acknowledge that it is his/her responsibility to read and understand the terms and conditions in the AU's Catalog published in its website and that once he/she receives his/her university ID, it is considered an acknowledgment of his/her commitment to those terms and conditions.

A list of institutions with an articulation agreement with AU shall be made available on the AU's Admissions webpage.

AU ensures that there is a quality oversight of credits awarded and consideration for other accredited institutions. ## Time Allowed for Completion of a Degree Program

The maximum time allowed for a student in which he/she may complete a degree program is a maximum of double the regular number of required semesters. In other words, a four-year bachelor's degree must be completed in a maximum of 16 regular semesters of enrolment in the program. The minimum time allowed to complete a degree for non-transfer students is a minimum of six regular semesters for four-year programs and eight regular semesters for five-year programs.

The maximum and the minimum number of semesters of enrolment for transfer students is determined after the deduction of the number of earned/transferred semesters (15 credits correspond to one semester) from the above limits. Suspended semesters are not counted in the time allowed for students to complete their degrees.

## Suspension of Registration

The Suspension request should be applied online on the online registration system (ORS) and the college dean and the registrar's approval are required in addition to other related offices.

- Newly-admitted students can only submit a request to suspend their study in their first semester if they paid the seat reservation deposit, and they have to register courses for the next semester. Otherwise, the student has to apply for new admission.
- Former students can submit a request to suspend their study knowing that the total number of suspended semesters for former students is a maximum of four.

## Right to Cancel Admission/Registration

The University reserves the right to cancel an offer of admission if the applicant fails to satisfy all requirements, or if it is found that admission was obtained through the use of incomplete, falsified, altered, or embellished information.

## Student ID Card

Students will receive a digital university ID card containing their photograph, name, date of birth, and AU ID number (the student ID card will be valid for all the period expected to complete the program). The digital ID card should be shown if have been requested. It may provide access to certain academic buildings and hostels. In addition, the card is required for admission to sports facilities, to sit university exams, and to make use of AU facilities.

Fraudulent use of an ID card shall result in disciplinary action.

## 12. Academic Advising

As part of its dedication to academic success, AU is committed to offering high quality academic advising in order to help students in the development and pursuit of academic objectives consistent with their career goals. The academic advising role has been created to enhance the levels of academic advice and support that students receive throughout their time at AU, leading to improved progression and successful career transition. Students will have opportunity throughout their academic journey to work closely with an academic advisor to reflect on their current progress and make clear plans for development and improvement. Academic advising is an ongoing process that connects students to the university. Academic advisors provide guidance to students in taking responsibility for their own learning, and in developing meaningful educational plans. Academic advising will aim at empowering each student with adequate and timely guidance, recommend resources and make referral to services that are capable of helping advance the students' skills that will lead to academic success and desire for lifelong learning. This policy aims to streamline the advising process and makes its implementation more efficient by the advisors.

### General AU Advising Policies

1. Every new student is assigned an academic advisor within a week from his/her full admission to AU. Every advisor will be assigned new advisees from each batch of new students admitted. Once a student is assigned to an advisor, the student will continue to receive academic advising from the same advisor for their entire academic years. This is to build an effective advisee-advisor relationship and ensure advising continuum.
2. It is the responsibility of the college deanship to ensure that every regular student has an academic advisor.
3. AU students are informed about the advising policy and advising process during the initial orientation.
4. Academic advisors are provided with access to their advisees' academic information.
5. Every regular student must receive at least one advising session per semester.
6. Students at risk and those with academic warning/probation must receive a minimum of two academic advising sessions per semester.
7. Students in their final year of study must be provided with academic advising at least twice every semester of their final year.
8. New faculty can only co-advise of up to 40 students with a senior academic advisor throughout the first academic year, while completing a set number of mandated faculty developing programs. Starting from the second academic year, the new faculty member is assigned a regular advising assignment.
9. The following table describes the recommended maximum number of advisees and co-advisees:

| Description  | Maximum Advisees | Maximum Co-advisees |
|--|------------------|---------------------|
| Existing Faculty (including CAAD lecturers)                | 40               | 0                   |
| New Faculty (1 <sup>st</sup> year only)                    | 0                | 40                  |
| GEP Lecturers (for freshman students only)                 | 40               | 0                   |
| Senior Instructors, Instructors, and Assistant Instructors | 0                | 40                  |

10. Under special and strict circumstances, an advisee may request to change his/her academic advisor. This must be assessed by the Deanship of the pertaining college.
11. Resources will be made available to all units to ensure effective and efficient advising at all levels.
12. Training on effective academic advising will be provided for all advisors and co-advisors.

13. The college dean shall assign one (or more) lead advisor to support other academic advisors and co-advisors. Academic advisors and co-advisors shall communicate with the Office of Registration only through the lead advisor.

## Responsibilities of the Student Advisee

The advising process depends on the thoughtful participation of the students. To this end, students must assume the following responsibilities:

1. Become familiar with their advisors' free times and how to contact and communicate with them through email, phone, and individual appointment.
2. Become familiar with academic policies, dates, and deadlines.
3. Come prepared and on time to meetings with their academic advisor.
4. Regularly check and respond to email communications from the academic advisor and other AU departments.
5. Inform academic advisor of problems and concerns which may impact their academic performance as soon as possible.
6. Keep their academic advisors informed about their academic progress by copying them in all relevant sent emails.
7. Become familiarized with requirements for the academic program, as well as graduation and other requirements contained in the appropriate University catalog and other University publications.
8. Maintain or have access to advising-related records, like advising appointment, copies of prior college or university transcripts; current academic transcript; current semester timetable; and, individual study plans.
9. Develop an individual "Plan Ahead". The individual Plan Ahead must be approved by the student's academic advisor.
10. Accept ultimate responsibility for selection of classes, which incorporates decisions as well as the academic advice that has been given.
11. Evaluate academic advising programs and individual Academic Advisors by filling survey forms, speaking or writing to the head of departments, or the Dean.
12. Meet with the academic advisor on a regular basis if s/he is on academic warning or probation.
13. Follow through the advice of the academic advisor and actively improve the academic standing, if required with thorough peer-tutoring and other student support services.
14. Attend training workshops related to the student's academic journey, which are conducted by the university every academic year.

Note: The full Academic Advising Policy is available in the [Student Handbook](#).

## 13. Change of Major

### New Students

First-semester students may apply to transfer from one major to another within the university during the add/drop period. The application is processed through the Office of Admission & the Office of Registration provided that:

- a. The applicant meets the admission requirements of the degree program to which he/she is applying
- b. There is the availability of seats
- c. Approval of the deans of both colleges concerned is obtained, along with approval from the registrar.

### Transfer between Programs

Students may transfer from one program to another within the university provided that they satisfy all conditions of the section above. In addition, they must satisfy the following:

1. The applicant meets the admission conditions of the program to which he/she is applying
2. The preceding semester's Grade Point Average should be equivalent to that required by the new program;
3. The transfer request should be submitted within the period specified in the academic calendar.

## 14. Academic Evaluation and Assessment

### Course Assessment

In each registered course, a student's performance is assessed according to a procedure established by the college concerned and explained in the course plan. The overall score is normally distributed as follows, exceptions may be taken Depending on the nature of the course:

- a. Semester tests and activities 45-50 percent
- b. Mid-Semester examination 20-25 percent
- c. Final examination 30 percent

The score for semester tests and activities includes marks for tests, quizzes, assignments, research, and laboratory work. The passing mark in each course is sixty percent while for Medicine is seventy percent.

### Grading System

The university adopts the following grading system for all Undergraduate Programs and Medicine:

|              | All Programs, Except Medicine |             |  | Medicine |             |  |

**NB:** The course passing grade for Undergraduate programs is (D) except for MD is (C).

### Semester Grade Point Average

The semester GPA indicates student performance during the semester and is calculated as follows: the total of the grade point of each course taken in the semester multiplied by its credit hours, divided by the total number of credit hours registered in the semester.

For example, if a student obtains the results as set out in the table given below, his/her semester grade point average will be computed as follows:  $GPA = (9+6+9+12+12+6)/18 = 54/18 = 3$

| Subject         | Credit Hours | Points | Product of Credit Hours by Point Grade |
|-----------------|--------------|--------|--|
| Mathematics 1   | 3            | 3      | 9                                      |
| Statistics      | 3            | 2      | 6                                      |
| Physics I       | 3            | 3      | 9                                      |
| Islamic Culture | 3            | 4      | 12                                     |
| Arabic Language | 3            | 4      | 12                                     |
| Psychology      | 3            | 2      | 6                                      |
| Total           | 18           |        | 54 points                              |

## Cumulative Grade Point Average

The CGPA indicates the student's average performance overall semesters up to the final or current semester. It is calculated as follows: the total of the point grade of each course taken to date, multiplied by its credit hours, divided by the total number of credit hours taken.

If a student repeats a course in which he/she obtained an "F" grade, or does so in order to improve his/her CGPA, the last grade obtained will be considered in the calculation of the CGPA regardless of whether the last grade is higher than the original one or not. However, the original grade will continue to appear in the academic record without affecting the calculation of the CGPA.

The CGPA is also used for academic probation as follows: starting from the end of the second semester of study, if the student's CGPA is less than 2.0, he/she will be regarded as an "academically-warned" student and will be requested to improve his/her academic performance to raise the CGPA to 2.0 or higher. (See Section 17 for the policy regulating the study load of warned students).

A student will not be allowed to graduate unless his/her CGPA is (at least 2.0 in all undergraduate programs except the MD program, the CGPA must be at least 2.5), even if he/she has passed all required courses of the program of study. In this case, and in consultation with the academic advisor, the student must repeat a number of courses of the study plan in order to raise his/her CGPA to 2.0 as a minimum, or at least 2.5 for MD.

## Incomplete Grade

If a student does not attend the final examination due to an emergency and he/she scored at least a total mark of 30 out of 70 in coursework (tests and midterm examination) the course may be considered as "incomplete." Acceptable evidence for failure to attend a final examination due to an emergency consists of the following:

- illness certified in a medical report approved by the University Clinic;
- death certificate of a first or second-degree relative;
- arrest or summons before a court or other legal body;
- other excuses accepted by the College Council.

In these cases, the student must submit an online request within three working days of the examination date, along with the relevant documents. Requests submitted by students with a 25 percent absence warning will not be accepted.

### Note:

- It is the student's responsibility to follow up with the college to determine the date of the exam to remove the incomplete grades according to the date specified in the university calendar.
- A student whose course result is "incomplete" must take the final examination before the end of the first week of the following semester in which he/she registers, as shown in the academic calendar, otherwise, a grade (F) will be obtained.
- The administrative incomplete request fee must be paid.

## Make-up Exam

Students who have two final exams scheduled at the same time or have three final exams scheduled on the same day can request to sit for the make-up exam in accordance with the dates scheduled in the academic calendar.

## Examination Re-sits

For a student who fails the last course (other than training and internships) in the program or misses the final exam and does not qualify for an incomplete grade, other than training and internships. He/she can take a re-sit exam if:

- He/she has attended more than 75% of the classes.
- he/she is not subject to disciplinary penalties for academic violations in the course which he will sit for a re-sit exam

### NB

- The re-sit exam grade shall be out of 30 (as a regular final exam) for students who achieve a minimum grade of 42/70 in the semester work.
- Students who achieve a semester work grade below 42/70 would be allowed to sit for a comprehensive exam out of 100. The ceiling for the final grade in the course shall be "C".
- There is a charge of 50 percent of the course fees and the student must re-take the final examination before the beginning of the following semester.

## Student Grade Appeal

The student grade appeal is a request for review of a decision made with respect to a student's grade. This policy, which applies to all students enrolled at Ajman University, provides a means to request reconsideration of the grade decision without risk of disadvantage.

Grade Complaints concerning final examination results need to be submitted within 15 calendar days following the announcement of examination results. Students may appeal a final grade after it has been posted through formal procedures, and their requests will be answered before the beginning of the next academic semester. Students wishing to appeal a final examination grade result must adhere to the following procedure.

### Grade Appeal Procedure

1. The student can seek advice and guidance from his/her advisor and/or the course instructor to avail of the opportunities for early and/or informal resolution. In this case, if the matter is not resolved with the instructor through informal resolution, the student may submit an online request through the Online Request System (ORS) Grade Appeal, which is routed to the Office of Registration.
2. The Office of Registration will screen the request to ensure the validity of the request.
3. Upon approval from the Office of Registration, the request is routed to the Office of Finance for charge allocation.
4. The request is then routed to the concerned college where deliberations are conducted and the decision is taken. Upon receiving the request, the college forms a three-member committee that includes the instructor of the course. The committee will meet and review the grade calculation to determine computational, or clerical error or something contrary to the policies and procedures stated in the course syllabus. The deliberation and decision of the grade appeal should be completed by the college within two weeks from receiving the request.
5. In the event the appeal is rejected by the college, an automated email is sent to the student notifying him/her of the decision. The student can also access the system to check online the Grade Appeal (complaint) status.

6. In the event the appeal is approved by the college, the decision will be routed to the Office of Registration to reflect the approved grade change on the student's academic record.
7. The student will receive an email notification on his/her university email that the request is completed and the change of grade has taken place. The student is able to verify the completed status of the request by accessing the online system.
8. The Office of Registration shall maintain electronic records of appeals and complaints whether approved or rejected.

## 15. Supervised Credit-Earning

Colleges may approve supervised credit-earning on selected courses designed for advanced undergraduates that have completed 50 percent of the required credits for graduation. The purpose of such courses is to make it possible to study all the units of a course under the supervision of a faculty member on a meeting session basis. The schedule of these meetings should not be less than 15 contact hours per semester.

The supervised work should cover all the content of the course and meet its objectives. The supervisor must ensure that the course is devoted to advancing students' knowledge and skills as required in the course outline.

Reasons why a student may wish to take a supervised study course include:

- a. To adjust his/her study plan by completing a specific course which is not offered in that semester
- b. To complete a course which is not offered but it is required for graduation during the final semester
- c. To gain additional knowledge and practical experience in designing, conducting, analyzing and documenting coursework

A maximum of nine credit-hours of supervised study can be taken during a student's undergraduate degree program. A student may not register for more than three credit hours of supervised study per semester.

The assessment of the course will be conducted as follows:

- a. Students will be required to sit for a written exam to be evaluated by the supervisor. This exam will be weighted at 20% of the final course mark;
- b. At the end of the semester, students will submit a written report to the supervisor detailing the work carried out. This report will be weighted at 40% of the final course mark;
- c. Students will present their work to an internal examiner who will not be the supervisor. The oral presentation will be weighted at 40% of the final course mark;

The student's final grade for the supervised study course will be determined by the student's supervisor and the internal examiner after evaluation of the student's work, written report, oral presentation and response to questions.

## 16. Attendance Policy

Attending classes is compulsory for all courses. A student will not be allowed to take the final examination if he/she has missed 25 percent of the classes in a given semester. Absence warning policies are set out below:

- If a student is absent for 10 percent of theoretical and practical class hours, the lecturer will issue a 10 percent absence first warning.
- If a student is absent for 20 percent of theoretical and practical class hours, the lecturer will issue a 20 percent absence second warning.
- If a student is absent for 25 percent of class hours, the Instructor will issue a 25 percent absence warning, and the student will receive an F grade.

## 17. Academic Probation

### Academic Probation for Undergraduate Students

At the end of any regular semester a student seeking an undergraduate degree must maintain a cumulative Grade Point Average (cGPA) of 2.0 or above to be considered in a good academic standing.

1. If the student's cGPA is below 2.0 during his/her first regular semester (fall or spring semesters), he/she receives an Academic Warning after the end of the student's first regular semester. The academic warning is an academic alert to notify the students with their academic performance and to the AU academic support team to provide the required support.
  - a) The student will be under academic mentoring and monitoring programs to provide a full support to the student, academically through the Student Success Center (SSC) and non-academically via the Counseling Unit (CU), and to closely evaluate the student's academic progress by his/her academic advisor and course instructor(s) with an objective to raise the cGPA to 2.0 or above.
  - b) The student's academic advisor approves the list of courses the student can register for. Courses with F, D, or D+ grades are preferably repeated if they are offered in the spring semester or summer term.
  - c) The academic warning is not recorded on the student's transcript.
  - d) If the student's cGPA remains below 2.0 after his/her second regular semester, he/she will be continued in the academic warning status and under academic mentoring and monitoring programs.
  - e) The student, his/her academic advisor, and sponsor (if any) are notified about the student warning status. The student's sponsor (if any) will also be provided of the student's academic transcript via email if they request.
2. If the student's cGPA is below 2.0 after completing three regular semesters or after he/she has been in good academic standing beyond the third semester, he/she receives an **Academic Probation One (AP1)** and is placed on academic probation by the Office of Registration.
  - a) The student, his/her academic advisor, and sponsor (if any) are notified about the student probation status. The student's sponsor (if any) will also be provided of the student's academic transcript via email if they request.
  - b) The student status will be updated on his/her transcript.
  - c) The student will be under academic mentoring and monitoring programs to provide a full support academic to the student academically through Student Success Center (SSC) and non-academically via the Counseling Unit (CU).
  - d) The study load of the student with AP1 is restricted. A student can register for a maximum of 15 credit hours (C.H.), of which at least three credit hours are repeated (the priority of repeated courses is given for courses with F, D, or D+ grades). The academic advisor approves the list of courses the student should register for.
3. If a student fails to raise his/her cGPA to 2.0 or above at the end of the semester subsequent to the Academic Probation One (excluding the summer term/semester), he/she will receive an **Academic Probation Two (AP2)** and is placed on academic probation by the Office of Registration.
  - a) The student, his/her academic advisor, and sponsor (if any) are notified about the student probation status. The student's sponsor (if any) will also be provided of the student's academic transcript via email if they request.
  - b) The student status will be updated on his/her transcript.
  - c) A student with AP2 can register for a maximum of 12 credit hours, of which at least six credit hours are repeated (the priority of repeated courses is given for courses with F, D, or D+ grades). The academic advisor approves the list of courses the student should register for.
  - d) If the student receives AP2, the college evaluates the student's academic record, his/her ability to continue studying in the major to reach a good academic stand, and the feasibility of raising the student's cGPA to at least 2.0 by the end of the following semester. The council should take the appropriate decision, either to continuing his/her studies or changing the major.

4. If a student fails to raise his/her cGPA to 2.0 or higher at the end of the semester subsequent to the Academic Probation Two (excluding the summer term/semester), he/she is issued an **Academic Probation Three (AP3)** and is placed on academic probation by the Office of Registration.
  - a) The student, his/her academic advisor, and sponsor (if any) are notified about the student probation status. The student's sponsor (if any) will also be provided of the student's academic transcript via email if they request.
  - b) The student status will be updated on his/her transcript.
5. If a student receives an AP3 but his/her cGPA is 1.7 or greater and has completed at least 70% of the program total credit hours, he/she will be given a chance for two regular semesters to raise the cGPA to 2.0.
  - a) The study load of the student is restricted to a maximum of 9 credit hours, of which at least six credit hours are repeated (the priority of repeated courses is given for courses with F, D, or D+ grades).
  - b) The academic advisor approves the list of courses the student should register for.
  - c) If the student's cGPA remains below 2.0 at the end of the two-regular-semesters period, and he/she is issued a final Repeated Academic Probation Three (RAP3). The student with RAP3 cannot continue in the major, and his/her situation will be evaluated by the College Council with only two options:
    - d) change to another major, provided that he/she meets the admission requirements of that major; or
    - e) academically dismissed from the University.
  - f) The student, his/her academic advisor, and sponsor (if any) are notified about the student probation status. The student's sponsor (if any) will also be provided of the student's academic transcript via email if they request.
6. If a student receives an AP3 and he/she falls under one of the following categories:
  - a) has completed at least 70% of the program total credit hours but his/her cGPA is less than 1.7; or
  - b) has not completed at least 70% of the program total credit hours and his/her cGPA is less than 2.0,
 If the student falls under one of the categories 6a or 6b, the College recommends one of the following options:

*A compulsory course which is part of the student's major must be replaced by another optional course. An optional course which is part of the student's major cannot be taken*

\*Students within the college of business administration (CBA) cannot take the same courses as students from other colleges since these courses are in their study plans for their major. For example, *Introduction to Management (MGT 200)*, *Principles of Accounting I (ACC 200)*, *Organizational Behaviour (MGT 300)*, *Principles of Marketing (MKT 200)*, and *Principles of Accounting II (ACC 200)* are mandatory courses for all students pursuing different majors in CBA. Overall, CBA students are required to take 54 credit hours as part of their major study plans.

\*\*On the other hand, students from other colleges do not take the same courses for their major programs. The courses offered to students from other colleges are thus not part of their major program study plans. This explains the apparent differences in the course offerings for CBA students and those for non-CBA students.

### The Electrical Engineering Program

The Electrical Engineering program offered by the Department of Electrical and Computer Engineering is appropriate to the University mission and its design and composition as well as its delivery and assessment of learning outcomes are in accordance with international academic norms. There is a regular process of assessment and evaluation and the results of such evaluation are regularly utilized for continuous improvement of the program. Its program learning outcomes are appropriate to the level of qualifications awarded and are consistent with the UAE Qualification Framework (QFEmirates).

The EE program requires a total of 142 credit hours for graduation. This includes 3 credit hours of 16 weeks of practical training (internship) in engineering organization. The remaining 139 credit hours of course work are distributed over 8 full semesters and one summer semester. Accordingly, a student can complete all the requirements for graduation in a period of four years. For graduation, a student must have cumulative GPA of at least 2.0.

### Program Goals

The EE Program Goals, also referred to as Program Educational Objectives (PEOs), are stated below.

PLO#9: Demonstrate knowledge of innovation, entrepreneurship, and sustainability practices.

### Relationship of Program Outcomes to Program Goals

The Program Goals, based on the needs of its constituents, are broad statements. On the other hand, the Program or Student Outcomes (POs or SOs), derived from Program Goals, are defined in measurable terms and represent the abilities and attributes of students at the time of their graduation. Accordingly, there must be a well-defined relationship between Program Outcomes and Program Goals as the former will assist in attaining the latter. For the EE program, this relationship is given in Table 1 which shows how SOs will prepare graduates to attain the Program Goals.

**Table 1: Relationship of Program Outcomes and Program Goals**

| Program Outcomes | Program Goals (Abbreviated)                           |   |  |                                      |
|------------------|---|---|--|--------------------------------------|
|                  | Goal #1<br>Productively contributing in EE Profession | Goal #2<br>Updating their knowledge and abilities | Goal #3<br>Ethical and professional community engagement | Goal #4<br>Pursuing graduate studies |
| 1                | ✓   |   |  | ✓                                    |
| 2                | ✓   |   |  | ✓                                    |
| 3                | ✓   |   |  | ✓                                    |
| 4                |   |   | ✓  |                                      |
| 5                | ✓   |   |  |                                      |
| 6                | ✓   |   |  | ✓                                    |
| 7                |   | ✓   |  | ✓                                    |
| 8                | ✓   | ✓   |  | ✓                                    |
| 9                |   | ✓   |  | ✓                                    |

The rationale for the above table is as follows:

- Goal #1:** The most relevant program outcomes are those related to technical competence, i.e. 1, 2, 6, and 8. Program outcomes 3 and 5 are relevant because teamwork and effective communication play an important role in professional environment.
- Goal #2:** Program outcomes 7,8 and 9 are relevant because with their current knowledge and skills as well as ability for life-long learning, graduates will be able to continually update their knowledge and skills.
- Goal #3:** Program outcome 4 is relevant since in addition to an understanding of professional and ethical responsibility, it is also important to have knowledge of contemporary issues and the impact of engineering solutions while engaging with the community at different levels.
- Goal #4:** For graduate studies all program outcomes related to technical competence, i.e. 1,2,6, and 8 are relevant. In addition, outcomes 3 ,7 and 9 are important because they relate to communication skills and self-learning ability.

## MINOR IN ELECTRICAL ENGINEERING

The Minor in Electrical Engineering is offered to undergraduate students enrolled before academic year 2023 in either Biomedical Engineering or Computer Engineering programs offered by AU. There are some basic core courses that are common between these three programs. Having taken these basic core courses in their own programs, students majoring in the Biomedical and Computer Engineering programs will have the required foundation to expand their knowledge and skills in Electrical Engineering by taking some important courses in this discipline, thus enabling them to get a Minor in Electrical Engineering. The courses in the study plan of Minor in Electrical Engineering are designed such that students taking this Minor will not have to take any additional course just for the sake of meeting the pre-requisite requirements.

### Study Plan

The specified courses for Minor in Electrical Engineering are given in the following table. These courses were selected after considering the study plans of Biomedical Engineering (BME) and Computer Engineering (CE) programs at AU to ensure that students of these two programs have the required pre-requisite courses to take the courses needed for obtaining Minor in Electrical Engineering.

| Course ID              | Course Title   | Credit Hrs.<br>(Th, Lab) | Pre-requisite(s)   |

### Admission and Completion Requirements

The requirements for a Minor in Electrical Engineering are presented in the following.

1. Only the registered students of Biomedical and Computer Engineering programs at AU before Academic Year 2023, can apply for Minor in Electrical Engineering.
2. For a student to be accepted for Minor in Electrical Engineering, his/her cumulative GPA at the time of application must be at least 2.0.
3. The student will be enrolled for Minor in Electrical Engineering after obtaining approval from the advisor, Head of the Electrical & Computer Engineering Department, and the Head of Biomedical Engineering Department as well as the Registrar (Office of Admissions and Registration).
4. The students accepted for Minor in Electrical Engineering must successfully complete five specified courses (19 credit hours as given above) with a minimum CGPA of 2.0 in these courses.

#### **INT423 - Advanced Database Design and Implementation**

This course builds on top of the first Database Management Systems (DBMS) course by introducing advanced database concepts to allow students to effectively design and implement a database. The course revisits Structured Query Language (SQL) in a deeper, more practical approach, with a focus on its Programming Language (PL)/SQL extension. The student will learn object-oriented database design, and how to manage multi-user databases with respect to concurrency, recovery, and query optimization. Students also will be exposed to distributed database systems.

#### **INT424 - E-Commerce**

This course aims to expose students to the theory and practice of e-commerce. Topics covered are an introduction to e-commerce, e-commerce technology infrastructure, revenue models, marketing on the web, business-to-business online strategies, social networking, mobile commerce, legal and ethical issues, web server hardware and software, e-commerce commercial software, e-commerce security, payment systems, planning for e-commerce business, and dashboarding and business data visualization.

### **INS307 - Business Process Management**

The course introduces the methods and techniques required to analyze, design, implement, automate, and evaluate business processes. Structured along the phases of the Business Process Management (BPM) life cycle, students learn to analyze organizational performance from a process perspective, redesign processes using value-focused techniques, design workflows and implement them in BPM systems, simulate new process design to ensure continual improvements within organizations. The course leads students from process discovery through conceptual and technical process design through the implementation of workflows to improve organizational capabilities.

### **INS402 - Business Intelligence**

This course provides an introduction to the concepts of business intelligence (BI). It explores how business problems can be solved effectively by using operational data to create data warehouses and then applying data mining tools and analytics to gain new insights into organizational operations. In particular, students learn effective modelling techniques (dimensional modelling), foundations and technologies for the decision-making process, the extract-load-transform (ETL) process, business performance management, an overview of data mining, and analytical modelling (descriptive, predictive, and prescriptive). Students will learn to exploit the demonstrated topics to extract business intelligence and convey them to stakeholders.

This course aims to introduce students to basic theories, concepts and methods of scientific research and their relevance to architectural design and programming. In this course students will learn, in brief, how to conduct scientific architectural research, starting with how to employ methods of data collection and analysis to inform all aspects of the programming and design process, and ending with making a comprehensive analysis and evaluation of a building, building complex, or urban space.

**ARC587 Contemporary Arab Architecture (3, 0, 0, 0: 3) pre-requisite: Senior Status & ARC321**

This course aims at providing students with recent architectural trends and developments in the Arab World during the 20<sup>th</sup> century and the present time. In this course students will be taught about the general circumstances underlying architectural development and transformation periods in the Arab World during the 20<sup>th</sup> century. They will be able to understand the identity concept in architecture and various issues connected with it, particularly those connected with regionalism and globalization in architecture and the different approaches employed. Students will also be familiar with theories and conceptual approaches of most of the pioneers of contemporary Arab Architects.

**ARC590 Digital Architecture Visualization (1, 0, 4, 0: 3) pre-requisite: Senior Status & ARC253**

This course develops students' abilities to create photo-realistic images by introducing advanced knowledge and techniques in coloring, photo editing, lighting, materials, postproduction, and rendering. Digital visualization can be achieved in different computer applications via 2D photo editing and illustrating software or specialized rendering engines that empower the 3D applications to reach photo-realistic images. This course will allow students to use their computer to create sophisticated digital presentations for their designs and provide a new updated skill that makes them critically required in any design team.

**ARC591 Working Drawings II (1, 4, 0, 0: 3) pre-requisite: Senior Status & ARC334**

The purpose of this course is to utilize drafting skills in architectural drafting procedures, practices, and symbols including the preparation of detailed working drawings for a large building, with emphasis on commercial construction methods.

**ARC592 Interior Design and Coloring (1, 4, 0, 0: 3)**

Pre-requisite: Senior Status

This course aims to enhance students' skills in interior space drawing and coloring. This course primarily highlights Color as the key aspect of successful work in Interior Design and Architecture. In this course students develop a complete understanding of what color is, why it happens and how to control it thereby contributing to the visual and aesthetic experience of color as an important determinant of the experience.

They will also acquire a technical expertise in the use of color specifically in project presentations. Introduce the digital skills in rendering will be part of this course. They will be equipped with essential knowledge to reach an optimum Mode Board for their projects.

## Bachelor of Architectural Engineering (BAE)

### Architectural Engineering

*Architectural Engineering is “the art and science of engineering and construction as practiced in regard to buildings as distinguished from architecture as an art of design”. The program focuses on the technical aspects of building design and construction. It is designed to equip students with skills in building construction engineering and management with the understanding of various building systems and their integration. Students who are interested in working as architects who design buildings and advise in their construction should enroll in the Bachelor of Architecture program.*

### Admission Requirements

Admission to the Architectural Engineering Program requires:

1. *A minimum High School Average of 75% for Elite Track, or 80% for Advanced Track or 90% General Track or equivalent in Standardized International Systems is required.*
2. *Passing EmSAT in Mathematics with a score of 800 or equivalent.*
3. *Passing EmSAT in Physics with a score of 800 or equivalent.*
4. *Passing EmSAT in English Language with a score of 1100, or an equivalent approved English Proficiency test.*

For more information please refer to the university admissions policy.

### Career Opportunities

The Bachelor of Architectural Engineering (BAE) program graduates can work in different consulting engineering firms, governmental agencies, construction companies and construction management firms. Furthermore, BAE graduates may pursue their higher education to enhance their knowledge and expertise.

Freehand drawing is still relevant today, even in the current digital age. Instead of just relying on the mind, freehand drawing engages the eyes as well as the hand. The three coordinate and inform the image quality to be drawn as close as how a person wishes. Freehand drawing also ensures forming of the important DECISION-MAKING ROUTINES (DMRs) related to sketching that impact the design significantly. Freehand drawing is also an excellent means of exciting the students' visual side, which increasingly assists them in visual thinking, the designer's primary responsibility. Given this, the course aims to introduce the students to the basics of freehand sketching and perspectives. It starts with warm-up line drawing and shading exercises that build students' confidence. Later, they are engaged in 2D and 3D studies of different basic solids. Shades and shadows form one part of the course, not to mention one-point and two-point exterior and interior perspectives. Live drawing is another instruction method used to sharpen observation and eye-mind-hand coordination. The result of this course is to enable students to conceive designs and ideas and express them well on paper or a digital surface.

## Bachelor of Science in Nursing (BSN)

Nursing is one of the professions most sought after in the world. It provides an exciting career that makes a difference in people's daily lives. Qualifying as a nurse provides job security and stability with the freedom to choose from a wide range of options, such as public or private hospitals, outpatient clinics, nursing homes, military bases, schools, academia, and research. There are also options for nursing specialization, such as oncology, midwifery, critical care, mental health, adult, pediatric nursing, and many others, which open an opportunity for a distinguished career path. As a result, nurses have gained social respect and global appreciation.

The continuous demand on nurses prompted Ajman University (AU) to plan and develop a new BSc. in Nursing (BSN) Program. The BSN Program at AU has been established in response to an increasing demand and a true need in nursing profession.

### a. Career Opportunities:

Nursing is one of the professions that is not expected to be automated and is projected to remain in high demand in the future. The healthcare sector is rapidly developing in the UAE, with several new hospitals and medical centers under establishment.

According to the 2021 UAE Health Care Report, the UAE had a lower figure of nurses than most Western countries, with 5.68 nurses per 1,000 capita in 2017. This ratio is planned to be enhanced as part of UAE's vision for a worldclass healthcare system. Dubai alone is planning to acquire additional 8,800 nurse by 2025, according to a report in 2018, two years before COVID-19 epidemic.

### b. Admission Requirements:

The admission requirements for the BSN Program follow the requirements of the CAA and benchmarking analysis with other BSN programs offered by various universities in the UAE. These requirements are as follows:

**e. Program Learning Outcomes (PLOs):**

On the successful completion of the BSN Program, graduates will be able to:

1. Integrate core scientific knowledge to provide therapeutic, holistic care that is culturally appropriate, safe and tailored to the needs of the individual patient. (PLO1)
2. Utilize current body of knowledge and concepts about ethical and professional scope of practice when providing nursing care. (PLO2)
3. Employ problem-solving skills in addressing health-related needs throughout the patient's lifespan using evidenced-based nursing practice for optimal healthcare delivery. (PLO3)
4. Perform comprehensive and systematic interventions through promotive, preventive, curative, and rehabilitative services delivered to individuals, families, and communities. (PLO4)
5. Demonstrate leadership qualities in nursing practice through change management with the aim to improve patient outcomes. (PLO5)

## Course Descriptions

### A. College Obligatory Courses

#### **PTB100| Introduction to Healthcare (3-3)**

This course is designed to provide BSN students with a comprehensive overview of the healthcare system and the fundamental concepts and principles that underpin the delivery of healthcare services. This course serves as a foundational introduction to the field of physiotherapy and establishes a framework for subsequent courses in the physiotherapy program.

**Pre-requisite:** Not applicable

#### **PTB101| Communication Skills for Physiotherapy (3-3)**

This course aims to introduce aspects of communication skills necessary during the provision of health care to patients. The course is designed to help nursing students to use effective communication techniques in a variety of contexts and with a variety of people using different forms of communication that lead to establishing principles of professional communication and communication with interdisciplinary teams. This course also helps the students to communicate with the language used in medicine and familiarize them with the medical terminology of diseases, diagnostic techniques, and treatments related to each body system and respective field.

**Pre-requisite:** Not applicable

#### **PHA119| Human Anatomy and Physiology-I (2-2-3)**

This course offers physiotherapy students a comprehensive introduction to human anatomy and physiology, focusing on the structure and function of tissues, organs, and key body systems through a system-based approach. Students will gain a solid understanding of homeostasis, anatomical language, and the physiological processes that support normal health and common conditions encountered in physiotherapy. By the end of the course, students will be able to explain the anatomy and function of major organ systems, apply anatomical knowledge to clinical scenarios, and use correct terminology in both written and practical settings.

**Pre-requisite:** Not applicable

#### **PHA146| General Chemistry for Health Sciences (2-2-3)**

This course presents the fundamentals of certain topics in general chemistry. It includes two major parts: Part I is the general part, and Part II is the organic part. The general part will introduce the student to basic aspects of general chemistry, i.e. the atomic structures, electronic configuration, periodic table of elements, chemistry of metals, and the fundamentals of chemical bonds and chemical reactions. The organic part covers some important areas in organic chemistry, which include aliphatic and aromatic hydrocarbons, stereochemistry, as well as some functional groups, e.g: alcohols, phenols, carbonyl compounds.

**Pre-requisite:** Not applicable

#### **PHA126| General Physics for Health Sciences (3-3)**

This course is designed to cover the basic concepts in most branches of classical physics including linear motion, Newton's laws, rotational motion, work-energy conservation, light, electricity and thermodynamics. Besides, some of modern physics concepts applicable to X-Ray, lasers, radioactivity, isotopes lifetime and applications of these concepts will also be covered.

**Pre-requisite:** Not applicable

### **PHA128| Biochemistry (2-2-3)**

The course is designed to provide a comprehensive knowledge of the major topics in biochemistry. It explores how the structure of proteins, carbohydrates, lipids, nucleic acids, and vitamins relates to their function. Metabolism and energy production as well as biosynthesis of small and macromolecules is discussed.

**Pre-requisite:** PHA146

### **PHA127| Human Anatomy and Physiology-II (2-2-3)**

This course offers physiotherapy students a comprehensive introduction to human anatomy and physiology, focusing on the structure and function of tissues, organs, and key body systems through a system-based approach. Students will gain a solid understanding of homeostasis, anatomical language, and the physiological processes that support normal health and common conditions encountered in physiotherapy. By the end of the course, students will be able to explain the anatomy and function of major organ systems, apply anatomical knowledge to clinical scenarios, and use correct terminology in both written and practical settings.

**Pre-requisite:** PHA119

### **PTB211| Biomechanics and Kinesiology-I (2-2-3)**

This course integrates the knowledge of anatomy and enables the student to have a better understanding of the principles of biomechanics, the science of movement and their application in musculoskeletal function and dysfunction. The practical sessions also help the students to experience clinically the application of the principles of Biomechanics.

**Pre-requisite:** PHA119, PHA127, PHA126, PHA128

### **PTB212| Therapeutic Modalities (2-2-3)**

This course tends to explore fundamental concepts and skills in application of electrotherapeutic modalities and knowledge of indications, contraindications and physiological principles needed for appropriate patient care through electro physical agents.

**Pre-requisite:** PHA119, PHA127

### **PTB222| Therapeutic Exercise (2-2-3)**

This course is based on anatomical and physiological & related kinesiological principles for normal human movement and for the efficacy in the assessment methods for mobility, muscle strength. Students have the opportunity to develop and acquire understanding of physiological responses to various types of training and develop skills of exercise programs (on models). Exercise components of muscle strength, flexibility, balance, breathing and gait are examined. Evidence of appropriate, safe and effective exercise design and proper exercise biomechanics and prescription parameters are addressed with all interventions.

**Pre-requisite:** PHA119, PHA127, PHA126, PHA128

### **PTB215| Pathophysiology (3-3)**

Students will develop an understanding of pathology underlying clinical disease states involving the major organ systems and epidemiological issues. Students will learn to recognize pathology signs and symptoms considered red flags for serious disease. Students will use problem-solving skills and information about pathology to decide when referrals to another health care provider or alternative

interventions are indicated. Students will develop the ability to disseminate pertinent information and findings, and ascertain the appropriate steps to follow.

**Pre-requisite:** PHA119, PHA127

**PTB221| Biomechanics and Kinesiology-II (2-2-3)**

This course integrates the knowledge of anatomy and enables the student to have a better understanding of the principles of biomechanics, the science of movement and their application in musculoskeletal function and dysfunction. The practical sessions also help the students to experience clinically the application of the principles of Biomechanics.

**Pre-requisite:** PTB211

**PTB223| Clinical Placement for Respiratory and Cardiovascular Conditions (9-3)**

To attain our projected high standards, the AUCoM recruited highly experienced and motivated faculty for an academically challenging but highly rewarding experience for the students. Our experienced faculty will be expected to not only deliver in their area of specialization but also nurture and inspire the students. Clinical Adjunct Faculty from our affiliated hospitals have also been hired to complement our in-house clinical faculty in running the bedside clinical training during Clerkship years.

### Laboratories

The College has a Multipurpose Laboratory for training in human physiological recordings, gross and microscopic Pathology and Microbiology. Our Anatomy dry and dissection laboratories, equipped with a virtual reality (VR)/AR setup, are used to teach human structure. We also have a state-of-the-art clinical skills laboratory and Clinical Simulation Center to ensure that students acquire the necessary techniques (including communication skills, history taking, physical examination and basic investigative skills) before practising on actual patients.

### Clinical Training Sites

Ajman University College of Medicine has key training arrangements with Sheikh Khalifa Medical City Ajman (a large UAE Ministry of Presidential Affairs Hospital). Our second clinical training site is the modern Saudi German Network of Hospitals in Ajman and Sharjah. Moreover, we have established memoranda of understanding and working agreements with Amina Hospital, a private hospital in the heart of downtown Ajman, and Ajman Specialty Hospital, an outpatient governmental hospital in Ajman.

The courses to be completed, including University general education courses, are detailed in the next section.

### **CURRICULUM DESCRIPTION**

Our program is 6-year long and runs in three serial phases as follows:

- **Phase I - Two years of PreMed (Years 1 and 2):** concentrates essentially on the structure and function of the body organ systems. In addition to the lectures and labs being copiously illustrated with clinical examples, there are TBL (Team-Based Learning) sessions at the end of each week where cases for problem-solving are used to consolidate learning. Courses offered

in this 4-semester-long phase include: university general education requirements, chemistry, physics, human biology, anatomy and physiology, molecular medicine, biochemistry, genetics, immunology, microbiology, general pathology, and general pharmacology. The overarching intention of the new Premed is to facilitate the transferability of students between colleges. This will, however require rationalization of content between the medical colleges.

- **Phase II - Two years of Pre-clerkships (Years 3 and 4)** – consisting mainly of weekly disease-anchored Problem-Based Learning (PBL) type blocks covering all the organ systems. The robust clinical skills program runs in parallel with all the blocks. Other longitudinal (parallel) courses are offered, including courses like biostatistics and epidemiology, primary and rural health and family medicine, health informatics, economics and management, behavioral sciences, addiction and substance use, and research. The phase culminates in an integrated multisystem block at the end of year 4 to help the students prepare for the IFOM Basic Science Exam as mandated by the CAA.
- **Phase III - Two years of Clerkships (Years 5 and 6)** – consisting of 20-week semesters over the two years and an additional six weeks of clinical electives during the summer between year 5 and year 6. Students are expected to sit for the IFOM Clinical Science Exam by the end of year 6 as mandated by the CAA.

Our program is designed as an integrated, system-based, spiral curriculum divided into three phases. There is both horizontal and vertical integration such that as the student progresses through the phases, they revisit the same organ systems at higher levels of complexity and clinical content until graduation.

A unique feature of the AUCoM curriculum is the application of "Parallel Courses". These are semester-long courses running alongside (parallel to) the integrated blocks. The parallel courses often align their content to the running blocks. Parallel courses address one of the main criticisms in integrated PBL-type curricula; that the students are not learning core concepts in sufficient depth. A secondary advantage of the parallel courses is that the program has greater flexibility in formally introducing new or topical subjects into the curriculum. For example, a simple one or two-credit-hour course in Health Informatics, Economics, and Management, Addiction and Substance Use, etc., has the potential to greatly enrich the curriculum. Such flexibility is lacking or limited in the common integrated curricula on offer at most medical schools in the region.

## General Education Program

The General Education Program (GEP) at Ajman University is a vital component of tertiary education associated with a range of University requirements intended to lay the ground for students' future progress and development, academically as well as professionally.

The main purpose of the GEP is to enable all students attain the fundamental broad base of knowledge, skills and competences that all university-educated adults must have no matter what their area of specialization is. It is integrated throughout the curricula of Baccalaureate programs, and contributes in achieving the Institutional Learning Outcomes (ILOs) as well as core competencies including, but not limited to, written and oral communication, quantitative reasoning, information literacy, and critical thinking.

In addition, the GEP seeks to develop students' specific competences pertinent to enjoying autonomy and responsibility for their learning, interaction with others, pursuing self-development and deploying what they have acquired in real life situations.

General education courses are designed to establish strong intellectual foundation for all specializations, regardless of the degree and number of credits required. These courses are added on top of the mandatory major courses with the intent to broaden knowledge beyond what is required in the student's specialization.

GEP courses develop skill acquisition in oral and written communication, information technology, innovation, quantitative analysis, critical thinking as well as certain aspects in the humanities, arts, social, behavioral, and natural sciences. Their selection is based on originality, modernity, relevance and coherence.

- i. English language
- ii. Arabic language
- iii. Islamic studies
- iv. Emirates studies

## Glossary of Terms

The terms defined below are mostly based on the definitions given in CAA's *Standards* 2019. Other terms have been added for the sake of completeness.

### **University.**

A large, diverse institution of higher education and research that offers both undergraduate and graduate degrees. Universities are typically composed of a number of colleges or schools devoted to the study of closely related disciplines or a single discipline, such as the College of Engineering or the School of Public Health.

### **Undergraduate.**

A student enrolled on a bachelor's degree or taking undergraduate courses.

### **Baccalaureate or Bachelor's degree.**

In the UAE, a Bachelor's degree normally requires at least four but no more than five years of full-time study, with a minimum of 120 semester credits (or equivalent). The maximum number of hours may vary, but many Bachelor's degrees in professional fields, such as engineering or dentistry, require five years of study and at least 150 semester credits (or equivalent).

### **Postgraduate Diploma.**

A Postgraduate Diploma typically includes one year of full-time study, or at least 24 semester credits (or equivalent) of course work beyond the Bachelor's degree.

### **Master's degree.**

A Master's degree typically requires at least one year of full-time study, or a minimum of 30 semester credits of course work (or equivalent) beyond the Bachelor's degree. The minimum credits are not inclusive of any non-credit bridge courses which may be required. A Master's degree often, though not always, requires a substantial research paper, a thesis, or a project.

### **Doctorate.**

A Doctorate degree typically requires at least three years of full-time study, with at least 54 semester credits (or equivalent) beyond the Master's level. There are several recognized distinctions among those degrees which are generally labeled "doctorate." The biggest distinction is between those doctorates which are "earned" and those which are "honorary." Other distinctions are discipline specific and are usually conveyed through the name of the degree.

1. **Academic doctorate.** In the UAE, an academic doctorate requires one or more years of coursework beyond the Master's degree, as well as academic research. Doctorates are nearly always awarded in recognition of academic research that is of a publishable standard (even if not actually published) and that represents some original contribution to human knowledge. The research is usually assessed by submission and defense of a doctoral thesis or dissertation. The usual degree title is the PhD (Doctor of Philosophy).
2. **Professional doctorate.** A professional doctorate requires a minimum of one year of coursework beyond the Master's degree and independent research. The emphasis of the degree is on research skills and advanced professional knowledge in an applied field of specialization. Examples include the Doctor of Education (EdD), Doctor of Psychology (PsyD), and Doctor of Business Administration (DBA).

### **Major.**

The *major* is the field of study in which a student specializes at the baccalaureate level. The term is not typically used in qualifications below the baccalaureate and is only occasionally used in graduate programs. The major usually requires that a student complete a minimum of 30 semester credits (or equivalent) that are specified for the major and distinctive to that subject area. To earn a double major, a student must meet the subject-area requirements of each of the two majors. Typically a student receiving a degree with a major will be issued a degree certificate that includes the name of the major: for instance, Bachelor of Arts in History or Bachelor of Science in Biology.

### **Minor.**

A minor is a separate field of study outside the major or concentration in which a student has a secondary area of specialization, requiring less course work than the major. Minors usually require that students earn 12-18 semester credits in subject area courses

### **Concentration.**

A concentration is best thought of as a grouping of courses which represent a subspecialization taken within the major field of study. For example, a student majoring in 129 biology might have a concentration in genetics, or a student in electrical engineering may have a concentration in telecommunications or instrumentation and control. A concentration may be specified on the student's academic record (transcript) but not on the degree certificate. The CAA requires a concentration to include at least 15 credits of study, or equivalent, in the specialized field in order to be recognized by the MoE. In graduate programs this must include the thesis and at least 9 credits of other courses.

### **Course or Module.**

A *course* consists of a number of instructional activities over a prescribed period of time. It deals with a single subject and is commonly described by title, number, credits, and expected learning outcomes in the institution's *Catalog*. A *module* sometimes refers to a sub-division within a course covering a topic or part of a topic. In the British system, the term *module* is synonymous with *course*.

### **Program.**

The set of courses and other formally established learning experiences which together lead to a qualification (see Curriculum, above). Program may also refer to a specific aspect of the curriculum, such as the General Education program or a study abroad program.

### **Curriculum.**

The term refers both to the range of courses offered by an institution, and to a set of related courses constituting an area of specialization, such as the computer science curriculum or the civil engineering curriculum.

### **Course Syllabus.**

A description of course goals, course learning outcomes, contents, assessment instruments and grading criteria, week-by-week study plan, examination dates, etc. that is provided to the students at the beginning of their classes.

### **Credit and the Credit System.**

The academic credit provides a basis to measure the amount of engaged learning time expected of a typical student. A credit, or credit hour, is a unit of measurement defining the student's overall effort towards attaining a qualification.

In the US system, which is adopted by most UAE institutions, 1 semester credit equals approximately 1 hour of time in class per week over a semester of 15 weeks or longer. (See “Semester” below). It is assumed that a student spends two hours outside of class in independent learning or specific course assignments for every hour in class. This implies that one academic credit equates to a 45-hour commitment to learning over a semester. For laboratory or studio-based courses, the allocation of credit differs; 1 semester credit normally is given for two hours of laboratory or studio time per week over a 15-week semester.

#### **Semester and Term.**

A *semester* is a period of time, typically a minimum of 15 weeks, during which an institution offers courses. Some courses may be offered in a time-shortened period, often called a term, such as a summer term or January term, which nonetheless offers class contact time and out-of-class assignments equivalent to a semester course. Some institutions use a calendar that divides the academic year into quarters (10-week instructional periods) rather than semesters.

#### **Academic Calendar.**

It represents important semester-specific dates and deadlines for students, academic and administrative departments, and instructors.

#### **Academic Year.**

The period of instruction composed of the fall, spring, and summer semesters. The academic year begins at the start of the fall semester and ends after the last day of the summer semester.

#### **Add/Drop Period.**

Days set aside by the University for Students to change their study schedule by adding or dropping courses in a specific semester.

#### **Academic Advisor.**

A faculty member who advises students on their study plan and course selection, monitors their academic progress, assists in their career planning, and guides in other academic and non-academic matters.

#### **Conditional Admission.**

Conditional admission of a student to a college or university is dependent upon the individual successfully completing coursework, or meeting other specified criteria, in order to progress into the full set of courses within the academic program.

#### **Learning Outcomes.**

In the context of QFEmirates, this refers to knowledge, skills, and aspects of competence that a learner is expected to know and be able to do at each level of a qualification (see <https://www.nqa.gov.ae/en>).

#### **Credit Transfer.**

A system whereby successfully completed units of study contributing towards a degree or diploma can be transferred from one program to another.

#### **Prerequisite.**

A course or courses that serve as foundations for continued (advanced) courses. A student must successfully pass a prerequisite course before taking a course for which it is a prerequisite.

### **Electives.**

Courses which are not compulsory for students. Electives may be free—selected by the student from any course offerings, or restricted—chosen from a pre-determined list of options.

### **Remedial Courses or Programs.**

Such courses or programs prepare a student for enrolling in a regular program, and aid the student in rectifying an area or areas of deficiency. Remedial courses are non-credit courses and do not count toward the requirements of an academic qualification.

### **Bridge Program.**

A program intended to “bridge the gap” between a student's prior work and the background required for the program he/she is entering. Typically, such a program would be needed, for instance, by students entering graduate business education where the student’s undergraduate major was in an area other than business, or graduate engineering programs where the student’s major was in a different engineering specialty. The courses in a bridge program typically do not carry degree credit. Institutions may choose to require enrolment in bridge programs as a condition of admission. The term “bridge program” is also used in nursing to refer to a Bachelor's degree “top-up” program whose entry level is a Diploma in Nursing.

### **General Education.**

General education is that aspect of an undergraduate curriculum intended to provide students with critical thinking skills; a broad understanding of the approaches to knowledge such as the humanities, the arts, the social sciences or the sciences; a common core of understanding among students (such as in Islamic studies or other cultural studies); and a level of skill appropriate to higher education in mathematics, information literacy, the application of technology and communications (oral and written).

### **Independent Study.**

A course in which a student is individually supervised by a faculty member, which enables a student to undertake a learning opportunity which is otherwise unavailable. Independent study courses must have an appropriate learning plan (typically a syllabus), learning outcomes, end of term evaluations and appropriate assessment. The SPA limit the amount of such credit that can be applied to an undergraduate qualification.

### **Internship.**

The term applies to an experience in which a student has a program-related assignment involving attachment to a recognized business, agency or organization. The internship must be appropriate to the major or program of study of the student. The term “practicum” is usually synonymous with internship.

## إتقان اللغة الإنجليزية

يُمنح القبول الكامل في البرامج التي تكون اللغة الإنجليزية هي لغة التدريس فقط للمتقدمين الذين يحققون درجة 80% في مادة اللغة الإنجليزية في الصف الثاني عشر (لبعض البرامج)، أو درجة لا تقل عن 500 في اختبار التوفل (الاختبار الورقي)، أو درجة 61 في اختبار التوفل (الدولي)، أو درجة 173 في الاختبار على الحاسوب، أو درجة 5 في اختبار IELTS Academic.

- سيتم تعليم المسابقات المحولة في السجل الدراسي بالحرف (T) فقط عندما يتم تسليم المستندات المطلوبة أصولاً إلى مكتب القبول والتسجيل والتأكد من صحة تلك المستندات.

- لمكتب القبول والتسجيل صلاحية التحقق من دقة معلومات السجلات الأكاديمية من المؤسسة التعليمية السابقة.
- يتم اتخاذ قرار القبول على أساس تنافسي، مع الأخذ في الاعتبار عدد المقاعد المتاحة على النحو الذي تحدده الكلية والمعدل التراكمي النهائي لمقدم الطلب، وتعطى الأولوية لخريجي الثانوية الجدد.

## معايير القبول

يحدد المجلس الأكاديمي في جامعة عجمان عدد الطلبة الذين سيتم قبولهم في البرامج الأكاديمية في كل فصل دراسي وفقاً لموارد الجامعة المتاحة. إن سياسة القبول في جامعة عجمان غير تمييزية، حيث يتم اتخاذ قرار قبول الطالب على أساس تنافسي، مع الأخذ بعين الاعتبار عدد المقاعد المتاحة على النحو الذي تحدده كل كلية ودرجة امتحان الثانوية العامة لمقدم الطلب.

## القبول تحت المراقبة/المشروط

### فئات القبول:

عند الانتهاء من عملية القبول، يمنح الطالب قبولاً مشروطاً أو كاملاً من قبل وحدة استقطاب وقبول الطلبة. وإذا كانت حالة طلب الالتحاق هي مؤقت أو على قائمة الانتظار أو مرفوض أو ملغي فسيتلقى الطالب عرضاً أو رسالة لإبلاغه عن حالة الطلب.

#### 1. عروض القبول:

##### 1.1. عرض القبول الكامل:

يمنح الطلبة الذين استوفوا جميع المتطلبات العامة والأكاديمية قبولاً كاملاً.

##### 2.2. عرض القبول المشروط:

- يمنح القبول المشروط للطلبة اللذين لم يستوفوا شروط قبول معينة ويطبق عرض القبول المشروط على الطالب الذي يرغب في الالتحاق بأحد البرامج المذكورة أدناه والحاصل على أقل من الحد الأدنى المطلوب في امتحان الثانوية العامة. وهذا ينطبق فقط على البرامج التالية: وبكالوريوس في التصميم الداخلي، وبكالوريوس العلوم في الإدارة، وبكالوريوس العلوم في التسويق، وبكالوريوس العلوم في المحاسبة، وبكالوريوس العلوم في التمويل، وبكالوريوس الآداب في علم الاجتماع والخدمة الاجتماعية، وبكالوريوس الآداب في علم النفس، وبكالوريوس الإعلام.
- يسجل الطالب على 3 مساقات استدرابية يتم تحديدها حسب متطلبات البرنامج ودرجة المواد ذات الصلة في شهادة الثانوية العامة.
- يطلب من الطلبة الحاصلين على القبول المشروط الموافقة على العرض واستيفاء الشروط خلال الموعد النهائي المحدد وهو فصل دراسي واحد ساري المفعول اعتباراً من تاريخ الالتحاق إلى جامعة عجمان.
- لا يمكن للطالب المطالبة باسترداد أي رسوم دراسية في حال عدم استيفائه للمتطلبات والشروط ضمن الإطار الزمني المحدد. لكن يحق للطالب طلب أي وثيقة تتعلق بسجلاته الأكاديمية.

#### 2. حال القبول:

##### 2.1. القبول المؤقت:

الطلبة الذين تم منحهم عرض قبول المؤقت بسبب شروط القبول.

- ستحدد الأحكام الواردة في خطاب القبول وقد تشمل، دون أن تقتصر على، درجة الثانوية العامة الأخيرة، سداد رسوم حجز المقعد (إن وجدت) ، أو شروط ومتطلبات كلية محددة خلال الموعد النهائي المحدد في خطاب عرض القبول.
- سيؤدي عدم تحقيق المتطلبات والشروط خلال الموعد النهائي المحدد في خطاب عرض القبول إلى سحب العرض.
- بالنسبة لبعض شروط القبول، قد يكون العرض المؤقت الممنوح للطالب هو بمثابة انتقال إلى عرض القبول المشروط. (ينطبق هذا على برامج معينة ومتطلبات محددة فقط).

- لا يمكن للطالب المطالبة باسترداد أي رسوم دراسية في حال عدم استيفائه للمتطلبات والشروط ضمن الإطار الزمني المحدد.

## 2.2. قائمة الانتظار:

- يتم اتخاذ قرار القبول على أساس تنافسي، مع الأخذ في الاعتبار عدد المقاعد المتاحة على النحو الذي تحدده كل كلية ودرجة امتحان الثانوية العامة لمقدم الطلب.
- سيتلقى الطلبة المدرجة أسمائهم على قائمة الانتظار إشعارات عبر البريد الإلكتروني لإبلاغهم عن عرض قائمة الانتظار والموعود النهائي المتوقع لصدور القرار.
- في حال رغبة الطالب برفض عرض قائمة الانتظار فسيتم تحويل طلب التحاقه إلى البرنامج الأكاديمي المحدد التالي إذا كان متاحاً وإلا فسيتم رفض طلب الالتحاق.
- بعد انتهاء الموعود النهائي لصدور القرار سيتم تقييم طلب الالتحاق المدرج على قائمة الانتظار للبرنامج الأكاديمي المحدد التالي إذا كان متاحاً وإلا فسيتم رفض طلب الالتحاق.

## 2.3. مرفوض:

- قد يتم رفض طلب الالتحاق خلال المراجعة الأولية مع ذكر سبب الرفض والذي قد يكون أحد الأسباب التالية:
- عدم استيفاء الطالب للحد الأدنى من شروط القبول ودرجة الثانوية العامة ، وعدم اجتيازه لاختبار القبول بالكلية وما إلى ذلك.
  - عدم توفر المقاعد.

- رفض خطاب العرض من قبل المتقدم.

تشتمل نتيجة اختبارات الفصل الدراسي والأنشطة على علامات للاختبارات والامتحانات والواجبات والأبحاث والعمل المخبري. علامة النجاح في كل مساق هي ستين في المئة ماعدا الطب البشري فهي سبعين بالمائة..

## المعدل الفصلي

يشير المعدل الفصلي إلى أداء الطالب خلال الفصل الدراسي، ويُحسب على النحو الآتي: إجمالي النقاط لكل مساق في الفصل الدراسي مضروبة في الساعات المعتمدة، مقسومًا على إجمالي عدد الساعات المعتمدة المسجلة في الفصل الدراسي.

على سبيل المثال، إذا حصل الطالب على النتائج كما هو موضح في الجدول الوارد أدناه، فيحتسب معدل الفصل الدراسي على النحو الآتي: المعدل الفصلي =  $3 = 18/54 = 18/(6+12+12+9+6+9)$

| المادة    | الساعات المعتمدة | النقاط | عدد الساعات حسب النقاط |
|-----------|------------------|--------|------------------------|
| رياضيات 1 | 3                | 3      | 9                      |
| إحصاء     | 3                | 2      | 6                      |

|               |    |   |         |
|---------------|----|---|---------|
| فيزياء 2      | 3  | 3 | 9       |
| ثقافة إسلامية | 3  | 4 | 12      |
| لغة عربية     | 3  | 4 | 12      |
| علم نفس       | 3  | 2 | 6       |
| المجموع       | 18 |   | 54 نقطة |

## المعدل التراكمي

يشير المعدل التراكمي إلى متوسط أداء الطالب خلال جميع الفصول الدراسية حتى الفصل الدراسي النهائي أو الحالي. ويُحتسب على النحو الآتي: إجمالي النقاط في كل مادة دراسية تسجل فيها حتى الآن، مضروبة بعدد ساعاتها المعتمدة، مقسومة على إجمالي عدد الساعات المعتمدة.

إذا أعاد الطالب مادة دراسية حصل فيها على درجة "F"، أو فعل ذلك لتحسين المعدل التراكمي، فُتحتسب الدرجة الأخيرة التي حصل عليها بغض النظر عما إذا كانت الدرجة الأخيرة هي الأعلى أم لا. ومع ذلك، فإن العلامة الأولى سوف تستمر في الظهور في السجل الأكاديمي بدون التأثير على حساب المعدل التراكمي.

يُستخدم المعدل التراكمي أيضًا في الإنذار الأكاديمي على النحو الآتي: بدءًا من نهاية الفصل الدراسي الثاني، إذا كان المعدل التراكمي للطالب أقل من 2.0، فيعتبر طالبًا "حاصلًا على إنذار من الناحية الأكاديمية" وسيُطلب منه تحسين أدائه الأكاديمي لرفع المعدل التراكمي إلى 2.0 أو أعلى. (راجع القسم 12 للاطلاع على السياسة المنظمة للعبء الدراسي للطلاب الحاصلين على إنذار).

لن يُسمح للطالب بالتخرج إلا إذا كان المعدل التراكمي على الأقل (2.0) في جميع برامج البكالوريوس بما عدا برنامج الطب والجراحة فيجب أن يكون المعدل التراكمي 2.5 على الأقل (حتى إذا كان قد اجتاز جميع المقررات المطلوبة لبرنامج الدراسة. في هذه الحالة، وبالتشاور مع المرشد الأكاديمي، يجب على الطالب إعادة عدد من المساقات الدراسية من أجل رفع المعدل التراكمي إلى 2.0 أو 2.5 لطلاب الطب والجراحة كحد أدنى.

## تقدير غير مكتمل

إذا لم يحضر الطالب الامتحان النهائي بسبب حالة طوارئ وحقق ما مجموعه على الأقل 30 من أصل 70 في الأعمال الفصلية (الاختبارات وامتحان نصف الفصل) يمكن اعتبار المساق "غير مكتمل". يقبل عذر عدم حضور الامتحان النهائي بسبب حدوث حالة طوارئ كالآتي:

أ. حالة مرضية وتقرير طبي معتمد من عيادة الجامعة؛

ب. شهادة وفاة أحد الأقارب من الدرجة الأولى أو الثانية؛

ج. اعتقال أو استدعاء أمام محكمة أو هيئة قانونية أخرى؛ أو

د. أضرار أخرى يقبلها مجلس الكلية.

في هذه الحالات، يجب على الطالب تقديم طلب غير مكتمل إلكتروني في غضون ثلاثة أيام عمل. يجب عليه أيضًا تارفاق الوثائق المدعومة للطلب، ويجب عليه دفع رسوم "طلب غير المكتمل". لن يتم قبول الطلبات المقدمة من الطلاب المساق الذي حصلوا على الرسوب فيه بسبب الغياب بنسبة 25 بالمائة.

## ملاحظة:

1. يتحمل الطالب مسؤولية المتابعة مع الكلية لتحديد تاريخ الامتحان بهدف إزالة تقدير الغير المكتمل وفقًا للتاريخ المحدد في التقويم الجامعي.

2. يجب على الطالب الذي اكتسب تقدير "غير مكتمل" أن يخضع لامتحان النهائي قبل نهاية الأسبوع الأول من الفصل التالي الذي يسجل فيه، كما هو مبين في التقويم الأكاديمي، وإلا سيحصل على تقدير (F).

## امتحان التعويض

يمكن للطلاب الذين لديهم امتحانين نهائيين في نفس الوقت أو لديهم ثلاثة امتحانات نهائية في نفس اليوم طلب تقديم امتحان تعويضي بالتوافق مع التواريخ المحددة في التقويم الأكاديمي.

إعادة الامتحان

فيما يتعلق بالطلاب الذي يرسب في الفصل الدراسي الأخير له في مساق واحد (بخلاف التدريب) في البرنامج أو يغيب عن الامتحان النهائي ولا يكون مؤهل للحصول على تقدير غير مكتمل، يجوز له إجراء إعادة اختبار المساق في الحالات الآتية:

- في حال حضر أكثر من 75 % من المحاضرات الدراسية؛
- في حال لم يكن خاضعاً لعقوبات تأديبية مترتبة عن الانتهاكات الأكاديمية في إطار المادة المعنية.

### ملاحظات

- يجب أن تكون درجة الامتحان المعد من 30 (كأي اختبار نهائي) للطلاب الذين يحققون درجة لا تقل عن 70/42 في الأعمال الفصلية للمساق
- يُسمح للطلاب الذين يحققون درجة أقل من 70/42 في الأعمال الفصلية في المساق بالجلوس لامتحان شامل من 100. ويكون الحد الأقصى للعلامة النهائية في المادة "C".
- يجب دفع رسوم قدرها 50 في المائة من رسوم المساق ويجب على الطالب إجراء الاختبار النهائي قبل بداية الفصل الدراسي التالي.

## تظلم الطالب على الدرجة

استئناف تقدير الطالب هو طلب لمراجعة قرار تم اتخاذه فيما يتعلق بتقدير الطالب. توفر هذه السياسة، التي تنطبق على جميع الطلاب المسجلين في جامعة عجمان، وسيلة لطلب إعادة النظر في قرار الدرجة دون التعرض لخطر الحرمان.

يجب تقديم شكاوى الدرجات المتعلقة بنتائج الامتحان النهائي في غضون 15 يومًا بعد إعلان نتائج الامتحان. يمكن للطلاب الطعن في الدرجة النهائية بعد نشرها من خلال الإجراءات الرسمية، وسيتم الرد على طلباتهم قبل بداية الفصل الدراسي التالي. يجب على الطلاب الراغبين في الطعن على نتيجة الاختبار النهائي التقيد بالإجراءات التالية: إجراءات التظلم على الدرجة

1. يمكن للطلاب طلب المشورة والتوجيه من مستشاره و / أو مدرس الدورة للاستفادة من فرص الحل المبكر و / أو غير الرسمي. في هذه الحالة، إذا لم يتم حل المشكلة مع المدرس من خلال حل غير رسمي، يجوز للطلاب إرسال طلب عبر الإنترنت من خلال نظام الطلبات الإلكتروني (ORS)، والذي يتم توجيهه إلى مكتب التسجيل.

2. يقوم مكتب التسجيل بفحص الطلب للتأكد من صحة الطلب.

3. بعد الموافقة من مكتب التسجيل، يتم توجيه الطلب إلى مكتب المالية لتخصيص الرسوم.

4. يحول الطلب بعد ذلك إلى الكلية المعنية حيث تجري المداولات واتخاذ القرار. عند استلام الطلب، تشكل الكلية لجنة من ثلاثة أعضاء تضم مدرس الدورة. ستجتمع اللجنة وتراجع حساب التقدير لتحديد الخطأ الحسابي أو الكتابي أو أي شيء مخالف للسياسات والإجراءات المنصوص عليها في منهج الدورة. يجب أن تكمل الكلية المداولة والقرار بشأن استئناف الدرجة في غضون أسبوعين من استلام الطلب.

5. في حالة رفض الكلية للاعتراض، يتم إرسال بريد إلكتروني آلي للطلاب لإخطاره بالقرار. يمكن للطلاب أيضًا الوصول إلى النظام للتحقق عبر الإنترنت من حالة استئناف الدرجة (التظلم).

6. في حالة الموافقة على التظلم من قبل الكلية، يتم توجيه القرار إلى مكتب التسجيل ليعكس تغيير الدرجة المعتمدة في السجل الأكاديمي للطلاب.

7. سيتلقى الطالب إشعارًا بالبريد الإلكتروني على بريده الإلكتروني بالجامعة يفيد بأن الطلب قد اكتمل وأنه تم تغيير الدرجة. يستطيع الطالب التحقق من الحالة المكتملة للطلب من خلال الوصول إلى نظام الطلبات الإلكتروني.

8. يحتفظ مكتب التسجيل بسجلات إلكترونية للطعون والشكاوى سواء تمت الموافقة عليها أو رفضها.

الحصول على ساعات معتمدة تحت الإشراف

قد توافق الكليات على الحصول على ساعات معتمدة تحت الإشراف في مواد دراسية مختارة مصممة للطلاب الجامعيين الذين أتموا 50 في المائة من الاعتمادات المطلوبة للتخرج. الغرض من هذه المسافات هو تمكين دراسة جميع وحدات المادة الدراسية تحت إشراف عضو هيئة تدريس على أساس جلسة اجتماع. يجب ألا يقل الجدول لهذه الاجتماعات عن 15 ساعة لكل فصل دراسي.

يجب أن يغطي العمل الخاضع للإشراف جميع محتويات المادة الدراسية وتحقيق أهدافها ويجب على المشرف التأكد من أن المادة الدراسية تهدف إلى تنمية معارف الطلاب ومهاراتهم كما هو مطلوب في مخطط المادة الدراسية.

تشمل الأسباب التي تجعل الطالب يرغب في حضور مادة دراسية تحت الإشراف:

أ. لتعديل خطته الدراسية عن طريق إكمال مادة دراسية محددة غير متوفرة خلال الفصل الدراسي.

ب. لإكمال المادة الدراسية غير المتوفرة، حيث تكون مطلوبة للتخرج خلال الفصل الدراسي النهائي.

ج. لاكتساب معرفة وخبرة عملية إضافية في تصميم وإجراء وتحليل وتوثيق المواد الدراسية.

يجوز الحصول على تسع ساعات معتمدة كحد أقصى من الدراسة الخاضعة للإشراف خلال برنامج الطالب الجامعي، ولا يجوز للطلاب التسجيل لأكثر من ثلاث ساعات معتمدة من الدراسة الخاضعة للإشراف لكل فصل دراسي.

يجري التقييم على النحو الآتي:

أ. يُطلب من الطلاب الجلوس في امتحان خطّي يقيمه المشرف، وتكون علامة الامتحان 20% من علامة المادة النهائية؛

ب. في نهاية الفصل الدراسي، يقدم الطلاب تقريراً مكتوباً إلى المشرف يوضح بالتفصيل العمل المنجز، تكون علامة التقرير بنسبة 40% من علامة المادة النهائية؛

ج. يقدم الطلاب أعمالهم إلى مشرف داخلي. تكون علامة العرض الشفهي بنسبة 40% من علامة المادة النهائية.

تُحدد الدرجة النهائية للطلاب في المادة الدراسية الخاضعة للإشراف من المشرف على الطالب والمشرف الداخلي بعد تقييم عمل الطالب والتقرير المكتوب والعرض الشفهي والإجابة على الأسئلة.

## سياسة الحضور

يعتبر حضور المحاضرات الدراسية إلزامياً لجميع المساقات الدراسية. لن يُسمح للطلاب بإجراء الامتحان النهائي إذا تغيب بنسبة 25 في المائة عن المحاضرات في مساق معين، وفيما يلي توضيح لسياسات انذارات الغياب:

— إذا تغيب الطالب بنسبة 10 بالمائة عن حضور ساعات الدراسة النظرية والعملية، فسيصدر المحاضر إنذاراً أولياً عن الغياب بنسبة 10 بالمائة.

— إذا تغيب الطالب بنسبة 20 بالمائة عن حضور ساعات الدراسة النظرية والعملية، يقوم المحاضر بإصدار إنذار للغياب بنسبة 20 بالمائة.

— إذا تغيب الطالب بنسبة 25 في المائة عن حضور ساعات الدراسة النظرية والعملية، يصدر المحاضر إنذار بالغياب بنسبة 25 في المائة ويحصل الطالب على درجة F.

قد ينظر مجلس الشؤون الأكاديمية والعلمية في انسحاب الطالب من المساق إذا جرى تقديم سبب كافٍ ومقنع للغياب إلى مكتب التسجيل.

## الإنذارات الأكاديمية

في نهاية كل فصل دراسي منتظم، يجب على الطالب الذي يسعى للحصول على درجة البكالوريوس الحفاظ على معدل تراكمي (CGPA) بقيمة 2.0 أو أعلى ليُعتبر في وضع أكاديمي جيد.

1. إذا إنخفض المعدل التراكمي للطالب عن 2.0 خلال الفصل الدراسي الأول (الخريف أو الربيع)، سيتلقى الطالب تحذيراً أكاديمياً بعد انتهاء فصله الدراسي الأول المنتظم. التحذير الأكاديمي هو إشعار أكاديمي لتنبيه الطلاب بأدائهم الأكاديمي ولفريق الدعم الأكاديمي في الجامعة لتقديم الدعم المطلوب.

- (a) سيكون الطالب تحت برامج الإرشاد والمتابعة الأكاديمية لتقديم الدعم الكامل للطالب، سواء أكان ذلك من الناحية الأكاديمية من خلال مركز نجاح الطلاب (SSC) أو غير الأكاديمية من خلال وحدة الإرشاد (CU)، ولتقييم تقدم الطالب الأكاديمي عن كتب من قبل مرشده الأكاديمي ومدّرسي المساقات بهدف رفع المعدل التراكمي (cGPA) إلى 2.0 أو أعلى.
- (b) سيقوم المرشد الأكاديمي بالموافقة على قائمة المساقات التي يمكن للطالب التسجيل فيها. يفضل إعادة المساقات التي حصل الطالب فيها على تقدير F أو D أو D+ إذا كانت متاحة في الفصل الربيعي أو الفصل الصيفي.
- (c) لا يتم تسجيل التحذير الأكاديمي في سجل الطالب الأكاديمي.
- (d) إذا استمر المعدل التراكمي (cGPA) للطالب أقل من 2.0 بعد فصله الدراسي الثاني المنتظم، سيظل في وضع التحذير الأكاديمي وتحت برامج الإرشاد والمراقبة الأكاديمية.
- (e) يتم إبلاغ الطالب ومرشده الأكاديمي والكفيل (إن وجد) بوضع التحذير الأكاديمي للطالب. سيتم أيضًا تزويد كفيل الطالب (إن وجد) بسجل الطالب الأكاديمي عبر البريد الإلكتروني إذا تم طلب ذلك.
2. إذا كان المعدل التراكمي (cGPA) للطالب أقل من 2.0 بعد إكمال ثلاث فصول دراسية منتظمة أو بعد أن كان في وضع أكاديمي جيد لأكثر من ثلاثة فصول دراسية، فسيحصل الطالب على إنذار أكاديمي أول (AP1) وسيتم وضعه تحت الإنذار الأكاديمي من قبل مكتب التسجيل.
- (a) سيتم إبلاغ الطالب ومرشده الأكاديمي والكفيل (إن وجد) بوضع الإنذار الأكاديمي للطالب. سيتم أيضًا تزويد كفيل الطالب (إن وجد) بسجل الطالب الأكاديمي عبر البريد الإلكتروني إذا تقدم بطلب.
- (b) سيتم تحديث حالة الطالب على سجله الأكاديمي.
- (c) سيكون الطالب تحت برامج الإرشاد والمراقبة الأكاديمية لتقديم الدعم الكامل للطالب من الناحية الأكاديمية من خلال مركز نجاح الطلاب (SSC) ومن غير الأكاديمية من خلال وحدة الإرشاد (CU).
- (d) يتم تقييم العبء الدراسي للطالب الذي يخضع للإنذار الأكاديمي من النوع AP1. يمكن للطالب التسجيل لمدة أقصاها 15 ساعة معتمدة (CH)، منها ما لا يقل عن ثلاث ساعات معتمدة (تكون الأولوية لإعادة المساقات التي حصل الطالب فيها على تقدير (F) أو (D) أو (+D)). يجب موافقة مرشد الطالب الأكاديمي على قائمة المساقات التي يجب على الطالب التسجيل فيها.
3. في حال أخفق الطالب في رفع المعدل التراكمي إلى 2.0 أو أعلى في نهاية الفصل التالي (باستثناء الفصل الصيفي) بعد صدور الإنذار الأول، يصدر الإنذار الثاني في هذه الحالة. فسيحصل الطالب على إنذار أكاديمي ثاني (AP2) وسيتم وضعه تحت الإنذار الأكاديمي من قبل مكتب التسجيل.
- (a) سيتم إبلاغ الطالب ومرشده الأكاديمي والكفيل (إن وجد) بوضع الإنذار الأكاديمي للطالب. سيتم أيضًا تزويد كفيل الطالب (إن وجد) بسجل الطالب الأكاديمي عبر البريد الإلكتروني إذا تقدم بطلب.
- (b) سيتم تحديث حالة الطالب على سجله الأكاديمي.
- (c) يمكن للطالب التسجيل لمدة أقصاها 12 ساعة معتمدة (CH)، منها ما لا يقل عن ست ساعات معتمدة (تكون الأولوية لإعادة المساقات التي حصل الطالب فيها على تقدير (F) أو (D) أو (+D)). يجب موافقة مرشد الطالب الأكاديمي على قائمة المساقات التي يجب على الطالب التسجيل فيها.
- (d) إذا حصل الطالب على AP2، تقوم الكلية بتقييم السجل الأكاديمي للطالب، وقدرته على مواصلة الدراسة في التخصص للوصول إلى وضع أكاديمي جيد، وإمكانية رفع المعدل التراكمي (cGPA) للطالب إلى 2.0 على الأقل بنهاية الفصل الدراسي التالي. على المجلس أن يتخذ القرار المناسب، إما بمواصلة دراسته أو تغيير التخصص.
4. في حال أخفق الطالب في رفع المعدل التراكمي إلى 2.0 أو أعلى في نهاية الفصل التالي (باستثناء الفصل الصيفي) بعد صدور الإنذار الثاني، فسيحصل الطالب على إنذار أكاديمي ثالث (AP3) وسيتم وضعه تحت الإنذار الأكاديمي من قبل مكتب التسجيل.
- (a) سيتم إبلاغ الطالب ومرشده الأكاديمي والكفيل (إن وجد) بوضع الإنذار الأكاديمي للطالب. سيتم أيضًا تزويد كفيل الطالب (إن وجد) بسجل الطالب الأكاديمي عبر البريد الإلكتروني إذا تقدم بطلب.
- (b) سيتم تحديث حالة الطالب على سجله الأكاديمي.

5. إذا حصل الطالب على إنذار أكاديمي من النوع الثالث (AP3) وكان معدله التراكمي (cGPA) 1.7 أو أعلى وقد أكمل 70% على الأقل من إجمالي الساعات المعتمدة للبرنامج، فسيتم منحه فرصة لفصلين دراسيين منتظمين لرفع المعدل التراكمي (cGPA) إلى 2.0.

(a) سيتم تقييد العبء الدراسي للطالب لمدة أقصاها 9 ساعات معتمدة (CH)، منها ما لا يقل عن ست ساعات معتمدة (تكون الأولوية لإعادة المساقات التي حصل الطالب فيها على تقدير (F) أو (D) أو (+D)).

(b) يجب موافقة مرشد الطالب الأكاديمي على قائمة المساقات التي يجب على الطالب التسجيل فيها.

(c) في حال أخفق الطالب في رفع المعدل التراكمي إلى 2.0 أو أعلى في نهاية ترة الفصلين الدراسيين، سيتم إصدار إنذار أكاديمي نهائي ثالث (RAP3). لا يمكن للطالب الذي يحمل إنذار RAP3 الاستمرار في التخصص، وسيتم تقييم وضعه من قبل مجلس الكلية بخيارين فقط:

(d) التحول إلى تخصص آخر، شريطة أن يستوفي متطلبات القبول لهذا التخصص؛ أو

(e) فصل أكاديمي من الجامعة.

(f) سيتم إبلاغ الطالب ومرشده الأكاديمي والكفيل (إن وجد) بوضع الإنذار الأكاديمي للطالب. سيتم أيضاً تزويد كفيل الطالب (إن وجد) بسجل الطالب الأكاديمي عبر البريد الإلكتروني إذا تقدم بطلب.

6. إذا حصل الطالب على إنذاراً أكاديمياً من النوع AP3 ويندرج تحت إحدى الفئات التالية:

(a) أكمل ما لا يقل عن 70% من إجمالي الساعات المعتمدة للبرنامج ولكن معدله التراكمي (cGPA) أقل من 1.7؛ أو

(b) لم يكمل ما لا يقل عن 70% من إجمالي الساعات المعتمدة للبرنامج وكان المعدل التراكمي (cGPA) له / لها أقل من 2.0

إذا كان الطالب يندرج تحت إحدى الفئتين 6a أو 6b، توصي الكلية بأحد الخيارات التالية:

i. التحول إلى تخصص آخر، شريطة أن يستوفي متطلبات القبول لهذا التخصص؛ أو

ii. فصل أكاديمي من الجامعة.

يلخص الجدول التالي التحذيرات الأكاديمية المختلفة والإنذارات وتأثيرها على العبء الدراسي للطالب:

| نوع التحذير/الإنذار      | الفصل الدراسي التي أصدر فيه التحذير/الإنذار   | العبء الدراسي          | عدد الساعات للمسابقات المعادة |
|--------------------------|---|------------------------|-------------------------------|
| التحذير الأكاديمي        | بعد الفصلين الدراسيين الأول والثاني المنتظمين | موافقة المشد الأكاديمي |                               |
| إنذار أكاديمي أول (AP1)  | بعد الفصل الدراسي الثالث المنتظم              | 15 C.H.                | 3 C.H.                        |
| إنذار أكاديمي ثاني (AP2) | بعد الفصل الدراسي المنتظم التالي لـ AP1       | 12 C.H.                | 6 C.H.                        |
| إنذار أكاديمي ثالث (AP3) | بعد الفصل الدراسي المنتظم التالي لـ AP2       | 9 C.H.                 | 6 C.H.                        |

## متطلبات التخرج

يُمنح الطالب درجة علمية عند استيفاء الشروط الآتية:

أ. النجاح في جميع المساقات الدراسية المرتبطة بالبرنامج الأكاديمي؛

ب. إنجاز التدريب العملي على النحو المحدد في الخطة الدراسية.

ج. الحصول على معدل تراكمي لا يقل عن 2.0 نقطة و 2.5 نقطة في برنامج الطب والجراحة .

#### ملاحظة:

يمكن للطلاب الذي أكمل جميع متطلبات التخرج المذكورة أعلاه الحصول على شهادة التخرج ، أو كشف الدرجات ، أو الدبلوم (الجدارية) ، أو أي خطاب تخرج آخر ذي صلة ، فقط بعد الموافقة على إخلاء طرفه من قبل الكلية والمكاتب المعنية حيث لا يمكن الموافقة عليه ، إذا كان لديه مستحقات تجاه جامعة عجمان. يحق لجامعة عجمان حجب الشهادات ، السجلات الأكاديمية أو أي خطاب آخر إذا لم يفي بالتزاماته تجاه جامعة عجمان ، بما في ذلك الالتزامات المالية أو المستحقات.

#### يُحدد التقدير وفقاً للجدول الآتي:

### التخصص المزدوج , و الرئيسي/الفرعي , الدقيق , والدرجة ثانية

#### التخصص المزدوج

لا توفر الجامعة حالياً خيار التخصص المزدوج لأي من برامجها.

#### التخصص الدقيق

هو مجموعة من المسابقات التي تمثل تخصص فرعي مأخوذ في مجال الدراسة الرئيسي. وفقاً لمعايير CAA لعام 2019 ، يمكن انعكاس التخصص الدقيق في السجل الأكاديمي للطلاب ولكن ليس على شهادة التخرج. يجب أن يتضمن التخصص الدقيق على 15 ساعة معتمدة على الأقل ، أو ما يعادلها ، في مجال متخصص حتى يتم التعرف عليها من قبل وزارة التربية والتعليم.

## الرسوم الدراسية والوائحات المالية

- تستند جامعة عجمان، في إطار عملها، على هيكل الرسوم الدراسية القائم على نظام الساعات المعتمدة، بالإضافة إلى رسوم أخرى. تحتفظ الجامعة بحق زيادة الرسوم الدراسية والرسوم الأخرى بنسبة أقصاها 10% في العام الدراسي الواحد، متى اعتبرت ذلك ضروريًا.
- يترتب على جميع الطلاب الذين يسجلون في مساق ما التزامات مالية تجاه جامعة عجمان، ويكونوا، بالتالي، مسؤولين عن تسديد كافة الرسوم المستحقة عليهم لصالح الجامعة، كما لا يُعتبر التخلف عن حضور الصفوف انسحابًا من المساق أو من الجامعة.
- يُسمح للطلاب التسجيل لفصل دراسي لاحق فقط في حال قاموا بتلبية جميع التزاماتهم المالية المستحقة لصالح الجامعة.

- تبلغ قيمة تقديم طلبات الالتحاق في برامج الدراسات الجامعية رسوم التسجيل مبلغًا وقدره 1,300 درهم إماراتي، حيث يتم تسديد هذا المبلغ نقدًا وبالكامل عند التسجيل، ولا يُعتبر جزءًا من الرسوم الدراسية، كما ولا يكون قابلاً للاسترداد، وذلك باستثناء حالة عدم قبول الطلب المقدم، حيث يسترد الطالب (ة) مبلغ وقدره 1,000 درهم إماراتي فقط من رسوم التسجيل.
- تبلغ رسوم التقديم والقبول في كلية الطب 2000 درهم إماراتي. يجب دفع الرسوم نقدًا على دفعة واحدة عند التسجيل، وليست جزءًا من الرسوم الدراسية. رسوم الطلب والقبول غير قابلة للاسترداد، إلا في حالة رفض الطلب وفي هذه الحالة سيتم رد مبلغ 1,700 درهم إماراتي إلى الطالب.

**ثانياً - مرحلة التدريب الخارجي:** وهي المرحلة التي ينتقل فيها الطالب لمواقع التدريب الخارجية (أي خارج الكلية)، ليتعرف وليمارس كل ما يكلف به من إجراءات وأعمال يطبق من خلالها المعارف التي تلقاها أثناء دراسته بالكلية.
