

Turnitin

Turnitin is a commercial, Internet-based plagiarism detection service. Universities and high schools typically use it, which checks submitted documents against its database and the content of other websites with the aim of identifying plagiarism. Results can identify similarities with existing sources, and can also be used in formative assessment to help students learn to avoid plagiarism and improve their writing.

Why using Turnitin

Prevent Plagiarism

Identify unoriginal content with the world's most effective plagiarism detection solution. Manage potential academic misconduct by highlighting similarities to the world's largest collection of internet, academic, and student paper content.

Authorship Investigate

Address contract cheating with confidence. Data driven insights help determine whether students are doing their own work, enabling you to uphold your institution's commitment to educational excellence

Provide Feedback

Empower students to think critically and take ownership of their work. Easy-to-use feedback and grading features facilitate instructional intervention and save time both in and outside of the classroom

Enhance Academic Skills

Prepare students for success in K-12, higher education, and beyond. Lay the foundation for original thinking, authentic writing, and academic integrity practices that will last a lifetime

Benefit of using Turnitin

Creates a Turnitin Moodle direct assignment which links an activity in moodle to an assignment on turnitin. once linked, the activity allows instructors to assess and provide feedback for student's written work using the assessment tools available within turnitin document viewer

How to use Turnitin

Inside the Moodle if user need to add the Turnitin, user should click on the requested course then press on **turn Editing on**,

then press on **Add an activity or resource**, then from the pop-up menu they should select **Turnitin assignment**, Then press on **ADD** button

From the add a new Turnitin screen:

User should

1. fill the **name of assignment**
2. write a brief summary (optional)
3. select what kind of submission type (recommended: **file upload**)
4. Make sure the **number of Parts** should be **(1)**.
5. Make sure **Allow submission of any file type is NO**
6. Make sure to Allow **Display Originality Reports to Students (yes)** if you want the student to **view** his similarity percentage.(recommended for resubmission option)

Adding a new Turnitin Assignment 2 to Topic 20 Expand all

Allow submission of any file type?

Display Originality Reports to Students

Grade Display

Auto Refresh Grades / Scores

Set these values as assignment defaults

Add the grade

- 1- Grade type is **Point**
- 2- Set the **Maximum grade** to assignment or project grade. (ex: 10)

▼ Grade

Grade	<input type="checkbox"/>	<div><p>Type <input type="text" value="Point"/></p><p>Scale <input type="text" value="Default competence scale"/></p><p>Maximum grade <input type="text" value="100"/></p></div>
Grade category	<input type="checkbox"/>	<input type="text" value="Uncategorised"/>
Grade to pass	<input type="checkbox"/>	<input type="text" value="0.00"/>

From the Assignment Part1:

User should set the below dates (**important**):

1. **Start Date:** the date when students will first be able to submit their assignments/papers
2. **Due Date:** the last day that they are allowed to submit, or the date that the paper is due.
3. **Post Date:** the date that marks and feedback from GradeMark are released to students.
4. **Max MARKS:** equal to maximum grade

From the Originality Report Options

User should identify:

1. Allow submissions after the due date
2. Report Generation Speed
which contain three types:
 - a. **Submit the assignment only once.** Resubmission is not allowed.
 - b. **Submit the assignment many times;** make sure Display Originality Reports to Students is yes.
(the most recommended option, it allows resubmission and the student will be able to view their similarity percentage and resubmit if required without the need of an exception)
 - c. **Submit the assignment many times and the result will be shown at due date for all students.**
(not recommended as the similarity percentage results might be delayed for large amount of submitted assignments)
