

Course List

Graduate Courses:

1. Networking Programming
2. Network Architecture Design
3. Network Security
4. Mobile Networking
5. Communication Networks: Architectures and Protocols

Undergraduate Courses:

1. Fund. of Data Comm & Networking
2. Network Operating Systems
3. Computer Communications and Networks
4. Electronics-II
5. Computer Organization and Architecture
6. Microprocessor & Computer Architecture
7. Computer Programming
8. Programming for Engineers
9. Introduction to Programming with MATLAB
10. Advanced Computer Networks
11. Enterprise Security
12. Electronics-I
13. Instrumentation and Measurements
14. Digital Logic Design
15. Microprocessor Systems
16. Data Structures and Algorithms
17. Engineering Ethics
18. Engineering Analysis
19. Wireless Networks and Mobile System Architecture
20. Object-Oriented Programming and Data Structures
